science and they had monotheism and historical antecedents in common Yet where exactly political and spiritual power lay and how it was exercised differed This book focuses on power dynamics and resource allocation among ruling elites the legitimisation of power and property with the aid of religion and on rulers interactions with local elites and societies Offering the reader route maps towards navigating each sphere and grasping the fundamentals of its political culture this set of parallel studies offers a timely and much needed framework for comparing the societies surrounding the medieval

Mediterranean     Lodovico Pontano (ca. 1409-1439) Thomas Woelki,2011-05-23 The short but fiery career of the famous jurist Lodovico Pontano 1439 led from the universities of Bologna Florence Rome and Siena the Roman curia and the court of Alfonso V of Aragon to the Council of Basel where he became rapidly one of the major conciliarist leaders and died at the age of only 30 years of the plague Pontano s biography and the sequential analysis of his largely unedited works shows how a man of learning managed to present his legal skills later enhanced by persuasive theological arguments as an expertise indispensable for government and to make himself so essential that he could regularly afford to break his contracts The first edition of ten important tracts and speeches completes the work     **Die deutsche Predigt um 1200** Regina D.
