Preparing To Hear The Gospel A Proposal For Natural Theology:

Preparing to Hear the Gospel Ned Wisnefske,1998 Preparing to Hear the Gospel proposes a natural theology that prepares the way for Christian faith so is neither apologetic for Christianity nor a natural substitution for it It draws on philosophical insights from Wittgenstein to argue for a practical non foundational understanding which is neither theoretical knowledge of God nor immediate consciousness of God The author points out that natural form of life impresses a common morality that functions to prepare the way for the gospel much as the natural law did for Reformation theology and the moral life did for Kierkegaard He concludes that natural theology leads us to the reality of an unknown God or to the hidden God In this way the book prepares for the good news of God s redemption which frees humanity from the power of death for new life

Science and Theology James K. Dew Jr.,2011-01-17 Alister McGrath s work on the relationship between Science and Theology makes the most notable contribution to the subject written by an evangelical in recent history McGrath holds earned doctorates in both science and theology and his three volume set *A Scientific Theology* is the culmination of three decades of his work on the subject In this book James K Dew explores McGrath s contribution to the issue and highlights the benefits of adopting a critical realist perspective such as his own In particular Dew argues that McGrath s approach helps establish a unified theory of knowledge and holds significant advantages for scientists and theologians alike Beloved Community Hinlicky, Paul R.,2015-05-04 An original comprehensive system of theology especially apropos to the post Christendom North American context In this scholarly work Paul Hinlicky transcends the impasse between dogmatic and systematic theology by articulating and arguing a single cognitive claim God is the One who has determined to redeem the creation by the missions of his Son and Spirit Deploying an unusual Spirit Son Father trinitarian scheme Hinlicky treats the problem of the knowledge of God and the nature of the theological discipline and he proceeds to carefully develop his system of theology through expansive wideranging argumentation Each main part of his work includes discussion of the ecumenical convergences in doctrine gained over the last generation and exploration of interreligious dialogues especially with Judaism and Islam Throughout the book Hinlicky engages with other theologians particularly with Robert Jenson s *Systematic Theology* and concludes each major section with a discussion of an alternate perspective on the subject **Philosophy**

James K. Dew, Jr., Paul M. Gould, 2019-04-02 Two experienced educators offer an up to date introduction to philosophy from a Christian perspective that covers the four major areas of philosophical thought epistemology metaphysics philosophy of religion and ethics Written from an analytic perspective the book introduces key concepts and issues within the main areas of philosophical inquiry in a comprehensive yet accessible way inviting readers on a quest for goodness truth and beauty that ultimately points to Jesus as the source of all

God Hides Ned Wisnefske, 2010-02-18 **GOD HIDES** is a critique of contemporary christian faith It argues that faith should not be understood as the result of spiritual seeking but rather as rooted in moral living Starting with the challenge of Bonhoeffer s religionless Christianity it argues for a common morality and then shows how that morality leads to Christian faith The thesis is that in order for us to serve our neighbor whom we see and not seek God whom we cannot see God hides Drawing upon the rich tradition of religious thought from Luther Kant Kierkegaard and Bonhoeffer this book offers a way past the religious battles in the current culture war Wisnefske points to the emptiness of the Christian promise of salvation in a time when virtually no one believes there is a hell to be saved from Instead he shows that it makes sense today in view of our nuclear arsenals and environmental crisis to claim that life is threatened by death Our present circumstances provide new understanding into the biblical view that primeval chaos threatens creation A distinctive feature of the book is that it develops the traditional understanding that sin and death are powers threatening creation Christian faith accordingly is best understood as the living hope that creation will be saved from the violence and destruction that threaten to return it to chaos

Choice ,1998 **Subject Guide to Books in Print** ,2001 **Dialogue** ,1998 **American Book Publishing Record Cumulative 1998** R R Bowker Publishing, 1999-03

Stepping Stones To Other Religions: A Christian Theology of Inter-religious Dialogue Dermot A. Lane, **Out of Egypt: Biblical Theology and Biblical Interpretation**

Zondervan, 2011-03-01 Biblical theology attempts to explore the theological coherence of the canonical witnesses no serious Christian theology can overlook this issue The essays in the present volume illustrate the complexity and richness of the conversation that results from attentive consideration of the question In a time when some voices are calling for a moratorium on biblical theology or pronouncing its concerns obsolete this collection of meaty essays demonstrates the continuing vitality and necessity of the enterprise Richard B Hays George Washington Ivey Professor of New Testament The Divinity School Duke University USA This volume on biblical theology jumps into the fray and poses the right kind of questions It does not offer a single way forward Several of the essays are quite fresh and provocative breaking new ground

Bray Reno others set out the issues with clarity and grace Bartholomew others offer programmatic analysis Webster Bauckham others offer a fresh angle of view Chapman Martin The success of this series is in facing the challenge of disarray in biblical studies head on and then modeling a variety of approaches to stimulate our reflection Christopher Seitz Professor of Old Testament and Theological Studies St Andrews University UK

Love Works Ned Wisniefski, 2025-05-20 Is it God's will that the world be destroyed That is no longer a believable idea This book starts from the assumption that God has nothing to do with the destruction of the world To account for these facts rather we must look at the deep darkness depicted in the Bible that threatens to return the world to a formless void With that assumption this book proposes a biblical theology that shows how faith and hope can align with our scientific and ethical understandings and how such a thoughtful faith will be active in love So understood the love of God looks less like the love a parent has for a child than the challenging risky love a leader has for disciples whose word to them is follow me In this way we see that love works love is active and love succeeds in defeating the corruption and violence that threaten to destroy our world That's the gospel truth

The Gospel Anchor, 1833 *The Encyclopædia of Missions* Edwin Munsell Bliss, 1891 [The Free Church Monthly and Missionary Record](#), 1882

Law and Theology David W. Opderbeck, 2019-11-05 Law and Theology offers the definitive account of the relationship between law and theology in the Christian tradition Drawing on diverse biblical texts and classic authors from the early church to contemporary voices from the modern period David W Opderbeck examines key legal questions and controversial case studies from an interdisciplinary perspective breaking new ground for legal scholars and theologians alike As a law professor practicing attorney and theologian Opderbeck writes as an insider from both disciplines This unique look brings fresh insight for both fields in a context where questions of theology and law are especially relevant and increasingly urgent Going beyond the culture wars Opderbeck brings these real world cases to life examining the ins and outs of the most important legal questions facing American civic and religious life Scholars and students of law and theology will find this book to be required reading in and outside the legal and theological classrooms

The Earth Is God's William Dyrness, 2004-08-19 Noting that Christians in the 20th century have not been able to make up their minds whether God and our corporate lives have anything to do with each other Dyrness explores the century's theological trends Citing the impact of contemporary hermeneutics Dyrness shows how the Bible still functions as a master narrative wherein Christians can find themselves Dyrness addresses various aspects of contemporary culture constructing a theology of embodiment that connects culture and worship in concrete ways For all those concerned with issues of religion and culture particularly of the raging Culture Wars *The Earth is God's* offers an informed Evangelical view that is at once balanced and hopeful
