**Prefaces to Peace**, 1943     Monthly Bulletin San Francisco Public Library, 1919     **A New Deal for the World**  
Elizabeth Borgwardt, 2007-09-30 In a work of sweeping scope and luminous detail Elizabeth Borgwardt describes how a cadre of World War II American planners inaugurated the ideas and institutions that underlie our modern international human rights regime Borgwardt finds the key in the 1941 Atlantic Charter and its Anglo American vision of war and peace aims     *Eberstadt and Forrestal* Jeffery M. Dorwart, 1991 On the heels of New Deal administrators an army of business executives arrived in Washington in 1940 to prepare the nation for war Among this contingent were two wealthy investment bankers and longtime friends Ferdinand Eberstadt and James Forrestal Together they played integral roles in the massive war mobilization program and later in the formation of institutions for postwar national security Jeffery M Dorwart's research and analysis provide a fresh look at the friendships connections and mindsets that steered the growing federal government in the first half of the twentieth century The result of these relationships was a system of corporatist management for wartime mobilization and for Cold War national security Eberstadt a key figure on numerous policy committees and Forrestal secretary of the navy during the 1940s and the first secretary of the new Department of Defense shared a common background all the way to their college days at Princeton Over the years their friendship and their ties to a group of like minded executives whom Eberstadt termed the Good Men substantially shaped government policy Dorwart's research on Eberstadt's role is especially enlightening for it reveals how Eberstadt an outside consultant and not a government employee or elected official affected policy direction through his design of the National Security Act of 1947 This is a significant contribution to American military and defense history The author's use of the Good Man idea effectively illustrates how non military ideas and influences have been fundamental in shaping national security policy Jerry Cooper University of Missouri St Louis formerly of the Command and General Staff College     Prefaces to Peace, a Symposium Consisting of the Following  
Wendell Lewis Willkie, Herbert Clark Hoover (president, United States), Henry Agard Wallace, Hugh Gibson, Sumner Welles, 1943     **Foreign Policy at the Periphery** Bevan Sewell, Maria Ryan, 2017-01-17 As American interests assumed global proportions after 1945 policy makers were faced with the challenge of prioritizing various regions and determining the extent to which the United States was prepared to defend and support them Superpowers and developing nations soon became inextricably linked and decolonizing states such as Vietnam India and Egypt assumed a central role in the ideological struggle between the United States and the Soviet Union As the twentieth century came to an end many of the challenges of the Cold War became even more complex as the Soviet Union collapsed and new threats arose Featuring original essays by leading scholars *Foreign Policy at the Periphery* examines relationships among new nations and the United States from the end of the Second World War through the global war on terror Rather than reassessing familiar flashpoints of US foreign policy the contributors explore neglected but significant developments such as the efforts of evangelical missionaries in the

Congo the 1958 stabilization agreement with Argentina Henry Kissinger's policies toward Latin America during the 1970s and the financing of terrorism in Libya via petrodollars Blending new internationalist approaches to diplomatic history with newly released archival materials Foreign Policy at the Periphery brings together diverse strands of scholarship to address compelling issues in modern world history **Identifying the Aggressor Under International Law** Olaoluwa

Olusanya,2006 This book deals with the identification of the aggressor state under International Law This issue raises a deceptively easy question that is how does one distinguish the aggressor state from the victim state in situations involving the unilateral use of force In a straightforward situation where state A attacks state B without any provocation it is clear that state A is the aggressor However confusion begins to arise when state A first attacks state B as a form of anticipatory self defence or when state A first attacks state B as a form of pre emptive self defence or when state A attacks state B in order to prevent state B from committing gross human rights atrocities against its own nationals In all of these latter situations the current rules are unclear and therefore either make it impossible to distinguish between the aggressor state and the victim state or give the aggressor state an unfair advantage over the victim state This book utilizes general principles of Criminal Law in an attempt to tackle these questions and ultimately to devise a solution for distinguishing between the aggressor and the victim state regardless of the circumstances Attention has also been given to the field of international relations Soft

Power and US Foreign Policy Inderjeet Parmar,Michael Cox,2010-03-12 Soft power is the use of attraction and persuasion rather than the use of coercion or force in foreign policy This title features a chapter outlining views on soft hard and smart power and offers a critique of the Bush administration's inadequacies It gives the various insights in to both soft power and the concept of power itself **University of California Union Catalog of Monographs Cataloged by the Nine**
