**Preachers of the City** Francisco García-Serrano, 1997      John Emerson Roberts: Kansas City's "Up-To-Date"  
Freethought Preacher Ellen Roberts Young, 2011-06-16 John Emerson Roberts 1853 1942 was a Kansas City Missouri success story Arriving in 1881 as a Baptist minister his developing ideas led him to abandon the idea of hell and become a Unitarian Soon that became too limited for him and he decided to preach on his own as a freethinker The local press eagerly followed his progress While his intellectual journey was common in his generation he was unique in creating a Church of freethought His sermons and lectures show a mixture of original thinking and conventional ideas typical of his time As an admirer of Robert Ingersoll the nineteenth century agnostic and a friend of Clarence Darrow the twentieth century atheist Robertss career spans an era of significant change in both cultural and intellectual history This pioneering study restores to memory the life and work of a once noted and popular religious leader who went from Baptist pastor to Unitarian minister and finally to an independent role in the Freethought movement Informed by profound scholarship and a warmly humanist style this book is a major contribution to the intellectual history of the Midwest Fred Whitehead author of Freethought on the American Frontier This biography of the authors great grandfather evokes vividly the now largely forgotten world of the heyday of liberal religion free thought and the urban lecture hall in an age when religion was fiercely competitive in the burgeoning cities of the Midwest Peter Williams Distinguished Professor of Comparative Religion and American Studies Miami University      Preacher and Homiletic Monthly ,1894      **The Last Disciple** David Pafford, 2011-11-17 In an era of religious mass production so many church models invest their energies toward gathering a crowd singing songs and preaching good sermons Much of the focus is on the shop window While this is important it is not enough Doing church is not enough Churches that grow disciples don t simply attract a crowd they provide a strategic theological basis for what they do and that requires serious thinking about the methodology of church life The Last Disciple is a book for those interested not simply in doing church but in asking hard questions about why we do what we do Answers to these hard questions are the very basis of the foundation of the local church s existence Rather than simply attracting a crowd have you evaluated why your church does church Have you ever felt that your church tradition has lost the meaning behind its existence What would it look like if you recaptured your church s meaning Is it possible to do this while bridging the relevancy gap of common culture There will be different answers for different contexts but this book will give you tools for thinking it through by asking the right questions      **The Christian Advocate** ,1928      *The Preacher's Commentary - Vol. 17: Isaiah 1-39* David L. Chris Park, 2002-11 Exploring the definitions of religion and its historical and ideological origins Chris Park looks at the ways in which religion its symbols rites beliefs and hopes has shaped and changed the world in which we live Preaching on Wax Lerone A. Martin, 2014-11-14 The overlooked African American religious history of the phonograph industry Winner of the 2015 Frank S and Elizabeth D Brewer Prize for outstanding scholarship in church history by a first time author presented by the American Society of Church History Certificate of Merit 2015 Award for Excellence in Historical Recorded Sound Research presented by the Association for Recorded Sound Collections From 1925 to 1941 approximately one hundred African American clergymen teamed up with leading record labels such as Columbia Paramount Victor RCA to record and sell their sermons on wax While white clerics of the era such as Aimee Semple McPherson and Charles Fuller became religious entrepreneurs and celebrities through their pioneering use of radio black clergy were largely marginalized from radio Instead they relied on other means to get their message out teaming up with corporate titans of the phonograph industry to package and distribute their old time gospel messages across the country Their nationally marketed folk sermons received an enthusiastic welcome by consumers at times even outselling top billing jazz and blues artists such as Bessie Smith and Ma Rainey These phonograph preachers significantly shaped the development of black religion during the interwar period playing a crucial role in establishing the contemporary religious practices of commodification broadcasting and celebrity Yet the fame and reach of these nationwide media ministries came at a price as phonograph preachers became subject to the principles of corporate America In Preaching on Wax Lerone A Martin offers the first full length account of the oft overlooked religious history of the phonograph industry He explains why a critical mass of African American ministers teamed up with the major phonograph labels of the day how and why black consumers eagerly purchased their religious records and how this phonograph religion significantly contributed to the shaping of modern African American Christianity

**African American Preachers and Politics** Dennis C. Dickerson, 2010-12-01 During most of the twentieth century Archibald J Carey Sr 1868 1931 and Archibald J Carey Jr 1908 1981 father and son exemplified a blend of ministry and politics that many African American religious leaders pursued Their sacred and secular concerns merged in efforts to improve the spiritual and material well being of their congregations But as political alliances became necessary both wrestled with moral consequences and varied outcomes Both were ministers to Chicago s largest African Methodist Episcopal Church congregations the senior Carey as a bishop and the junior Carey as a pastor and an attorney Bishop Carey associated himself mainly with Chicago mayor William Hale Thompson a Republican whom he presented to black voters as an ally When the mayor appointed Carey to the city s civil service commission Carey helped in the hiring and promotion of local blacks But alleged impropriety for selling jobs marred the bishop s tenure The junior Carey also a Republican and an alderman became head of the panel on anti discrimination in employment for the Eisenhower administration He aided innumerable black federal employees Although an influential benefactor of CORE and SCLC Carey associated with notorious

FBI director J Edgar Hoover and compromised support for Martin Luther King Jr Both Careys believed politics offered clergy the best opportunities to empower the black population Their imperfect alliances and mixed results however proved the complexity of combining the realms of spirituality and politics

### **Preaching Islamic Revival in East Africa** Chanfi

Ahmed,2018-06-11 This book deals with the new dynamics of Islam in East Africa Tanzania Kenya Uganda Sudan and Comoros and its attempt to expand through various missionary activities As Muslim reformers have done elsewhere in the world the reformers in East Africa are fighting for an Islamic awakening The central argument of this book is to say that although these activities are supported by contributions from transnational networks their origins go back to the frustration of Muslim communities of East Africa with politics education and professional training The other argument is to show that this Islamic awakening is not just about the Salafi or Muslim Brothers trend it concerns also Sh a Sufi Muslim Bible Scholars and others alike All these trends mimic each other while competing against each other at the same time They also take the same position vis vis the various Christian groups

### *From Priest's Whore to Pastor's Wife* Marjorie Elizabeth

Plummer,2016-04-22 On 13 June 1525 Martin Luther married Katharina von Bora a former nun in a private ceremony officiated by city preacher Johann Bugenhagen Whilst Luther was not the first former monk or Reformer to marry his marriage immediately became one of the iconic episodes of the Protestant Reformation From that point on the marital status of clergy would be a pivotal dividing line between the Catholic and Protestant churches Tackling the early stages of this divide this book provides a fresh assessment of clerical marriage in the first half of the sixteenth century when the debates were undecided and the intellectual and institutional situation remained fluid and changeable It investigates the way that clerical marriage was received and viewed in the dioceses of Mainz and Magdeburg under Archbishop Albrecht of Brandenburg from 1513 to 1545 By concentrating on a cross section of rural and urban settings from three key regions within this territory Saxony Franconia and Swabia the study is able to present a broad comparison of reactions to this contentious issue Although the marital status of the clergy remains perhaps the most identifiable difference between Protestant and Roman Catholic churches remarkably little research has been done on how the shift from a celibate to a married clergy took place during the Reformation in Germany or what reactions such a move elicited As such this book will be welcomed by all those wishing to gain greater insight not only into the theological debates but also into the interactions between social identity governance and religious practice
