Presence Of The Case Study Houses:

The Presence of the Case Study Houses, 2004-01-01 Since their origins over half a century ago the Case Study Houses have ranked among the classics of architectural modernism In a journey into the present reality of the Case Study Houses the two authors of this book have systematically visited and photographed the houses and their owners Viewing these projects through the lens not only of practicing architects teachers and critics but also of representatives of Old Europe confronting the achievements of the New World they describe and elaborate the stories of some of the most thrilling residential projects of the last century *The Greenwood Encyclopedia of Homes through World History* James M. Steele, 2009-03-30 The house throughout history in every place in the world has been built to provide shelter from the elements The dwellings that have resulted are as different as the people that have built them the social norms that prevailed at the time and place in which they were built and the natural environment that they adapted to Studying them now in a comprehensive way allows us to understand the social political economic and religious conditions that existed for their inhabitants They are a three dimensional record of culture Twenty four pages of color images along with black and white images through three volumes illustrate the homes of people throughout the world The volumes cover ancient times to the late Middle Ages the Renaissance to the Industrial Revolution and the Post Industrial Revolution to the Present

Prefabricated Systems Ulrich Knaack, Sharon Chung-Klatte, Reinhard Hasselbach, 2012-12-13 For a number of years modular construction the use of prefabricated elements in architecture has once again become a subject of lively discussion and debate Long written off as monotonous today s building components are actually highly differentiated and capable of supporting and enhancing the architect s creativity Numerous structures work with prefabricated components for single family homes the figure is ninety eight percent and modular systems are available that meet high aesthetic standards This book provides an overview of the various different systems and their possible uses particularly in the areas of housing office and industrial buildings It explains the processes and components of modular construction and the behavior of the various materials when this construction approach is used The authors offer strategies for planning and designing with prefabricated systems so that the architect can use them productively Numerous drawings explain the principles of modular construction while built examples forge a link between those principles and the practical activity of building **Key Contemporary**

Buildings Rob Gregory, 2008 Third in the Key series this book features 95 buildings of the early twenty first century Each of the buildings is illustrated with one or two full color photographs and accurate scale floor plans elevations and sections as appropriate **Architecture & Sustainable Development (vol.1)** Magali Bodart, Arnaud Evrard, 2011-07 This book of

Proceedings presents the latest thinking and research in the rapidly evolving world of architecture and sustainable development through 255 selected papers by authors coming from over 60 countries **Nothing Permanent** Todd Cronan, 2023-06-20 A critical look at the competing motivations behind one of modern architecture s most widely known and

misunderstood movements Although mid century modern has evolved into a highly popular and ubiquitous architectural style this term obscures the varied perspectives and approaches of its original practitioners In *Nothing Permanent* Todd Cronan displaces generalizations with a nuanced intellectual history of architectural innovation in California between 1920 and 1970 uncovering the conflicting intentions that would go on to reshape the future of American domestic life Focusing on four primary figures R M Schindler Richard Neutra and Charles and Ray Eames *Nothing Permanent* demonstrates how this prolific era of modern architecture in California rather than constituting a homogenous movement was propelled by disparate approaches and aims Exemplified by the twin pillars of Schindler and Neutra and their respective ideological factions these two groups of architects represent opposing poles of architectural intentionality embodying divergent views about the dynamic between interior and exterior the idea of permanence and the extent to which architects could exercise control over the inhabitants of their structures Looking past California modernism's surface level idealization in present day style guides home decor publications films and television shows *Nothing Permanent* details the intellectual aesthetic and practical debates that lie at the roots of this complex architectural moment Extracting this period from its diffusion into visual culture Cronan argues that mid century architecture in California raised questions about the meaning of architecture and design that remain urgent today

New Solutions for House Museums Donna Ann Harris, 2020-11-17 This substantially enlarged and expanded second edition of *New Solutions for House Museums* Ensuring the Long Term Preservation of America's Historic Houses provides advice for historic site stewards that have concerns about the financial sustainability of their historic house museum and its relevance to its local audience Seven new case studies have been added for the second edition The new case studies reinforce the book's central argument that not every historic house museum whether founded 100 years ago or last month can be sustained long term Three of the new case studies are from diverse historic sites showcasing how African American women and other minority focused historic sites are pioneering new ways to commemorate their histories and interpret fascinating stories to visitors with the end goal of creating financially sustainable historic sites that are relevant to their audience New interviews have been conducted with the ten existing case studies from the first edition to bring them up to date The new edition adds two new reuse options to the eight introduced in the first edition This chapter describes how to identify and implement a reuse decision costs and advisors needed and tips on decision making There is a new chapter long interview with Tom Mayes Chief Legal Officer and General Counsel for the National Trust for Historic Preservation on recent legal and ethical issues facing historic sites Another new chapter provides advice on the essential role of the historic site's Board of Directors as the decision maker for any reuse exploration The second edition of *New Solutions for House Museums* contains a new introduction to the second edition an updated conclusion bibliography and index

Steel Architecture Angus Macdonald, 2021-11-16 *Steel Architecture* offers a re interpretation of Modernist design through an examination of the history of metal framed buildings from the mills warehouses and spectacular glasshouses of

the nineteenth century to the multi form tall towers which currently characterize the skylines of the world's major cities. Based on extensive research, this insightful book reassesses the development of a signature landscape of Modernism through the lens of contemporary issues and critically appraises some of the most prominent works of architecture of the Modern age, including Mies van der Rohe's Barcelona Pavilion, Richard Neutra's Lovell Health House, and Frank Gehry's Guggenheim Museum in Bilbao. Topics covered include the early commercial steel buildings, steel and mid twentieth century consumerism, the Chicago skyscrapers of the 1970s, High Tech architecture, and finally the formalist architecture of the late Modern period. Extensively illustrated and accessibly written, *Steel Architecture* discusses the meanings behind the visual vocabulary of Modern steel architecture and places the style in the broad context of the social, political, and economic preoccupations of its age.

J. R. Davidson Lilian Pfaff, 2019-09-02 Julius Ralph Davidson is widely known as the architect of Thomas Mann's house. Born 1889 in Berlin, Davidson left Germany in 1923 and emigrated to the USA. In Los Angeles, he designed some 150 projects, among them three houses for the experimental Case Study House Program. This long overdue publication is a comprehensive documentation of Davidson's life and work, highlighting J. R.'s contribution to modernism in California in the 1930s and 1940s.

Archaeologies of Indigenous Presence Tsim D. Schneider, Lee M. Panich, 2023-03-07 Challenging narratives of Indigenous cultural loss and disappearance, this book highlights collaborative archaeological research and efforts to center the enduring histories of Native peoples in North America through case studies from several regions across the continent.

Keeping Cool in Southeast Asia M. Sahakian, 2014-04-14 Against the backdrop of the environmental impact of household electricity consumption and the history of cooling practices, Marlyne Sahakian considers how people keep cool from Metro Manila to other mega cities in Southeast Asia.
