Solomou,2021-12-10 As a major tourist destination and the most eastern member of the European Union housing two British Sovereign Bases and sitting at the intersection of three continents Cyprus attracts international attention in more ways than one hence the complex web of converging and conflicting outside interests that has marked and scarred the country s history Since 2009 when the previous edition appeared further big changes have occurred with the United Nations led efforts to bring about a settlement to the Cyprus problem as well as the latest on the exploration of hydrocarbon in the eastern Mediterranean seabed Historical Dictionary of Cyprus Second Edition contains a chronology an introduction and an extensive bibliography The dictionary section has several hundred cross referenced entries on important personalities politics economy foreign relations religion architecture and culture This book is an excellent resource for students researchers and anyone wanting to know more about Cyprus **Mycenaean Greece and the Aegean World** Margaretha Kramer-Hajos,2016-08-15 Kramer Hajos examines the Euboean Gulf region in Central Greece to explain its flourishing during the post palatial period focusing on the interactions between this provincial coastal area and the core areas where the Mycenaean palaces were located **The Gurob Ship-Card Model and Its Mediterranean Context** Shelley Wachsmann,2013-01-09 When Shelley Wachsmann began his analysis of the small ship model excavated by assistants of famed Egyptologist W M F Petrie in Gurob Egypt in 1920 he expected to produce a brief monograph that would shed light on the model and the ship type that it represented Instead Wachsmann discovered that the model held clues to the identities and cultures of the enigmatic Sea Peoples to the religious practices of ancient Egypt and Greece and to the oared ships used by the Bronze Age Mycenaean Greeks Although found in Egypt the prototype of the Gurob model was clearly an Aegean style galley of a type used by both the Mycenaean and the Sea Peoples The model is the most detailed representation presently known of this vessel type which played a major role in changing the course of world history Contemporaneous textual evidence for Sherden one of the Sea Peoples settled in the region suggests that the model may be patterned after a galley of that culture Bearing a typical Helladic bird head decoration topping the stempost with holes along the sheer strakes confirming the use of stanchions the model was found with four wheels and other evidence for a wagon like support structure connecting it with European cultic prototypes The online resources that accompany the book illustrate Wachsmann s research and analysis They include 3D interactive models that allow readers to examine the Gurob model on their computers as if held in the hand both in its present state and in two hypothetical reconstructions The online component also contains high resolution color photos of the model maps and satellite photos of the site and other related materials Offering a wide range of insights and evidence for linkages among ancient

Porter, 2021-02-09 The term classical is used to describe everything from the poems of Homer to entire periods of Greek and Roman antiquity But just how did the concept evolve This collection of essays by leading classics scholars from the United States and Europe challenges the limits of the current understanding of the term The book seeks not to arrive at a final definition but rather to provide a cultural history of the concept by exploring how the meanings of classical have been created recreated and rejected over time The book asks questions that have been nearly absent from the scholarly literature Does classical refer to a specific period of history or to the artistic products of that time How has its definition changed Did those who lived in classical times have some understanding of what the term classical has meant How coherent consistent or even justified is the term The book's introduction provides a generous theoretical and historical overview It is followed by eleven chapters in which the contributors argue for the existence not of a single classical past but of multiple competing classical pasts The essays address a broad range of topics Homer and early Greek poetry and music Isocrate Hellenistic and Roman art Cicero and Greek philosophy the history of Latin literature imperial Greek literature and more The most up to date and challenging treatment of the topic available this collection will be of lasting interest to students and scholars of ancient and modern literature art and cultural history
