Prelude 1870 19:

Mitsubishi and the N.Y.K., 1870-1914 William D. Wray, 2020-03-31 William D Wray presents an in depth analysis of the origins and institutional growth prior to World War I of Mitsubishi today Japan s largest industrial group and the Nippon Yusen Kaisha NYK now the world s leading shipping enterprise The study however is much more than a history of two companies It provides extensive analysis of decision making in the Meiji government the finances of the Imperial House trading strategies international commercial diplomacy and the shipping industry s response to war **"Foreign Artists and Communities in Modern Paris, 1870-1914 "** Susan Waller, 2017-07-05 Foreign Artists and Communities in Modern Paris 1870 1914 examines Paris as a center of international culture that attracted artists from Western and Eastern Europe Asia and the Americas during a period of burgeoning global immigration Sixteen essays by a group of emerging and established international scholars including several whose work has not been previously published in English address the experiences of foreign exiles immigrants students and expatriates They explore the formal and informal structures that permitted foreign artists to forge connections within and across national communities and in some cases fashion new transnational identities in the City of Light Considering Paris from an innovative global perspective the book situates both important modern artists such as Edvard Munch Sonia Delaunay Terk Marc Chagall and Gino Severini and lesser known American Czech Italian Polish Welsh Russian Japanese Catalan and Hungarian painters sculptors writers dancers and illustrators within the larger trends of international mobility and cultural exchange Broadly appealing to historians of modern art and history the essays in this volume characterize Paris as a thriving transnational arts community in which the interactions between diverse cultures peoples and traditions contributed to the development of a hybrid and multivalent modern art **The Formation of Labour Movements 1870-1914** Marcel van der Linden, Jorgen Rojahn, 2024-01-15 The print edition is available as a set of two volumes 9789004092761 Reorienting the 19th Century Andre Gunder Frank, Robert A. Denemark, 2015-10-23 Andre Gunder Frank was a path breaking scholar in several disciplines over an illustrious and contentious 50 year career First amongst his many important works is the book ReORIENT Global Economy in the Asian Age which sought to correct a Euro centric world view of the development of the global political economy Frank passed away in April 2005 while working on this new book a sequel to ReORIENT In this book Frank shows many of the myths of European industrialisation hegemony and capitalism which have hidden the fact that Asia remained a serious power not just into the 18th century as Frank himself argued in 1998 but well into the 19th century as well When Frank passed away his colleagues rallied to finish this book and it is presented here as his final major statement Young People and the Shaping of Public Space in Melbourne, 1870-1914 Simon Sleight, 2016-02-11 Baby booms have a long history In 1870 colonial Melbourne was perspiring juvenile humanity with an astonishing 42 per cent of the city s inhabitants aged 14 and under a demographic anomaly resulting from the gold rushes of the 1850s Within this context Simon Sleight enters the heated debate concerning the future prospects of Young Australia

and the place of the colonial child within the incipient Australian nation Looking beyond those institutional sites so often assessed by historians of childhood he ranges across the outdoor city to chart the relationship between a discourse about youth youthful experience and the shaping of new urban spaces Play street work consumerism courtship gang related activities and public parades are examined using a plethora of historical sources to reveal a hitherto hidden layer of city life Capturing the voices of young people as well as those of their parents Sleight alerts us to the ways in which young people shaped the emergent metropolis by appropriating space and attempting to impress upon the city their own desires Here a dynamic youth culture flourished well before the discovery of the teenager in the mid twentieth century here young people and the city grew up together

Allen, 2011-02-15 The Anthem Anthology of Victorian Sonnets is a comprehensive collection of three thousand sonnets written by poets between 1836 and the early years of the twentieth century The work contains a representative selection of sonnets for each individual poet in order to display the diversity and innovation brought to the sonnet form by Victorian poets

