Pregnancy And Abortion Counselling:

Pregnancy and Abortion Counselling Joanna Brien, Ida Fairbairn, 2003-09-02 Pregnancy and Abortion Counselling is written for professionals who give information and support to women deciding whether to terminate or continue with their pregnancy. The authors provide a comprehensive review of the social, moral and legal issues surrounding contraception and abortion and offer clear guidelines for establishing good practice. Illustrated throughout with case examples, the book includes detailed information on current legislation, methods of abortion, stages of foetal development, screening for foetal abnormality, client confidentiality and consent, ethical considerations. This book is relevant to many health professionals including doctors, health visitors, midwives and nurses as well as those involved in community work and counselling.

Unwanted Pregnancy and Counselling Juliet Cheetham, 2022-02-16 There was a growing concern in the 1970s about the number of unwanted pregnancies and the problems these posed for parents, children and society. Originally published in 1977, this was the first book which, with extensive reference to research material and illustrative case studies, provided a comprehensive analysis of the social and psychological background to unwanted pregnancy and a guide to ways of helping the people concerned. It should still be useful to doctors, nurses, midwives, teachers, social workers and other professional and lay people whose work brings them into contact with those who are unhappy about a pregnancy. Juliet Cheetham, whose previous contributions to the problem areas of social welfare are widely respected, discusses the different meanings of unwanted pregnancy and goes on to explore its relationship to the changing position of women, to the role of the contemporary family, to the special problems experienced by natural children and their parents, to existing social and medical provisions. She examines the possibilities, risks and limitations of the various responses to unwanted pregnancy and the services available at the time and analyses the difficulties men and women experience in using contraception. Juliet Cheetham shows how the beliefs and attitudes of lay and professional people can influence their understanding of and response to these highly controversial and emotional subjects. She offers suggestions about the ways in which this influence may be appropriately modified and the book concludes with a discussion of the special opportunities and problems of counselling those faced with an unwanted pregnancy.

Abortion and Dialogue Ruth Colker, 1992-09-22 The issues she takes on are crucial, not solely the subject areas of reproductive rights and law or public policy, lenses and judicial impact in women's and children's lives, but also the more difficult and fundamental questions of how these hot topics can be approached so as to make the most of the good will of all and the force of free discussion for social learning. She brings a strong, evolving and distinctive perspective to the discussion. Emily Fowler Hartigan In *Abortion and Dialogue* Ruth Colker argues that the state falsely views the woman and the fetus as having conflicting needs when it intervenes in decisions regarding pregnancies. Colker's feminist theological perspective on reproductive health issues encourages both pro-choice and pro-life advocates to consider how the value of life is implicated in discussions of reproduction. Colker argues that theology can contribute to our

