Predestination Gods Foreknowledge And Future Contingents:

Predestination, God's Foreknowledge, and Future Contingents William (of Ockham), William of Ockham, 1983-01-01 Includes an introduction by Marilyn McCord Adams along with Notes and Appendices **Predestination, God's Foreknowledge, and Future Contingents** Wilhelm (von Ockham), 1969 **Predestination, God's foreknowledge, and future contingents**, 1969 **Predestination, God's Foreknowledge, and Future Contingents** Guilelmus de Ockam, Guillem (d'Occam), 1969 **The Philosophy of William of Ockham** Armand Augustine Maurer, 1999 **The Quarrel over Future Contingents (Louvain 1465-1475)** Leon Baudry, 2012-12-06 The Latin texts collected by Leon Baudry present the late fifteenth century debate at the University of Louvain over the truth value of propositions about future contingent events a subject of perennial interest in philosophy The theologians held fast to divine predetermination and the Aristotelians in the Arts Faculty supported the doctrine of free choice based on indeterminism Although the issues in the debate are still argued in philosophy this rich collection of the theories and arguments has been neglected Peter de Rivo and Henry de Zomer the principal antagonists are cited in the recent literature but only on the basis of slight mostly second hand information The full collection of texts has never before been translated into English or any other modern language leaving them inaccessible to the majority of students or any others who are not equipped to work their way through 450 pages of fifteenth century scholastic Latin Apart from their philosophical significance the texts shed light on late scholastic methods in teaching and disputation on university politics of the period in relation to the Vatican the Court of the Duke of Burgundy and the faculties of other great universities and on legal procedures both secular and ecclesiastical The human drama that develops as the debate proceeds should hold the interest of even the non specialist *God, Mind and Knowledge* Andrew Moore, 2016-04-15 The themes of God Mind and Knowledge are central to the philosophy of religion but they are now being taken up by professional philosophers who have not previously contributed to the field This book is a collection of original essays by eminent and rising philosophers and it explores the boundaries between philosophy of religion philosophy of mind metaphysics and epistemology Its introduction will make it accessible to newcomers to the field especially those approaching it from theology Many of the book's topics lie at the focal point of debates instigated in part by the so called New Atheists in contemporary culture about whether it is rational to have religious beliefs and the role these beliefs can or should play in the life of individuals and of society God, Mind and Knowledge Dr Andrew Moore, 2014-05-28 The themes of God Mind and Knowledge are central to the philosophy of religion but they are now being taken up by professional philosophers who have not previously contributed to the field This book is a collection of original essays by eminent and rising philosophers and it explores the boundaries between philosophy of religion philosophy of mind metaphysics and epistemology Its introduction will make it accessible to newcomers to the field especially those approaching it from theology Many of the book's topics lie at the focal point of debates instigated in part by the so called New Atheists in contemporary

Divinity and Maximal Greatness Daniel J. Hill, 2005 Divinity and Maximal Greatness stands in the notable tradition of perfect being theology The book thoughtfully explicates the concept of divinity in terms of the notion of maximal greatness a being is divine if and only if he is maximally great **BOOK JACKET**

The Nature of God Edward R. Wierenga, 2018-05-31 The Nature of God explores a perennial problem in the philosophy of religion Drawing upon developments in philosophy most notably those in philosophical logic Edward R Wierenga examines the traditional divine attributes of omnipotence omniscience eternity timelessness immutability and goodness His philosophically defensible formulations of the nature of God are in accord with the views of classical theists The author provides an account of each of the divine attributes by stating in contemporary terms what such classical theists as Augustine Anselm and Aquinas wrote about the nature of God he then seeks to determine whether one can defend the ascription of traditional divine attributes to God against philosophical objections Clearly written and comprehensive The Nature of God contains a wealth of illuminating and original material on a central topic in the philosophy of religion

Justification, Volume 1 Michael Horton, 2018-11-27 The first of a two volume project delving into the doctrine of justification Michael Horton seeks not simply to recover a clear message of its role in modern Reformed theology but also to bring a fresh discovery of the gospel in a time when contemporary debates around justification have reignited The doctrine of justification stands at the center of our systematic reflection on the meaning of salvation and grace as well as our piety mission and life together And yet within mainline Protestant and evangelical theology it s often taken for granted or left to gather dust in favor of modern concerns and self renewal Volume 1 is an exercise in historical theology exploring the doctrine of justification from the patristic era to the Reformation This book Provides a map for contemporary discussions of justification identifying and engaging principal sources Origen Chrysostom Augustine Thomas Aquinas John Duns Scotus William of Ockham Gabriel Biel and the magisterial reformers Studies the transformations of the doctrine through Aquinas Scotus and the nominalists leading up to the era of the Reformation and the Council of Trent Concludes by examining the hermeneutical and theological significance of the Reformers understanding of the law and the gospel and the resultant covenantal scheme that became formative in Reformed theology Engaging and thorough Justification will not only reenergize the reader whether Protestant or Catholic with a passion for understanding this essential and long running doctrinal conversation but also challenge anyone to engage critically with the history of the Church and the heart of the gospel