Insurgency and Counterinsurgency in the Nineteenth Century Mark Lawrence, 2020-12-17 Insurgency and Counterinsurgency in the Nineteenth Century examines insurgency and counterinsurgency across the globe in the nineteenth century The volume includes chapters from distinguished and rising historians from Europe North and South America and covers irregular wars in Spain Ireland France Latin America China USA Africa Central Asia and Burma The authors explore links between insurgencies and nationalism including learning curves and emulation in counterinsurgency With a special emphasis on non Western warfare this volume includes case studies such as the Katanga and White Lotus rebellions largely unknown to Western readers The military history of the nineteenth century thus reveals much more than the symmetrical warfare of Napoleon Grant and Moltke This volume shows the commonalities of responses more than their differences and refracts these through themes which crop up repeatedly in different times and places These themes include common problems and solutions the challenge of commanding local intelligence networks public opinion millenarianism magic and religion technology hearts and minds the legal framework of state violence racial stereotypes and patterns of forgetting and remembering guerrilla conflicts The first recent study to examine Western and non Western warfare in equal measure stressing the prevalence of commonalities between guerrilla warfare and counterinsurgency across

the globe Insurgency and Counterinsurgency in the Nineteenth Century will be of great interest to scholars of military and strategic studies as well as modern military history It was originally published as a special issue of Small Wars Insurgencies

The Strictures of Inheritance Jan Luiten van Zanden, Arthur van Riel, 2004-04-18 A major feat of research and synthesis this book presents the first comprehensive history of the Dutch economy in the nineteenth century an important but poorly understood piece of European economic history Based on a detailed reconstruction of extensive economic data the authors account for demise of the Dutch economy's golden age After showing how institutional factors combined to make the Dutch economy a victim of its own success the book traces its subsequent emergence as a modern industrial economy Between 1780 and 1914 the Netherlands went through a double transition Its economy which in the words of Adam Smith was approaching a stationary state in the eighteenth century entered a process of modern economic growth during the middle decades of the nineteenth At the same time the country's sociopolitical structure was undergoing radical transformation as the decentralized polity of the republic gave way to a unitary state As the authors show the dramatic transformation of the Dutch political structure was intertwined with equally radical changes in the institutional structure of the economy The outcome of this dual transition was a rapidly industrializing economy on one side and on the other the neocorporatist sociopolitical structure that would characterize the Netherlands in the twentieth century Analyzing both processes with a focus on institutional change this book argues that the economic and political development of the Netherlands can be understood only in tandem

A Dictionary of Slang and Unconventional English Eric Partridge, 2006-05-02 The definitive work on the subject this Dictionary available again in its eighth edition gives a full account of slang and unconventional English over four centuries and will entertain and inform all language lovers

Struggles for Belonging Dieter Gosewinkel, 2021-11-04 Citizenship was the most important mark of political belonging in Europe in the twentieth century while estate religion party class and nation lost political significance in the century of extremes This is shown by examining the legal institution of citizenship with its deciding influence on the limits of a political community on inclusion and exclusion Citizenship determined a person's protection equality and freedom and thus his or her chances in life and very survival This book recounts the history of citizenship in Europe as the history of European statehood in the twentieth and early twenty first centuries It does so from three vantage points as the development of a legal institution crucial to European constitutionalism as a measure of an individual's opportunities for self fulfilment ranging from freedom to totalitarian subjugation and as a succession of alternating often sharply divergent political regimes considered from the perspective of their inclusivity and exclusivity and its justification The European history of citizenship is discussed in this book on the basis of six selected countries Great Britain France Germany Czechoslovakia Poland and Russia For the first time a joint history of citizenship in Western and Eastern Europe is told here from the heyday of the nation state to our present day which is marked by the crises of the European Union It is the history of a central legal institution that significantly

