

The book cover features a dark, atmospheric illustration of a snowy forest at night. In the background, a small, rustic cabin is engulfed in bright orange and yellow flames. A lone figure, presumably a detective, stands in the snow in the foreground, looking towards the burning building. The scene is framed by the dark silhouettes of trees.

*The Wilsonian Persuasion in American Foreign Policy* Matthew C. Price, 2007 In this remarkably well written book Dr Price examines the epochal transformation of the United States from a largely isolationist nation to one which has come to play a central role in world affairs using its vast political resources and in the final analysis its military capabilities to dramatically alter the world order in the twentieth century This shift required the active promotion of internationalism by key political leaders such as Woodrow Wilson himself Franklin Roosevelt and others often in response to the shifting facts of global power and working tirelessly to sway American public opinion toward greater involvement in the global arena When Woodrow Wilson proclaimed that the United States should make the world safe for democracy he was enunciating a vision of national duty already latent in Americans ideals which would frame U S foreign policy for generations The book provides a detailed account of one of the great turning points in American and world history the American embrace of globalism

**The Execution of Admiral John Byng as a Microhistory of Eighteenth-Century Britain** Joseph J. Krulder, 2021-04-26 According to Voltaire s *Candide* Admiral John Byng s 1757 execution went forward to encourage the others Of course the story is more complicated This microhistorical account upon a macro event presents an updated revisionist and detailed account of a dark chapter in British naval history Asking what was Britain like the moment Byng returned to Portsmouth after the Battle of Minorca 1756 not only returns a glimpse of mid eighteenth century Britain but provides a deeper understanding of how a wartime admiral the son of a peer of some wealth a once colonial governor and sitting member of parliament came to be scapegoated and then executed for the failings of others This manuscript presents a cultural social and political dive into Britain at the beginning of the Seven Years War Part 1 focuses on ballad newspaper and prize culture Part 2 makes a turn towards the social where religion morality rioting and disease play into the Byng saga Admiral Byng s record during the 1755 Channel Campaign is explored as is the Mediterranean context of the Seven Years War troubles elsewhere in the empire and then the politics behind Byng s trial and execution

**Investigative Aesthetics** Matthew Fuller, Eyal Weizman, 2021-08-24 Today artists are engaged in investigation They probe corruption state violence environmental destruction and repressive technologies At the same time fields not usually

associated with aesthetics make powerful use of it Journalists and legal professionals pore over open source videos and satellite imagery to undertake visual investigations This combination of diverse fields is what the authors call investigative aesthetics mobilising sensibilities often associated with art architecture and other such practices to find new ways of speaking truth to power This book draws on theories of knowledge ecology and technology evaluates the methods of citizen counter forensics micro history and art and examines radical practices such as those of Wikileaks Bellingcat and Forensic Architecture Investigative Aesthetics takes place in the studio and the laboratory the courtroom and the gallery online and in the streets as it strives towards the construction of a new common sensing The book is an inspiring introduction to a new field that brings together investigation and aesthetics to change how we understand and confront power today To Nour Abuzaid for your brilliance perseverance and unshaken belief in the liberation of Palestine     *Years of Peril and Ambition* George C. Herring, 2017 V 1 Years of peril and ambition U S foreign relations 1776 1921 v 2 The American century and beyond U S foreign relations 1893 2014     *The British Way in Cold Warfare* Matthew Grant, 2011-10-20 By utilising the latest research readers will be given a complete picture of the way Britain fought the Cold War moving the focus away from the now familiar crises of Suez and Cuba and onto the themes that underpinned the British war strategy Intelligence civil defence and nuclear diplomacy are all examined within the context of modern British history at a time of national decline There is a growing interest in the contexts of the Cold War and this collection will establish itself as the leading volume on the UK s wartime strategy     **Jellicoe's War** Nicholas Jellicoe, 2024-12-31 In February 1917 German U boats launched a savage unrestricted campaign against both Allied and neutral shipping At its peak in April 860 000 tons of Allied merchant shipping was sunk Britain s supremacy at sea was being severely challenged and with it the chances of victory in the wider war Taking up the challenge was Britain s new First Sea Lord Sir John Jellicoe until the previous December C in C of the Grand Fleet famously described by Churchill as the only man who could have lost the war in an afternoon The battle he now faced was equally critical although the timeline of defeat was a matter of days rather than hours Britain s food stocks were dangerously low with wheat reserves down to six weeks and sugar to only two while wide scale shortages were crippling the industrial economy Jellicoe outlined the gravity of the situation with total candor to Rear Admiral William Sims USN sent over before America officially declared war by Franklin Roosevelt the Assistant Secretary of the Navy The two men already knew each other from service together in China during the Boxer Rebellion so Jellicoe s plea for urgent American assistance was taken seriously by Sims After the USA joined the war in April 1917 together they lobbied Washington for aid addressing their needs directly to two reluctant Anglophobes at the head of the USN Secretary of the Navy Josephus Daniels and Chief of Naval Operations William Benson Clearly a radical new approach to anti submarine warfare was called for and Convoy was the leading contender There were many objections to protecting shipping in this way some ideological but most practical a workable system for example effectively required state control of both shipping and distribution networks something

inconceivable in normal circumstances However Convoy had powerful advocates including the Prime Minister Lloyd George who later claimed he had personally forced its adoption on a reluctant Admiralty This self serving political myth cast Jellicoe as an opponent of Convoy nothing could be further from the truth As both Jellicoe and Sims understood the key requirement was a rapid increase in the number of destroyers for escort duties America provided them the first arriving in Queenstown Ireland on 4 May and by June 46 were operating in European waters This was the first step in an Anglo American campaign that gradually brought the U boat threat under control and led to its ultimate defeat This book takes a fresh look at the undersea war as a whole and all the complex factors bearing on the campaign only one of which was convoy Its analysis is original and its conclusions thought provoking an important contribution to the naval history of the Great War

