Florida Regional Common EMS Protocols Michael Hohl, Jones & Bartlett Publishers, 2004. The protocols are divided into adult and pediatric sections, each with three parts: Supportive Care, Actions authorized for the EMS or paramedic that are supportive in nature, ALS Level 1 Actions authorized only for the paramedic prior to physician contact, and ALS Level 2 Actions authorized only for the paramedic that require a physician consult. The protocol manual in its entirety is designed to be a one-stop source of information for on-scene patient care, medical reference, and training purposes. The medical treatment protocols outline care for a typical case and follow the case step by step. The treatment protocols are divided into adult and pediatric sections, each with three parts: Supportive Care, Actions authorized for the EMS or Paramedic that are supportive in nature, EMT BLS and Paramedic BLS and ALS actions are specified within each of these protocols. ALS Level 1 Actions authorized only for the Paramedic prior to physician contact, and ALS Level 2 Actions authorized only for the Paramedic that require a physician consult.

Florida Regional Common EMS Protocols Jones & Bartlett Learning, 2010-10-22. Medical experts in the specialized areas of the protocols were an integral part of the protocol development process. In addition, an in-depth peer review was conducted to provide all participating agencies the opportunity to give input into the design and content of the protocols.
