*Precedents, Statutes, and Analysis of Legal Concepts* Scott Brewer, 1998 At least since plato and Aristotle thinkers have pondered the relationship between philosophical arguments and the sophistical arguments offered by the Sophists who were the first professional lawyers Judges wield substantial political power and the justifications they offer for their decisions are a vital means by which citizens can assess the legitimacy of how that power is exercised However to evaluate judicial justifications requires close attention to the method of reasoning behind decisions This new collection illuminates and explains the political and moral importance in justifying the exercise of judicial power *Precedents, Statutes, and Analysis of Legal Concepts* Scott Brewer, 2013 At least since plato and Aristotle thinkers have pondered the relationship between philosophical arguments and the sophistical arguments offered by the Sophists who were the first professional lawyers Judges wield substantial political power and the justifications they offer for their decisions are a vital means by which citizens can assess the legitimacy of how that power is exercised However to evaluate judicial justifications requires close attention to the method of reasoning behind decisions This new collection illuminates and explains the political and moral importance in justifying the exercise of judicial power *Precedents, Statutes, and Analysis of Legal Concepts* Scott Brewer, 2013-06-17 At least since plato and Aristotle thinkers have pondered the relationship between philosophical arguments and the sophistical arguments offered by the Sophists who were the first professional lawyers Judges wield substantial political power and the justifications they offer for their decisions are a vital means by which citizens can assess the legitimacy of how that power is exercised However to evaluate judicial justifications requires close attention to the method of reasoning behind decisions This new collection illuminates and explains the political and moral importance in justifying the exercise of judicial power

**Proof, Evidence and Hate Crime** Tshepo Bogosi Mosaka, 2025-07-18 Proof is the property of a disputed fact being established inferentially from an extant fact This book explicates the structural components of this phenomenon in the context of hate crimes across various jurisdictions around the world It departs from the orthodox conception of evidence and proof as being a general value neutral or non normative and epistemic subject and offers a relativistic conception of this area of law The core argument is that proof is both semantically and methodologically determined by three conditions of materiality process and probativity This argument is then justified by the context specific application of this relativistic theory of proof to hate crimes This theoretical application of proof is sustained throughout the book using multiple examples and illustrations of hate crimes around the world The discussion both at the level of proof and hate crimes while focusing on the grounds of race religion and ethnicity specifically is framed in jurisprudential cross jurisdictional and interdisciplinary terms The book will be of interest to academics and researchers working in the areas of criminal law legal philosophy and procedural law

Public Administration and Law Julia Beckett, Heidi O. Koenig, 2015-02-12 Public Administration and Law has been edited for use as a supplement for an undergraduate or MPA level course on administrative law The selections all

from the pages of Public Administration Review have been chosen to enlighten and enliven the contents of any standard administrative law textbook Each of the book s main sections begins with introductory text and discussion questions by the volume editors Julia Beckett and Heidi Koenig followed by relevant readings from PAR The book s contents follow the standard pattern established by the field s major textbooks to facilitate the instructor s ability to assign readings that illuminate lectures and text material The book concludes with two invaluable resources a bibliography of 65 years of PAR articles concerning public law plus a bibliography of law related articles appearing in other journals published by ASPA

reader is invited to follow a route that visits Fish's view of theory and practice Raz's legal reasoning thesis theoretical models of judicial review Dworkin's right answer thesis the law of the excluded middle and Lukasiewicz's development of three valued logic Wittgenstein's language games and Moore's metaphysical realism The destination is the practice at the heart of legal reasoning It is suggested that this manifests the way in which the limitations of language and the incompleteness of human experience allow the opportunity for coherent development of the law and at the same time produce an inherent incoherence within the law The central part of the book seeks to demonstrate how the problems of understanding legal reasoning replicate difficulties encountered in the philosophy of language but challenges the attempts that have been made to harness approaches from within that discipline to illuminate legal reasoning Instead it is argued that law provides an unrivalled test bed for examining the limits of the capacity of our words and that the study of law may be used to confront in a robust and illuminating manner the limitations of that discipline The final chapter considers some of the implications of recognising the incoherence at the heart of legal reasoning commenting on an institutional approach to law the legitimacy of law legal definitions different approaches to legal reasoning the role of appellate courts the general possibility of providing a theoretical model of law the use of legal rules and the nature of law's critical aperture The book should be of interest to advanced undergraduate students particularly on jurisprudence courses postgraduate students academics and practitioners concerned to reflect on the nature of the discipline they practice The Nature of Legal Interpretation Brian G.

