

ALEXANDER RABINOWITCH

PRELUDE ^{TO} REVOLUTION

THE PETROGRAD BOLSHEVIKS AND
THE JULY 1917 UPRISING

Prelude To Revolution The Petrograd Bols

**Geoffrey Swain,Charlotte
Alston,Michael C. Hickey,Boris
Kolonitskii,Franziska Schedewie**

Prelude To Revolution The Petrograd Bols:

Prelude to Revolution Alexander Rabinowitch, 1991-08-22 Rabinowitch documents how the party's pluralistic nature had crucial implications for the outcome of the revolution in October

Prelude to Revolution; the Petrograd Bolsheviks and the July 1917 Uprising Alexander Rabinowitch, 1968 an expert work remarkable for its objectivity judiciousness and its sure handling of the available evidence Political Science Quarterly a fine piece of historical writing Soviet Studies An able and scholarly inquiry into the perplexing abortive Petrograd uprising of June and July 1917 a very interesting view of revolutionary action on the local level Foreign Affairs First published in 1968 this pioneering study of revolutionary events in Petrograd in the summer of 1917 revised the established view of the Bolsheviks as a monolithic party Rabinowitch documents how the party's pluralistic nature had crucial implications for the outcome of the revolution in October

Russia in Revolution S. A. Smith, 2017-01-19 The Russian Revolution of 1917 transformed the face of the Russian empire politically economically socially and culturally and also profoundly affected the course of world history for the rest of the twentieth century Historian S A Smith presents a panoramic account of the history of the Russian empire from the last years of the nineteenth century through the First World War and the revolutions of 1917 and the establishment of the Bolshevik regime to the end of the 1920s when Stalin simultaneously unleashed violent collectivization of agriculture and crash industrialization upon Russian society Drawing on recent archivally based scholarship Russia in Revolution pays particular attention to the varying impact of the Revolution on the various groups that made up society peasants workers non Russian nationalities the army women and the family young people and the Church In doing so it provides a fresh way into the big perennial questions about the Revolution and its consequences why did the attempt by the tsarist government to implement political reform after the 1905 Revolution fail why did the First World War bring about the collapse of the tsarist system why did the attempt to create a democratic system after the February Revolution of 1917 not get off the ground why did the Bolsheviks succeed in seizing and holding on to power why did they come out victorious from a punishing civil war why did the New Economic Policy they introduced in 1921 fail and why did Stalin come out on top in the power struggle inside the Bolshevik party after Lenin's death in 1924 A final chapter then reflects on the larger significance of 1917 for the history of the twentieth century and for all its terrible flaws what the promise of the Revolution might mean for us today

Modern Revolutions John Dunn, 1989-06-22 Many political regimes today draw such legitimacy as they have from a revolution the destruction of an existing political elite and its replacement by a different group or groups drawn from inside the same society A large part of the ideological dispute in world politics has come in consequence to turn on an interpretation of the character of revolutions as political and social events It is extremely difficult to separate ideological assessments of the desirability or otherwise of what has occurred in revolutions from causal explanations of why these revolutions occurred and both major traditions in the analysis of revolutionary phenomena have been damaged by their

