updates      *Pediatric Drug Development* Andrew E. Mulberg, Steven A. Silber, John N. van den Anker, 2011-09-20 *Pediatric Drug Development Concepts and Applications* is designed as a reference and textbook and is meant to address the science of differences between the pediatric and adult subject in the development of pharmaceutical products. Considered are the ethics and medical needs of proper understanding the pediatric and adult differences, the business case for proper development of drugs for children as well as the technical feasibility studies and processes that are necessary for a proper pediatric drug development program. The applications of these approaches will benefit all stakeholders and ultimately not only educate but also provide better and safer drugs for pediatric patients.

Introduction to Maternity and Pediatric Nursing Gloria Leifer, MA, RN, CNE, 2014-09-11 Part of the popular LPN Threads series *Introduction to Maternity Pediatric Nursing* provides a solid foundation in obstetrics and pediatric nursing. An easy to follow organization by developmental stages, discussion of disorders by body system from simple to complex and health to illness, and a focus on family health make it a complete guide to caring for maternity and pediatric patients. Written in a clear, concise style by Gloria Leifer MA RN, this edition reflects the current NCLEX test plan with additional material on safety, health promotion, nutrition, and related psychosocial care. It provides clinical information and insights in a concise, structured, and informative way that encourages critical thinking. Reviewed by Kim Shrieves on behalf of *Nursing Times* April 2015. Concise yet comprehensive content is presented within the scope of practice for the LVN/LPN but with sufficient depth to facilitate students in a ladder program, allowing them to be successful with the ADN program requirements for the specialties. Step-by-step procedure lists throughout the text help you master important maternity and pediatric nursing processes with Skills Performance Checklists available on the Evolve website. Nursing Care Plans with Critical Thinking Questions reinforce the nursing process and strengthen problem-solving skills as applied to maternity nursing. Logical organization of content from simple to complex and health to illness makes locating and accessing information easy. Key terms with phonetic pronunciations and text page references help improve terminology and language skills of English as a Second Language (ESL) students and students with limited proficiency in English before they enter clinical practice. Health Promotion boxes emphasize the importance of family-centered care, health promotion, and illness prevention. Women's health issues and growth and development of child and parent help you understand and teach wellness and disease prevention to patients in your care. Nutrition content highlights the importance of proper nutrition for women before, during, and after pregnancy for those who are breastfeeding, as well as critical information about the nutrition needs and problems of newborns, infants, and children. Nursing Tips throughout provide pertinent information applicable in the clinical setting that reinforces what you have just learned while building on previously learned information. NEW! Unfolding case studies with illustrations follow first-time parents Tess and Luis throughout the stages of pregnancy and birth of their twins with a series of critical thinking questions. NEW! Updated NCLEX exam-style review questions have been revised to a higher cognitive level to better reflect the NCLEX examination. NEW! Expanded coverage of bioterrorism and
