Timmerman, 1983 Fantasy permits its readers a certain distance from pragmatic affairs and offers them a clearer insight into them It offers a parallel reality which gives us a renewed awareness of what we already know Fantasy invites the reader to recover a belief which has been beclouded by knowledge to renew a faith which has been shattered by fact As the pace of modern life quickens the fascination for fantasy literature guickens simultaneously **Other Worlds** Christopher G. White, 2018-03-16 Christopher White points to ways that both spiritual practices and scientific speculation about multiverses and invisible dimensions are efforts to peer into the hidden elements and even existential meaning of the universe Creatively appropriated these ideas can restore a spiritual sense that the world is greater than anything our eyes can see **Other Cities, Other Worlds** Andreas Huyssen, 2008-11-11 Collection of essays that examines the effects of globalization on non Western cities Otherworlds David Luke, 2019-05-24 Scientist and psychonaut David Luke weaves personal experience and scientific research in this comprehensive exploration of chemically mediated extra ordinary human experiences Emphasizing parapsychological aspects of the psychedelic experience Luke's new book fills in a fascinating and previously neglected lacuna in the burgeoning field of human studies with these compounds Rick Strassman PhD A psychedelic Indiana Jones Matt Colborn PhD David Luke s delightful one liner about his book is that it s about weird people in weird places taking weird substances doing weird things and importantly having weird experiences On reflection it s much more profound than that So weird reader forge ahead without fear Dean Radin PhD In his fascinating book David plunges into this controversial topic and gives the backstory the front story and possible ways forward to bring paranormal and psychedelic research together and further our understanding of both Dennis J McKenna PhD A remarkable collection and a necessary one This body of research illuminates aspects of psychedelic experiences usually obscured or denied in the medical and clinical research and sensationalized in the popular press James Fadiman PhD A real Dr Gonzo Will Self **Around the Day in Eighty Worlds** Martin Savransky, 2021-04-19 In

Around the Day in Eighty Worlds Martin Savransky calls for a radical politics of the pluriverse amid the ongoing devastation of the present Responding to an epoch marked by the history of colonialism and ecological devastation Savransky draws on the pragmatic pluralism of William James to develop what Savransky calls a pluralistic realism an understanding of the world as simultaneously one and many ongoing and unfinished underway and yet to be made Savransky explores the radical multifariousness of reality by weaving key aspects of James s thought together with divergent worlds and stories of Magellan s circumnavigation sorcery in Mozambique God s felt presence among a group of evangelicals in California visible spirits in Zambia and ghosts in the wake of the 2011 tsunami in Japan Throughout he experiments with these storied worlds to dramatize new ways of approaching the politics of radical difference and the possibility of transforming reality By exploring and constructing relations between James's pluralism and the ontological turn in anthropology Savransky offers a new conceptualization of the pluriverse that fosters modes of thinking and living otherwise Divine Presence in the World Luco The Presence of God in the World Steven G. Erickson, 1984 In Human Presence Erickson offers a thoughtful study of T Drevikovsky some fundamental features of human nature central to a theoretical and therapeutic understanding of human existence Though the language employed is largely philosophical interfaces with psychoanalysis and religion are made in order to stimulate dialogue that reaches beyond the traditional boundaries of discipline It is toward more such dialogue that Human Presence serves as preparation The author provides a probing contrast between traditional psychoanalysis and existential conceptions of time consciousness and he articulates the issues involved in experience or lived time in their centrality to human self understanding The author suggests how both conceptions the existential and the psychoanalytic enlarge yet limit awareness and insight In a revealing way Human Presence raises deep and unavoidable issues regarding the human in us all Stephen A Erickson is Professor of Philosophy Pomona College and Claremont Graduate School and is a guest faculty member of the Southern California Psychoanalytic Institute **A Journey in Other Worlds** John Jacob Astor, 2013-04-15 Now with an Historical Afterword by Ron MillerIncludes the original illustrations by Boy Scouts of America's founder Dan Beard Featured in Ron Miller's The Conquest of Space Book Series One of the most prophetic science fiction novels of all time by one of SF s most unusual and unexpected authors multimillionaire John Jacob Astor Descriptions ranging from life on earth in the year 2000 to the bizarre landscapes of a trans Neptunian planet are part of the story Originally published in 1894 At the publisher's request this title is sold without DRM Digital Rights Management The Shekinah: Or, the Presence and Manifestation of Jehovah, Upon the Several Dispensations, from the Creation of Man to the Day of Judgment. With Dissertations on the Cherubim and Urim and Thummim William Cooke, 1857 **God's Presence** Frances Young, 2013-10-10 In 2011 Frances Young delivered the Bampton Lectures in Oxford to great acclaim She offered a systematic theology with contemporary coherence by engaging in conversation with the fathers of the church those who laid down the parameters of Christian theology and enshrined key