represents and at the same time determines struggles over migration integration and belonging One of the central concerns of this book is what lessons can be learned when it comes to the future chances of European citizenship Showing the Flag William R. Morrison, 2011-11-01 Under their various names the Mounted Police have played a vital colourful but often controversial role in Canadian history and nowhere has this been truer than on the northern frontier The police were the agents through which the central government asserted sovereignty over the Yukon and the Northwest Territories just as it had done earlier on the Prairies This book describes to what extent the RCMP shaped the northern frontier a frontier which steadily shifted separating territory under actual government control from that in which it was nominal The chapters treat each new spurt in this expansion and the period of contact and transition which followed As agents of the government the police imposed on the Canadian North a system largely alien to it which was designed not to express the aspirations of the north but to regulate and control it Through the enforcement of laws and in other public services the RCMP demonstrated that the land and its people including the Indians and Inuit belonged to Canada This political nature of the force was of the highest importance In assessing their performance of often harsh and dangerous duties Morrison refers to them as group heroes in the Canadian tradition of collective heroism In view of the current concern over Canada's sovereignty in the Polar Seas this book is a timely explanation of how the territory was originally brought into the orbit of Canadian control in what was thought to be the final chapter in Canada's manifest destiny **Music, Art and Performance from Liszt to Riot Grrrl** Diane V. Silverthorne, 2018-10-18 Opening with an account of print portraiture facilitating Franz Liszt's celebrity status and concluding with Riot Grrrl's noisy politics of feminism and performance this interdisciplinary anthology charts the relationship between music and the visual arts from late Romanticism and the birth of modernism to postmodernism while crossing from Western art to the Middle East Focused on music as a central experience of art and life these essays scrutinize the musicalisation of art focusing on the visual and performing arts and detailing significant instances of intra art relations between c 1840 and the present day Essays reflect on the aesthetic relationships of music to painting performance and installation sound and silence time and space The insistent influence of Wagner is considered as well as the work and ideas of Manet Satie and Cage Thomas Wilfred La Monte Young and Eliasson What distinguishes these studies are the convictions that music is never alone and that a full understanding of the isms of the last two hundred years is best achieved when music's influential presence in the visual arts is acknowledged and interrogated The Physician-Legislators of France Jack D. Ellis, 1990-09-28 Explores the causes and significance of the political influence gained by French medical doctors between 1870-1914 *Female Adolescent Sexuality in the United States, 1850-1965* Ann Kordas, 2019-04-08 This book examines the history of female adolescent sexuality in the United States from the middle of the nineteenth century until the beginning of the 1960s The book analyzes both adult perceptions of female adolescent sexuality and the experiences of female adolescents themselves It examines what girls knew or thought they knew about sex at different points in time girls sexual experiences

girls ideas about love and romance female adolescent beauty culture and the influence of popular culture on female adolescent sexuality It also examines the ways in which adults responded to female adolescent sexuality and the efforts of adults to either control or encourage girls interest in sexual topics dating girls participation in beauty culture and their education on sexual topics The book describes a trajectory along which female adolescents went from being perceived as inherently innocent and essentially asexual to being regarded and feared as primarily sexual in nature

The Economics of Regional Trading Arrangements Richard W. T. Pomfret, 2001 Regionalism became a major issue in international commercial diplomacy during the 1990s The European Union s 1992 program the formation of NAFTA and attempts to form or strengthen regional trading arrangements in South America southern Africa and Southeast Asia were all viewed as challenges to the nondiscrimination principle that had been the cornerstone of the postwar international trading system This book provides a unified analysis of policies which discriminate among trading partners featuring ample treatments of both history and theory as well as a review of empirical studies

Gender, Civic Culture and Consumerism Alan Kidd, David Nicholls, 1999-10-08 The labour movement in Lebanon Power on hold narrates the history of the Lebanese labour movement from the early twentieth century to today Bou Khater demonstrates that trade unionism in the country has largely been a failure for reasons including state interference tactical co optation and the strategic use of sectarianism by an oligarchic elite together with the structural weakness of a service based laissez faire economy Drawing on a vast body of Arabic language primary sources and difficult to access archives the book s conclusions are significant not only for trade unionism but also for new forms of workers organisations and social movements in Lebanon and beyond The Lebanese case study presented here holds significant implications for the wider Arab world and for comparative studies of labour This authoritative history of the labour movement in Lebanon is vital reading for scholars of trade unionism Lebanese politics and political economy

Civilization in the West Crane Brinton, John B. Christopher, Robert Lee Wolff, 1969 *Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office, 1973

Literacy and Popular Culture David Vincent, 1993-07-30 In 1750 half the population were unable to sign their names by 1914 England together with handful of advanced Western countries had for the first time in history achieved a nominally literate society This book seeks to understand how and why literacy spread into every interstice of English society and what impact it had on the lives and minds of the common people
