Precedents in Architecture Roger H. Clark, Michael Pause, 2015-08-24 **The Architecture of Roman Temples** John W. Stamper, 2005-02-16 This book examines the development of Roman temple architecture from its earliest history in the sixth century BC to the reigns of Hadrian and the Antonines in the second century AD John Stamper analyzes the temples formal qualities the public spaces in which they were located and most importantly the authority of precedent in their designs He also traces Rome s temple architecture as it evolved over time and how it accommodated changing political and

religious contexts as well as the affects of new stylistic influences

Understanding Meaningful Environments:

Architectural Precedents and the Question of Identity in Creative Design Ali Guney, 2008-10-15 Understanding Meaningful Environments Architectural Precedents and the Question of Identity in Creative Design intends to put forward a discussion on the use of precedents and the production of innovative designs as well as to discuss the relationship between precedents and identity in a world undergoing a rapid process of globalization This publication provides insights into how the strategy of making use of design precedents as a source of knowledge rather than initiating a project from tabula rasa leads to efficient effective and or innovative results based in particular on the work of Le Corbusier and Santiago Calatrava In the sense that architects ideologies and intentions did not form a main position in this account one may say that it is not a value added approach However in this publication this other side of the use of precedents is explored i e recollection and intention because in addition to innovations the critical use of precedents seems to help in the production of buildings places that embody a critical notion of identity The goal of this study is to provide a reflection on the themes mentioned as well as to briefly discuss methods for precedent analysis

Architectural precedents, ed. by an architect [C. Davy]. Architectural precedents, 1840

Use and Adaptation of Precedents in Architectural Design Karina Moraes Zarzar, 2003 This is a Ph D thesis For centuries architects have used design precedents in the conception of new design solutions Whether explicitly as in the case of Le Corbusier James Stirling and Jo Coenen or implicitly as with J J P Oud Aldo van Eyk *The Rise of Awards in Architecture* Jean-Pierre Chupin, Carmela Cucuzzella, Georges Adamczyk, 2022-09-06 This book is the first scientific study to focus on awards in architecture and the built environment investigating their exponential growth since the 1980s The celebration of excellence in architecture and related fields remains a phenomenon on which there is strangely little scientific scrutiny What is to be understood from the plethora of award winning projects award winning buildings and awarded professional practices in the built environment year after year Glossy images partake in an intense ballet at every local regional national or international award ceremony and they are meant to embody proofs of architectural excellence However it is necessary to take a critical distance to question what awards are meant to embody symbolize and perhaps measure Each of the 10 chapters in this volume is centered on one question related to themes as varied as the comparison of Pritzker and Nobel Prizes the Prix de Rome the redefinition of quality through awards green awards and sustainability the multiplication of sustainable awards heritage awards architecture book awards the awarding of school architecture awards as mediations and awards as pedagogical devices Many fields once consolidated have featured a sharp increase in related prizes The original data compiled and summarized in 4 appendices cover more than 150 award granting organizations in some 30 countries Our inventory includes upwards of 24 000 prizes awarded at more than 3 100 events the earliest of which is the first instance of Western architecture s seminal Grand Prix de Rome in France in 1720 A history of contemporary architecture is thus written through press releases that praise the merits of the heroes as much as their works and

achievements And while awards can be vehicles that propel architecture forward they can also be Trojan horses in an era that is constantly on the lookout for event driven products small and big news and brand imaging Designing Architecture Andrew Pressman,2012-05-04 Designing Architecture is an indispensable tool to assist both students and young architects in formulating an idea transforming it into a building and making effective design decisions This book promotes integrative and critical thinking in the preliminary design of buildings to inspire creativity innovation and design excellence This compendium of individual wisdom and collective experience offers explicit guidance to students and young professionals on how to approach analyze and execute specific tasks develop and refine a process to facilitate the best possible design projects and create meaningful architectural form Here the design process from orchestrating client participation to finalizing schematic design is explored and illuminated The following material is presented to make the book a useful didactic tool for professional development explicit strategies for doing design rather than simply reviewing principles and precedents creative ideas in approaching and framing problems in design terms specific methods to translate ideas to culturally significant socially responsive and environmentally sensitive buildings techniques to integrate all levels of cognition from analysis to epiphany counsel on developing a personalized process for engaging design projects case studies augment the text and chronicle fascinating applications of the design process The essence of this book lies in an integrated and holistic approach to each unique project as well as fostering curiosity and exploration a departure from algorithms easy generalities or a formula for design Designing Architecture will inspire readers to elevate the quality of preliminary designs and unravel some of the mystery of creating the most beautiful responsive and responsible architectural design possible **Changing Trends in Architectural Design Education** Jamal Al-Qawasmi,2006 **Computer Aided Architectural Design Futures 2005** Bob Martens,Andre Brown,2005-12-06 MARTENS Bob and BROWN Andre Co conference Chairs CAAD Futures 2005 Computer Aided Architectural Design is a particularly dynamic field that is developing through the actions of architects software developers researchers technologists users and society alike CAAD tools in the architectural office are no longer prominent outsiders but have become ubiquitous tools for all professionals in the design disciplines At the same time techniques and tools from other fields and uses are entering the field of architectural design This is exemplified by the tendency to speak of Information and Communication Technology as a field in which CAAD is embedded Exciting new combinations are possible for those who are firmly grounded in an understanding of architectural design and who have a clear vision of the potential use of ICT CAAD Futures 2005 called for innovative and original papers in the field of Computer Aided Architectural Design that present rigorous high quality research and development work Papers should point towards the future but be based on a thorough understanding of the past and present **Architecture History, Theory and Preservation** Arleen Pabón-Charneco,2020-11-29 Architecture History Theory and Preservation critically explores the historic development theoretical underpinnings and conservation practices of architecture Complete with 170 full color

images this volume presents architectural and urban examples from Prehistory to the Middle Ages chronologically and thematically examining contextual issues that provide each period with distinctive expressions The special features structural systems materials and construction technologies are analyzed as well as how the international community deals with the task of interpreting and preserving certain historic properties This publication provides professors and students of architecture art history historic preservation and related fields with an integrated view of architecture using historical theoretical and conservation perspectives As an architect architectural historian and preservationist herself Dr Pab n Charneco weaves a field of relationships regarding each building creating a silent yet empowering bridge between past and present

Constructing the Architect Leonard R. Bachman, 2019-01-22 Unlike books that concentrate on the monuments and other artefacts that architects produce *Constructing the Architect* focuses on architecture as a disciplinary and professional process an institution of society and a career of learning and mastery In doing so it offers a lens into the architecture of architecture Mapping architecture as a coherent whole Leonard Bachman shows that the field must be understood as four mutually reinforcing modes of inquiry design research strategy and education Within this framework he explains how institutions and actors hold differing perspectives on the critical discourse that advances architecture and identifies the various tensions and leverage points for change within the discipline Featuring over 100 illustrations to support understanding of this highly visual subject this is an essential introduction for any student seeking to understand what it means to be an architect and to enter the professional discourse