concepts in the creeds and exploring how their teachings can be applied today despite the differences in our intellectual and ecclesial environments This book results from a thorough rewriting of those lectures in which Young explores the key topics of Christian doctrine in a way that is neither simply dogmatic nor simply historical She addresses the congruence of head and heart through academic and spiritual engagement with God's gracious accommodation to human limitations Christianity and biblical interpretation are discussed in depth and the book covers key topics including Creation anthropology Christology soteriology spirituality ecclesiology and Mariology making it invaluable to those studying historical and constructive theology <u>Dreams of Presence</u> Mitch Rose, 2024-11-30 Throughout the twentieth century the question of culture was a central pillar of social scientific thought Today however the concept has disappeared from the academic landscape Despite pressing political debates about culture wars identity politics cultural appropriation and nativism the concept of culture is no longer seen as a credible explanatory tool Dreams of Presence provides a novel theoretical approach to the question of culture and will be of use to geographers anthropologists sociologists and social theorists grappling to understand why culture continues to be a dominant political force in our contemporary world Drawing on Heidegger Levinas Derrida and i ek Mitch Rose provides an existential rather than sociological account of culture conceptualizing it as a refuge where subjects endeavour to establish ownership over a life that perpetually eludes them The book argues that culture is a claim not something subjects ever have but something they desire not something properly present but a dream of presence an imagination of identity we cultivate care for and materially build in order to assure ourselves that we are sovereign self standing beings Otherworlds Aisling Nora Byrne, 2016 This book offers a new perspective on the otherworlds of medieval literature These fantastical realms are among the most memorable places in medieval writing by turns beautiful and monstrous alluring and terrifying Passing over a river or sea or entering into a hollow hill heroes come upon strange and magical realms These places are often very beautiful filled with sweet music and adorned with precious stones and rich materials There is often no darkness time may pass at a different pace and the people who dwell there are usually supernatural Sometimes such a place is exactly what it appears to be the land of heart s desire but the otherworld can also have a sinister side trapping humans and keeping them there against their will Otherworlds Fantasy and History in Medieval Literature takes a fresh look at how medieval writers understood these places and why they found them so compelling It focuses on texts from England but places this material in the broader context of literary production in

medieval Britain and Ireland The narratives examined in this book tell a rather surprising story about medieval notions of these fantastical places Otherworlds are actually a lot less other than they might initially seem Authors often use the idea of the otherworld to comment on very serious topics It is not unusual for otherworld depictions to address political issues in the historical world Most intriguing of all are those texts where locations in the real world are re imagined as otherworlds The regions on which this book focuses Britain Ireland and the surrounding islands prove particularly susceptible to this characterization **Dream Not of Other Worlds** Huston Diehl, 2007-04 When Huston Diehl began teaching a fourth grade class in a Negro elementary school in rural Louisa County Virginia the school s white superintendent assured her that he didn t expect her to teach those children anything She soon discovered how these low expectations widely shared by the white community impeded her students ability to learn With its overcrowded classrooms poorly trained teachers empty bookshelves and meager supplies her segregated school was vastly inferior to the county's white elementary schools and the message it sent her students was clear dream not of other worlds In her often lyrical memoir Diehl reveals how in the intimacy of the classroom her students reached out to her a young white northerner and shared their fears anxieties and personal beliefs Repeatedly surprised and challenged by her students Diehl questions her long standing middle class assumptions and confronts her own prejudices In doing so she eloquently reflects on what the students taught her about the hurt of bigotry and the humiliation of poverty as well as dignity courage and resiliency Set in the waning days of the Jim Crow South Dream Not of Other Worlds chronicles an important moment in American history Diehl examines the history of black education in the South and narrates the dramatic struggle to integrate Virginia's public schools Meeting with some of her former students and colleagues and visiting the school where she once taught she considers what has and has not changed after more than thirty years of integrated schooling This provocative book raises many issues that are of urgent concern today the continuing social consequences of segregated schools the role of public education in American society and the challenges of educating minority and poor children Presence Of Mind Pepi Leistyna, 2019-05-20 Taking up the ever shifting cultural and political landscape in the United States Presence of Mind addresses how power manifests itself within and across different social and educational terrain covering a number of contemporary topics and polemics that are central to teaching educational theory and practice Pepi Leistyna argues that it is imper