On Access in Applied Theatre and Drama Education Colette Conroy, Adelina Ong, Dirk J. Rodricks, 2020-06-09 This book explores and interrogates access and diversity in applied theatre and drama education Access

is persistently framed as a strategy to share power and to extend equality but in the context of current and recent power struggles it is also seen as a discourse that reinforces marginalisation and exclusion The political bind of access is also a conceptual problem It is impossible to refuse to engage in strategies to extend access to institutions representations buildings education discourse etc We cannot oppose access or strategies for access without reinforcing marginalisation and exclusion We can't not want access for ourselves or for others However we are then in danger of remaining immersed in a distribution of power that reinforces and naturalises inequality as difference For applied theatre and drama education the act of creating teaching and learning is intrinsically connected to choice along with the agency and capacity to choose What is less clear and what still interests us is how the distribution of power and representation creates the schema for an analysis of access and diversity This book was originally published as a special issue of *Research in Drama Education: The Journal of Applied Theatre and Performance*

**Inessential Solidarity** Diane Davis, 2010-11-14 In *Inessential Solidarity* Diane Davis examines critical intersections of rhetoric and sociality in order to revise some of rhetorical theory's basic presumptions Rather than focus on the arguments and symbolic exchanges through which social relations are defined Davis exposes an underivable rhetorical imperative an obligation to respond that is as undeniable as the obligation to age Situating this response ability as the condition for rather than the effect of symbolic interaction Davis both dissolves contemporary concerns about linguistic overdetermination and calls into question long held presumptions about rhetoric's relationship with identification figuration hermeneutics agency and judgment Spot lighting a rhetorical situation irreducible to symbolic relations Davis proposes quite provocatively that rhetoric rather than ontology Aristotle Heidegger epistemology Descartes or ethics Levinas is first philosophy The subject or symbol using animal comes into being Davis argues both with and against Emmanuel Levinas only inasmuch as it responds to the other the priority of the other is not a matter of the subject's choice then but of its inescapable predicament Directing the reader's attention to this inessential solidarity without which no meaning making or determinate social relation would be possible Davis aims to nudge rhetorical studies beyond the epistemological concerns that typically circumscribe theories of persuasion toward the examination of a more fundamental affectability persuadability responsivity

*Handbook of Defence Politics* Isaiah "Ike" Wilson III, James J.F. Forrest, 2011-03-28 Issues of defence politics and policy have long been at the forefront of political agendas and defining of international affairs However the dramatic changes to the global system that have taken place since the end of the Cold War and particularly since the terror attacks on the USA on 11 September 2001 have amplified the world's attention toward political and policy issues of national regional and global security The focus of this volume is on examining the fundamental causes of and defence policy responses to this new post 9/11 security environment Edited by Isaiah Ike Wilson III and James J F Forrest of the US Military Academy West Point USA this volume is international in scope with pieces written by experts in the field offering a collection of up to date and balanced insights on key contemporary issues of concern to defence

 Waqar H. Zaidi,2021-06-03 Between 1920 and 1950 British and US internationalists called for aviation and atomic energy to  
 be taken out of the hands of nation states and instead used by international organizations such as the League of Nations and  
 the United Nations An international air force was to enforce collective security and internationalized civil aviation was to  
 bind the world together through trade and communication The bomber and the atomic bomb now associated with death and  
 devastation were to be instruments of world peace Drawing on rich archival research and focusing on public and private  
 discourse relating to the control of aviation and atomic energy Waqar H Zaidi highlights neglected technological and  
 militaristic strands in twentieth century liberal internationalism and transforms our understanding of the place of science  
 and technology in twentieth century international relations      Nonproliferation Policy and Nuclear Posture Neil Narang,Erik  
 Gartzke,Matthew Kroenig,2015-10-08 This volume examines the causes and consequences of nuclear postures and  
 nonproliferation policies The real world importance of nuclear weapons has led to the production of a voluminous scholarly  
 literature on the causes and consequences of nuclear weapons proliferation Missing from this literature however is a more  
 nuanced analysis that moves beyond a binary treatment of nuclear weapons possession to an exploration of how different  
 nuclear postures and nonproliferation policies may influence the proliferation of nuclear weapons and subsequent security  
 outcomes This volume addresses this deficit by focusing on the causes and consequences of nuclear postures and  
 nonproliferation policies It is the aim of this book to advance the development of a new empirical research agenda that brings  
 systematic research methods to bear on new dimensions of the nuclear weapons phenomenon Prior to the contributions in  
 this volume there has been little evidence to suggest that nuclear postures and policies have a meaningful impact on the  
 spread of nuclear weapons or security outcomes This book brings together a new generation of scholars advancing  
 innovative theoretical positions and performing quantitative tests using original data on nuclear postures nonproliferation  
 policies and WMD proliferation Together the chapters in this volume make novel theoretical empirical and methodological  
 contributions to the field of nuclear weapons proliferation This book will be of much interest to students of nuclear  
 proliferation international relations and security studies      **Index to Legal Periodicals & Books** ,2006      **The Morality