understanding if we apply the concepts of love compassion and wisdom to problems identified by feminist theory and to actual concrete situations the impact of abortion regulations on poor female adolescents the judicial treatment of abortion regulations state intervention into women s decision making during pregnancies carried to term Colker concludes by examining effective and respectful family planning strategies that truly help women in making reproductive choices **The SAGE Handbook of Counselling and Psychotherapy** Colin Feltham,Ian Horton,2006-01-05 The SAGE Handbook of Counseling and Psychotherapy Second Edition is the most comprehensive text of its kind and an essential resource for trainees and practitioners alike Comprising succinct and easy to access contributions the Handbook describes not only the traditional skills and theoretical models but also the most common client concerns brought to therapy and the particular skills required for different practice settings and client groups **Abortion Care** Sam Rowlands,2014-08-28 This comprehensive review of the emotive and often controversial topic of abortion provides clinicians with a multidisciplinary focus on abortion services discussing clinical topics in their sociological legal and ethical context It is particularly timely as novel methods of service delivery make this vital resource more accessible allowing abortion to be performed in community settings Topics include medical and surgical methods of abortion ultrasound scanning pain control complications and abortion in women with medical conditions as well as ethics stigma and human rights Written by leading authorities in their subject areas Abortion Care is essential reading for medical and nursing specialists and forms a useful resource in the delivery of graduate courses in the fields of obstetrics and gynaecology and sexual and reproductive healthcare It is also of interest to professionals involved in planning delivering and managing women s health services including counsellors service managers and public health specialists **Scientific developments relating to the Abortion Act 1967** Great Britain: Parliament: House of Commons: Science and Technology Committee,2007-11-15 Scientific developments relating to the Abortion Act 1967 Twelfth report of session 2006 07 Vol 2 Oral and written Evidence *Decolonial Feminist Community Psychology* Floretta Boonzaier,Taryn van Niekerk,2019-07-13 This edited volume seeks to critically engage with the diversity of feminist and post colonial theory to counter hegemonic Western knowledge in mainstream community psychology In doing so it situates paradigms of thought and representation that capture the lived experiences of those in the global South Specifically the book takes an intersectional approach towards its reshaping of community psychology centering African black postcolonial and decolonial feminist critiques in its 1 critique of existing hegemonic Euro American community psychology concepts theories and practice 2 proposal of new feminist indigenous and decolonial methodological approaches and 3 real life examples of engagement research dialogue and reflexive qualitative psychology practice The book concludes with an agenda for theorization and research for future practice in postcolonial contexts The volume is relevant to researchers practitioners and students in psychology anthropology sociology public health development studies social work urban studies and women s and gender studies across global contexts Abortion Care is Health Care Barbara

Baird,2023-10-03 In *Abortion Care is Health Care* Barbara Baird tells the history of the provision of abortion care in Australia since 1990 Against the backdrop of a reticent public sector Baird describes a system of predominantly private provision which has excluded women already marginalised by poverty rural and remote residency lack of Medicare entitlement racism and other factors Tracing changes in the private sector the long struggle to make medical abortion available and the nationwide decriminalisation of abortion since 2002 Baird introduces readers to the large cast of champions and everyday healthcare workers and activists who have persisted in their commitment to make abortion care available when governments and the medical profession have so often failed Drawing on oral history interviews conducted nationwide with abortion providing doctors nurses counsellors and managers women s health workers academics and community activists Baird brings a critical feminist analysis to create a sophisticated historical narrative of abortion provision over the last thirty years

Abortion law reform in Africa: A reproductive health and rights perspective Charles Ngwena,Ebenezer Durojaye,Satang Nabaneh, Nkatha Murungi,2025-05-26 Despite notable legal and policy advancements in post colonial Africa unsafe abortion remains a pressing public health concern *Abortion Law Reform in Africa A Reproductive Health and Rights Perspective* spearheaded by the late Professor Charles Ngwena offers a vital and timely examination of this ongoing challenge This collection of essays moves beyond a mere analysis of legal texts unpacking the deep rooted barriers that continue to limit access to safe abortion services in Africa The authors critically assess the real world impact of current reforms highlighting their shortcomings in providing accessible rights based care They offer concrete strategies aimed at strengthening legal and policy frameworks to promote reproductive autonomy improve reproductive health outcomes and advance gender equality for women and girls confronting unwanted pregnancies Through a compelling exploration of how restrictive laws push countless women towards unsafe procedures often with fatal or debilitating consequences the volume underscores that meaningful reform demands more than legislative change It calls for addressing the broader social economic and cultural determinants that restrict access to abortion care By advocating for the implementation of progressive instruments such as the African Women s Protocol this book stands as a powerful call to action for African policymakers and stakeholders to facilitate access to safe abortion care services It urges the adoption of comprehensive and transformative measures that can truly secure women s rights to safe abortion and prevent needless suffering and death Counsellors in Health Settings Kim Etherington,2001-07-26 Focusing on the experiences of counsellors themselves this book is a comprehensive resource for counsellors working in health contexts and for the health professionals who work with them and may take on counselling roles which will inform and improve their work **Mudaliar and Menon's Clinical Obstetrics** A.
