Paul Anisef, Robert Sweet, 2005-09-26 Most Canadian parents have had to assume a larger share of the financial costs of their children's post secondary education because of declining government funding and changing loans and bursary programs. Preparing for Post Secondary Education considers the impact of increased private support and the planning strategies parents use based on information from a 1999 Statistics Canada national survey of 34 000 households. The contributors begin by examining changes to national and international educational funding policies and the relationship between public and private costs. They focus on the role of families in marshaling the necessary resources demonstrating that access to post secondary education is also determined by social capital. The authors conclude that new partnerships between parents, the state and schools are redefining the various players' roles and commitments to the educational futures of Canadian children. Contributors include the late Stephen Bell, York University; Scott Davies, McMaster University; Ross Finnie, Queen's University; George Frempong, York University; Dianne Looker, Acadia University; Nancy Mandell, York University; Sheila Marshall, University of British Columbia; Hans Schuetze, University of British Columbia; Victor Thiessen, Dalhousie University; Jim White, University of British Columbia; and Jamie Wood, University of British Columbia. *Teacher Preparation in Scotland* Rachel

Shanks, 2020-09-25 This book charts the origins and development of teacher preparation in Scotland from 1872 onwards covering key milestones in policy and practice and looking ahead to the future. National Water-Quality Assessment Program National Research Council, Division on Earth and Life Studies, Water Science and Technology Board, Committee on Preparing for the Third Decade (Cycle 3) of the National Water-Quality Assessment (NAWQA) Program, 2012-12-20 The first two decades of the U.S. Geological Survey's National Water Quality Assessment (NAWQA) Program have provided a successful and useful assessment of U.S. water quality conditions, how they have changed over time, and how natural features and human activities have affected those conditions. Now planning is underway for the third decade. Cycle 3 of the Program outlined in the Science Plan with challenges including ensuring that the NAWQA remain a national program in the face of declining resources, balancing new activities against long term studies and maintaining focus amidst numerous and competing stakeholder demands. The Science Plan for Cycle 3 articulates a forward thinking vision for NAWQA science over the next decade building on the previous cycles' data, experience and products. Preparing for the Third Decade, Cycle 3 of the National Water Quality Assessment (NAWQA) Program explains the national needs outlined in the plan. NAWQA's need to emphasize collaboration with other USGS and external programs, other federal agencies, state and local governments and the private sector. **OECD Rural Studies Adapting Regional Policy in**
