The Annotated Bakhtin Bibliography Carol Adlam, David G. Shepherd, 2000 This is the first in a new series entitled MHRA Bibliographies The Annotated Bakhtin Bibliography draws its material from and is intended as a companion to the on line Analytical Database of Work by and about the Bakhtin Circle maintained by the Bakhtin Centre at the University of Sheffield this is the most extensive electronic collection of bibliographical and analytical data relating to the Russian philosopher and cultural theorist Mikhail Bakhtin and the members of the Bakhtin Circle principally Mariia Iudina Matvei Kagan Pavel Medvedev Lev Pumpianskii Ivan Sollertinskii and Valentin Voloshinov The work of Bakhtin and the Bakhtin Circle has had enormous international impact across a range of disciplines including literary and cultural theory philosophy history anthropology linguistics and psychology The Annotated Bakhtin Bibliography will provide scholars and students of Bakhtin with easy access to detailed information on research undertaken throughout the world in these and other fields The text of The Annotated Bakhtin Bibliography is in two parts The first part comprises extensive bibliographical details of almost three hundred primary works including information about translations and reprints The second consists of almost one thousand entries containing analytical and annotated information about secondary literature dealing with Bakhtin and the Bakhtin Circle in over twenty languages allowing the principal trends in the development of Bakhtin studies to be discerned and traced Consultation of the bibliography is facilitated by comprehensive name title and subject indexes **Lydia Ginzburg's Prose** Emily Van Buskirk, 2016-01-05 The Russian writer Lydia Ginzburg 1902-90 is best known for her Notes from the Leningrad Blockade and for influential critical studies such as On Psychological Prose investigating the problem of literary character in French and Russian novels and memoirs Yet she viewed her most vital work to be the extensive prose fragments composed for the desk drawer in which she analyzed herself and other members of the Russian intelligentsia through seven traumatic decades of Soviet history In this book the first full length English language study of the writer Emily Van Buskirk presents Ginzburg as a figure of previously unrecognized innovation and importance in the literary landscape of the twentieth century Based on a decade's work in Ginzburg's archives the book discusses previously unknown manuscripts and uncovers a wealth of new information about the author's life focusing on Ginzburg's quest for a new kind of writing adequate to her times She writes of universal experiences frustrated love professional failures remorse aging and explores the modern fragmentation of identity in the context of war terror and an oppressive state Searching for a new concept of the self and deeming the psychological novel a beloved academic specialty inadequate to express this concept Ginzburg turned to fragmentary narratives that blur the lines between history autobiography and fiction This full account of Ginzburg's writing career in many genres and emotional registers enables us not only to rethink the experience of Soviet intellectuals but to arrive at a new understanding of writing and witnessing during a horrific century *The American Bibliography of Slavic and East European Studies for 1994* Patt Leonard, Rebecca Routh, 1997-05-31 This text provides a source of citations to North

American scholarships relating specifically to the area of Eastern Europe and the former Soviet Union It indexes fields of scholarship such as the humanities arts technology and life sciences and all kinds of scholarship such as PhDs **Economic Knowledge in Crisis** Olessia Kirtchik,2024-12-29 This book aims to shed new light on the puzzle of the late Soviet conversion to the market and capitalism by revisiting the history of Soviet reform economics Using a variety of sources including interviews with economists archival files and published materials it examines the social contexts in which economists employed in economic administration and research institutions could have played a crucial public and political role the forms of their participation and the social and political logic behind the selection of economic experts and their rise to power during perestroika and the transition period It also compares the professional trajectories of these reformist economists and assesses the scope of this group s influence in the post Soviet period in order to conclude on the new state of economic expertise in Russia Canadian Slavonic Papers ,1998 Bibliographic Guide to Slavic, Baltic, and Eurasian Studies ,1995 **Soviet Art House** Catriona Kelly,2021 Its unique ability to sway the masses has led many observers to consider cinema the artform with the greatest political force The images it produces can bolster leaders or contribute to their undoing Soviet filmmakers often had to face great obstacles as they struggled to make art in an authoritarian society that put them not only under ideological pressure but also imposed rigid economic constraints on the industry But while the Brezhnev era of Soviet filmmaking is often depicted as a period of great repression Soviet Art House reveals that the films made at the prestigious Lenfilm studio in this period were far more imaginative than is usually suspected In this pioneering study of a Soviet film studio author Catriona Kelly delves into previously unpublished archival documents and interviews memoirs and the films themselves to illuminate the ideological economic and aesthetic dimensions of filmmaking in the Brezhnev era She argues that especially the young filmmakers who joined the studio after its restructuring in 1961 revitalized its output and helped establish Leningrad as a leading center of oppositional art This unique insight into Soviet film production shows not only the inner workings of Soviet institutions before the system collapsed but also traces how filmmakers tirelessly dodged and negotiated contradictory demands to create sophisticated and highly original movies **Russian Studies in Philosophy** ,2006 *Russian Social Science Review* ,2007 **Filosofskii vek** ,2006 **Бенджамин Франклин и Россия** ,2006 **The Value of Dialog** Józef Keller,1966 **Dialogues** Roman Jakobson,Krystyna Pomorska,2020-05-18 No detailed description available for Dialogues *Pocket Guide to DIALOG Version 2* Dialog Information Services (Palo Alto, Calif.),1985 *Online-Dialog Version* Derwent,1993 *Edition Dialog* , **Dialog, Bd. 14** Reiner Steinweg,1989 **A Dialogue.