failure to distinguish clearly between explanation and assessment In examining eight major revolutions of the twentieth century John Dunn helps readers to remedy this state of affairs by thinking for themselves **The Workers' Revolution in Russia, 1917** Grinnell College. Rosenfield Program in Public Affairs, International Relations, and Human Rights, 1987-09-25 The essays in this book address the process of worker alienation and the way that the Bolsheviks appealed to rather than exploited the working population especially in the capital cities of Petrograd and Moscow James Bater surveys the growing demographic and social crisis in the capitals that accompanied rapid industrialization Steve Smith then traces the revolution in Petrograd particularly in the factories where worker radicalism often outpaced the leadership of parties of the left that came to power after the tsar was overthrown in February Diane Koenker finds a similar process at work in Moscow despite the differences between the two cities Finally both Ronald Suny and William Rosenberg demonstrate how significant these findings are for a more accurate understanding of the Russian Revolution and ultimately of the survival of the Bolsheviks government **Leon Trotsky and the Art of Insurrection 1905-1917** Harold Walter Nelson, 2013-07-23 First published in 1988 A functional definition of revolutionary military leadership is essential in understanding Leon Trotsky's role in the Russian Revolution and it is this goal that Harold Walter Nelson explores in this title The author states that the words revolutionary and general carry a heavy connotative burden and when the first is used to modify the second the new term does not lend itself to easy definition This book pursues an analysis of this title from the context of the Russian military from 1905-1917 **Lenin** James D. White, 2017-03-14 A political and intellectual biographical study of Lenin which focuses on those aspects of his thought and political activities that had a bearing on the accession of the Bolsheviks to power in Russia in 1917 and the creation of the Soviet state The book places Lenin in the context of his times and shows his relationship to other socialist thinkers In particular it locates Lenin within the development of Marxist thought in Russia Its historiographical chapter reveals the political factors which influenced the way biographies of Lenin were written in the Soviet Union The book makes extensive use of first hand materials including sources from the Russian archives *Alexander Shlyapnikov, 1885-1937* Barbara Allen, 2015-01-08 In *Alexander Shlyapnikov 1885-1937 Life of an Old Bolshevik* Barbara Allen recounts the political formation and positions of Russian Communist and trade unionist Alexander Shlyapnikov As leader of the Workers' Opposition 1919-21 Shlyapnikov called for trade unions to realise workers' mastery over the economy Despite defeat he continued to advocate distinct views on the Soviet socialist project that provide a counterpoint to Stalin's vision Arrested during the Great Terror he refused to confess to charges he thought illogical and unsupported by evidence Unlike the standard historical and literary depiction of the Old Bolshevik Shlyapnikov contested Stalin's and the NKVD's construct of the ideal party member Allen conducted extensive research in archives of the Soviet Communist party and secret police Listen to SRB Podcast's episode on Alexander Shlyapnikov *An Old Working Class Bolshevik* featuring Barbara Allen *The Bolsheviks Come to Power* Alexander Rabinowitch, 2017-05-20 The Bolsheviks

Come to Power is one of the most important histories of the Russian Revolution to challenge the mainstream narratives Originally published to great acclaim in 2004 this new edition marks the 100th anniversary of one of the explosive and game changing moments in modern times In this absorbing narrative Alexander Rabinowitch counters the claims by mainstream historians that the revolution was a military coup led by Lenin and a small band of fanatics He refutes the Soviet myth that the party's triumph in the October Revolution was inevitable and explains the ebbs and flows of the revolutionary period tracing the moods of the working class and the political positions of the Bolsheviks at different historical moments including the immediate aftermath of the February Revolution the July Days the Kornilov affair and up to and including the October Revolution itself Drawn from a wealth of primary sources and archival material this new edition of Rabinowitch's classic account is a must have for anyone interested in clearing away the tired platitudes of mainstream historians and reclaiming the revolution on this important anniversary

Art, Intellect and Politics Giusy Maria Ausilia Margagliotta, Andrea Aldo Robiglio, 2012-11-30 The volume explores the relationship of artists and intellectuals from ancient Greece to modern times Special attention is paid to Plato Augustan poets including the reception Soviet art Mayakowsky and Jewish intellectuals Non European contexts China Turkey are treated as well

A History of European Socialism Albert S. Lindemann, 1983-01-01 This is a serious and accomplished synthesis Biographical vignettes enliven the presentation of ideas and references to studies of regional diversities give the narrative an uncommonly rich texture Lucid and illuminating It is the best book on the subject to put into the hands of our students Helmut Gruber International Labor and Working Class History A synthetic narrative by a young academic scholar who has independent ideas on an important subject This book is worth reading if for no other reason than its modest but nonpatronizing rehabilitation from generations of Marxist caricature of a host of deeply democratic European socialists James H Billington Washington Post Book World One asset of this book is its lack of the overbearing personal partisanship one finds in so many historical studies of socialism Lindeman incorporates some recent and inaccessible studies in social history written from the bottom up David D Arcy World View As a whole Lindemann offers a more balanced treatment of the ideas and the movement of socialism than found in many extant histories A must for all college and university libraries Choice A competent and fair minded study of a controversial subject It presents much factual material and judicious interpretation in lucid prose L S Stavrianos Los Angeles Times Book Review

Stalin Stephen Kotkin, 2015-10-13 In his biography of Stalin Kotkin rejects the inherited wisdom about Stalin's psychological makeup showing us instead how Stalin's near paranoia was fundamentally political and closely tracks the Bolshevik revolution's structural paranoia the predicament of a Communist regime in an overwhelmingly capitalist world surrounded and penetrated by enemies At the same time Kotkin posits the impossibility of understanding Stalin's momentous decisions outside of the context of the history of imperial Russia

