in England not only tell us of his personal tastes but are in a high degree illuminative of the literary habits and standards of western Europe in the fifteenth century Again modern research has long ago put Raleigh s History of the World out of date but his eloquent Preface still gives us a rare picture of the attitude of an intelligent Elizabethan of the generation which colonized America toward the past the present and the future worlds Bacon s Great Restoration is no longer a guide to scientific method but his prefatory statements as to his objects and hopes still offer a lofty inspiration And so with the documents here drawn from the folios of Copernicus and Calvin with the criticism of Dryden and Wordsworth and Hugo with Dr Johnson s Preface to his great Dictionary with the astounding manifesto of a new poetry from Walt Whitman s Leaves of Grass each of them has a value and significance independent now of the work which it originally introduced and each of them presents to us a man About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