Hartshorne, Process Philosophy, and Theology Robert Kane, Stephen H. Phillips, 1989-07-03 This book provides an introduction to Hartshorne s contributions to contemporary philosophy and theology It also covers some of the current controversies in philosophy and theology that Hartshorne s contributions have generated The opening chapter is a lucid and penetrating introduction to Hartshorne s thought Some of the following chapters break new ground on issues that have concerned Hartshorne throughout his career

the nature and methods of metaphysics the existence and nature of God and the place of religion and metaphysics in the modern world Many chapters survey the current state of controversies on those topics Other chapters relate Hartshorne's work to other traditions and to trends in contemporary philosophy to postmodernism classical Western theism Indian philosophy analytical philosophy and American pragmatism Contingency, Time, and Possibility Pascal Massie, 2011-01-01 In *Contingency Time and Possibility* Pascal Massie explores the inquiries of Aristotle and Duns Scotus into contingency and possibility as well as the complex and fascinating questions they raise Massie shows how Aristotle and Duns Scotus's ideas about contingency continue to influence how we think about the nature of being Doing Theology with the Reformers Gerald L. Bray, 2019-07-16 In this RCS companion volume Gerald L Bray immerses readers in the world of Reformation theology He introduces the range of theological debates as Catholics and Protestants from a diversity of traditions disputed the essentials of the faith from the authority of Scripture and the nature of salvation to the definition of the church the efficacy of the sacraments and the place of good works in the Christian life Freedom and Self-Creation Katherin A. Rogers, 2015-10-01 Katherin A Rogers presents a new theory of free will based on the thought of Anselm of Canterbury We did not originally produce ourselves Yet according to Anselm we can engage in self creation freely and responsibly forming our characters by choosing from ourselves a self between open options Anselm introduces a new agent causal libertarianism which is parsimonious in that unlike other agent causal theories it does not appeal to any unique and mysterious powers to explain how the free agent chooses After setting out Anselm's original theory Rogers defends and develops it by addressing a series of standard problems levelled against libertarianism These include the problem of internalism in that an agent is not the source of his original motivations how can the structure of his choice ground his responsibility the problem of Frankfurt style counterexamples Do we really need open options to choose freely and the problem of luck If nothing about an agent before he chooses explains his choice then isn't the choice just dumb luck The Anselmian answer to this perennial criticism is especially innovative proposing that the critic has the relationship between choices and character exactly backwards Finally as a theory about self creation Anselmian Libertarianism must defend the tracing thesis the claim that an agent can be responsible for character determined choices if he himself formed his character through earlier a self choices Throughout the book defends and exemplifies a new methodological suggestion someone debating free will ought to make his background world view explicit In the on going debate over the possibility of human freedom and responsibility Anselmian Libertarianism constitutes a new and plausible approach **Nuel Belnap on Indeterminism and Free Action** Thomas Müller, 2014-03-21 This volume seeks to further the use of formal methods in clarifying one of the central problems of philosophy that of our free human agency and its place in our indeterministic world It celebrates the important contributions made in this area by Nuel Belnap American logician and philosopher Philosophically indeterminism and free action can seem far apart but in Belnap's work they are intimately linked This book explores their philosophical interconnectedness through a selection of original

research papers that build forth on Belnap's logical and philosophical work. Some contributions take the form of critical discussions of Belnap's published work, some develop points made in his publications in new directions, and others provide additional insights on the topics of indeterminism and free action. In Nuel Belnap's work on indeterminism and free action, three formal frameworks figure prominently: the simple branching histories framework, known as branching time; its relativistic spatio-temporal extension, branching space-times; and the seeing-to-it-that logic of agency. As those frameworks provide the formal background for the contributed papers, the volume introduction gives an overview of the current state of their development. It also introduces case intensional first-order logic, CIFOL, a general intensional logic offering resources for a first-order extension of the mentioned frameworks and a recent research focus of Belnap's. The volume also contains an extended biographical interview with Nuel Belnap.

Process and Analysis George W. Shields, 2003-01-01. Leading thinkers from both traditions explore common philosophical topics.

Fatalism and the Logic of Time Linda Trinkaus Zagzebski, 2024-10-18. Fatalism, the thesis that something in the past necessitates the entire future, is often argued for in three ways. One argument is that the truth of propositions about future events makes those events necessary. Another is that infallible divine foreknowledge necessitates all future human acts. The third is that the past history of the world in conjunction with universal causal laws necessitates the entire future. Each of these arguments depends on a premise of the necessity of the past. In *Fatalism and the Logic of Time*, Linda Zagzebski examines two interpretations of this necessity. One interpretation is the modal necessity of the past, and the other interpretation is the cause of closure of the past. She argues that the combination of the necessity of the past with the transfer of necessity principle is inconsistent with the truth of any proposition about the past that entails a proposition about the future. As such, the problem is much broader than fatalism. It is a problem in the logic of time. All arrows of time, as well as the arrows of physics, arise from the human experience of before and after, but that experience does not itself require an arrow.

Moral Responsibility and Alternative Possibilities David Widerker, Michael McKenna, 2006. This book explores an important issue within the free will debate: the relation between free will and moral responsibility. In his seminal article *Alternate Possibilities and Moral Responsibility*, Harry Frankfurt launched a vigorous attack on the standard conception of that relation, questioning the claim that a person is morally responsible for what she has done only if she could have done otherwise. Since then, Frankfurt's thesis has been at the center of philosophical discussions on free will and moral responsibility. *Moral Responsibility and Alternative Possibilities*, edited by David Widerker and Michael McKenna, draws together the most recent work on Frankfurt's thesis by leading theorists in the area of free will and responsibility. As the majority of the essays appear here for the first time, *Moral Responsibility and Alternative Possibilities* offers the newest developments in this important debate.