Problems of Communism, 1970 **The Bloomsbury Handbook of the Russian Revolution** Geoffrey Swain, Charlotte Alston, Michael C. Hickey, Boris Kolonitskii, Franziska

Schedewie,2022-12-15 Through 30 interpretative essays The Bloomsbury Handbook of the Russian Revolution sees an international team of leading scholars comprehensively examine Russia's revolutionary years In the wake of the 2017 centenary this handbook is the first reference point for anyone wishing to learn more about the changes which took place in Russia between 1917 and 1921 and subsequently the 20th century Split into six sections covering political crises politicians and parties social groups identities regions and peoples and civil war the volume covers the collapse of Tsarism and the February Revolution the emergence of the Provisional Government and major historical figures such as Lenin Kerensky and the Socialist Revolutionary leader Viktor Chernov It also explores the events surrounding the Bolshevik seizure of power in October 1917 the first year of Soviet Government until the Bolshevik dictatorship was established and the impact on Russia of the subsequent civil war The focus is broader than these issues of high politics however since this handbook also considers events in the provinces as well as revolutionary Petrograd and examines the social impact of the revolution in terms of class gender age and culture

War on War R. Craig Nation,1989-10-12 The outbreak of World War I precipitated a schism in the international socialist movement that endures today Heeding calls for rational defense the leading European socialist democratic parties abandoned their vision of peace and internationalism as an integral part of the struggle for social justice and set aside their view of interstate war as the clearest example of the irrational essence of competitive capitalism Only the Zimmerwald Left led by Lenin continued to speak out for internationalism R Craig Nation utilizes sources in Dutch French German Italian Russian and Swedish to provide the first comprehensive history of the Zimmerwald Left as an international political tendency

□□□□□□□□,1970 *The Russian Imperial Army 1796-1917* Roger Reese,2017-11-30 The majority of the articles assembled in this volume reflect social historical methodology which is used to show the relationship between the tsarist army and society while focusing on the Russian historical experience In each case whether it be a study of the soldiers as peasants alcoholism the nationalities officers military justice social and legal reform and mutiny or revolution the inescapable conclusion arises that the army was at all times a reflection of the many social problems aspirations or political thought of the broader imperial Russian civil society In short this anthology treats the Russian military as a window on the symbiotic triangular relationship between army state and society

The Non-Geometric Lenin Carter Elwood,2011-04-01 This book is a collection of eleven essays dealing with important but little studied episodes in Lenin's attempt to build a Bolshevik Party before 1914 It also deals with his defence of Roman Malinovsky who turned out to be a police spy and his romantic involvement with a fellow Bolshevik Inessa Armand The last three essays paint a picture of a non geometric Lenin and his little known interests in food holidaying and sports

Lenin on the Train Catherine Merridale,2017-03-28 A gripping meticulously researched account of Lenin's fateful 1917 rail journey from Zurich to Petrograd where he ignited the Russian Revolution One of The Economist's Best Books of the Year In April 1917 as the Russian Tsar Nicholas II's abdication sent shockwaves across war torn Europe the future leader of the Bolshevik revolution Vladimir Lenin was far away exiled in

Zurich When the news reached him Lenin immediately resolved to return to Petrograd and lead the revolt But to get there he would have to cross Germany which meant accepting help from the deadliest of Russia's adversaries Now in Lenin on the Train drawing on a dazzling array of sources and never before seen archival material renowned historian Catherine Merridale provides a riveting nuanced account of this enormously consequential journey the train ride that changed the world as well as the underground conspiracy and subterfuge that went into making it happen Writing with the same insight and formidable intelligence that distinguished her earlier works she brings to life a world of counter espionage and intrigue wartime desperation illicit finance and misguided utopianism When Lenin arrived in Petrograd's now famous Finland Station he delivered an explosive address to the impassioned crowds Simple and extreme the text of this speech has been compared to such momentous documents as Constantine's edict of Milan and Martin Luther's ninety five theses It was the moment when the Russian revolution became Soviet the genesis of a system of tyranny and faith that changed the course of Russia's history forever and transformed the international political climate Drenched in atmosphere her account has all the stuff of a spy thriller Newsday *A Select Bibliography, Asia, Africa, Eastern Europe, Latin America* American Universities Field Staff, 1970

Reviewing **Prelude To Revolution The Petrograd Bols**: Unlocking the Spellbinding Force of Linguistics