Slocum, 2017-05-17 Language shapes and reflects how we think about the world It engages and intrigues us Our everyday use of language is quite effortless we are all experts on our native tongues Despite this issues of language and meaning have long flummoxed the judges on whom we depend for the interpretation of our most fundamental legal texts Should a judge feel confident in defining common words in the texts without the aid of a linguist How is the meaning communicated by the text determined Should the communicative meaning of texts be decisive or at least influential To fully engage and probe these questions of interpretation this volume draws upon a variety of experts from several fields who collectively examine the interpretation of legal texts In *The Nature of Legal Interpretation* the contributors argue that the meaning of language is crucial to the interpretation of legal texts such as statutes constitutions and contracts Accordingly expert analysis of language from linguists philosophers and legal scholars should influence how courts interpret legal texts Offering insightful new interdisciplinary perspectives on originalism and legal interpretation these essays put forth a significant and provocative discussion of how best to characterize the nature of language in legal texts *New Essays on the Nature of Legal Reasoning* Mark McBride, James Penner, 2022-05-19 This is the first book to bring together distinguished jurisprudential theorists as well as up and coming scholars to critically assess the nature of legal reasoning The volume is divided into 3 parts The first part General Jurisprudence and Legal Reasoning addresses issues at the intersection of general jurisprudence those pertaining to the nature of law itself and legal reasoning The second part Rules and Reasons addresses two concepts central to two

prominent types of theory of legal reasoning The essays in the third and final part Doctrine and Practice delve into the mechanics of legal practice and doctrine from a legal reasoning perspective

**Hart's Postscript** Jules L. Coleman,2001-05-31  
Published posthumously the second edition of *The Concept of Law* contains one important addition to the first edition a substantial Postscript in which Hart reflects upon some of the central concerns that have been expressed about the book since its publication in 1961 The Postscript is especially noteworthy because it contains Hart's only sustained response to the objections pressed by his foremost critic Ronald Dworkin who succeeded him to the Chair of Jurisprudence at Oxford The Postscript focuses on a range of issues covering both Hart's substantive view and his methodological commitments In particular Hart endorses Inclusive Legal Positivism asserts that his is a methodology of descriptive jurisprudence which he contrasts with Dworkin's normative jurisprudence or interpretivism while denying that his theory of law has a semantic underpinning The essays in this collection address each of these issues in a sustained way The book contains discussions of Hart's semantic commitments his rejection of a normative jurisprudence as well as the extent to which he can embrace Inclusive Legal Positivism in a way that is consistent with his other stated positions The book's contributors include the leading advocates of alternative schools of Positivist jurisprudence important contributors to the methodological disputes in jurisprudence and noted experts on the relationship of philosophy of language to jurisprudence Among the contributors of note are Joseph Raz Jules L. Coleman Stephen Perry Brian Leiter Scott Shapiro and Andrei Marmor

**Connecting Language and Disciplinary Knowledge in English for Specific Purposes** Alissa J. Hartig,2017-08-11 How are language and disciplinary knowledge connected in the English for Legal Purposes (ELP) classroom and how far should ELP practitioners go in supporting students' acquisition of the conceptual frameworks that shape the genres they are learning This book presents a pedagogical model for incorporating these conceptual frameworks into disciplinary language instruction and follows four focal participants as they learn to read and write new genres in a second language and disciplinary culture By examining not just students' written

texts but also their reading practices and interactions in class and in tutoring sessions the book traces the ways in which disciplinary knowledge and language interact as students develop academic literacy in a new disciplinary community Throughout the book the discipline of law is used as a lens for examining broader connections between language culture and disciplinary knowledge and their relevance for English for Specific Purposes and writing in the disciplines
