**Frommer's Budget Travel Guide**, 1993      **Frommer's Comprehensive Travel Guide**, 1994      **Twentieth-century Eastern European Writers** Steven Serafin, 1999 Essays on writers from Albania Czech Republic Estonia Hungary Latvia Lithuania Poland Romania and Slovakia Discusses authors who played significant roles in the growth development and preservation of their respective literatures during an extraordinarily inventive and creative time period As many of these authors had limited exposure in the West these essays provide a comprehensive understanding and appreciation of Eastern Europe and its literary tradition      Contemporary Art and the Display of Ancient Egypt Alice Stevenson, 2025-01-16 Artistic interventions are now a popular means of delivering fresh perspectives on museum displays including in galleries devoted to ancient Egypt Installations are commonly said to put the past and present into dialogue with each other offering external critical voices on the work of decolonisation Contemporary Art and the Display of Ancient Egypt argues that the contemporary and the ancient do not necessarily inform each other Instead they are mediated by and mediations of the museum that produces them Rather than explore how contemporary artists have been inspired by Egypt this book examines how they have shaped the language and discourse around study of the Egyptian past by looking at the wider field of public display in which both have been historically situated Building on this critical history of practice the book draws from experiments in bringing contemporary artistic sculptures conceptual pieces multimedia films sounds smells and performances into galleries at the British Museum in London the Egyptian Museum in Turin and the State Museum of Egyptian Art in Munich These are used to explore what contemporary art does in these spaces the motivations for inviting artists in and the legacies of those interventions It ends with a reflection on how academics and curators can be involved in the creative process and how artists contribute to academic research Praise for Contemporary Art and the Display of Ancient Egypt This is an important and innovative study on the recent history of incorporating art installations in galleries of Egyptian antiquities Offering a thoughtful critical analysis of the ways in which contemporary art and ancient artefacts are juxtaposed in museum settings the book calls for a more nuanced and politically engaged practice of collaboration between artists and Egyptologists Stephanie Moser University of Southampton Archaeologist Alice Stevenson provides a thoughtful consideration of the goals and intent behind contemporary art interventions in exhibitions of ancient Egyptian art She challenges the curators scholars and museum professionals who design these exhibitions to move beyond the simplistic ancient art contemporary art juxtaposition and instead use contemporary art interventions to create spaces for both artistic and academic insight and inspiration I look forward to such dialogue Kara Cooney UCLA      Modern Hungarian Culture and the Classics Péter Hajdu, 2024-06-13 Péter Hajdu examines the cultivation of the Classics as an intellectual framework and crucial ingredient of the western aspect of Hungarian national identity This book approaches the relationship of modern Hungarian culture to classical heritage from the various viewpoints of identity politics education translation history scholarship and its impact on literature When the Hungarian nation building project developed ideas of national identity it

necessarily incorporated the historical narrative according to which the Hungarians arrived at their current homeland in the Middle Ages and only later did it adopt European culture. The duplicity of a mostly imagined Asian pagan barbaric or nomadic culture and a Western Christian civilized identity deeply rooted in European culture has played and continues to play a role in the Hungarian discourse. Hajdu also studies the gradual disappearance of classics from the Hungarian school education since the 19th century which has been accompanied by fervid political debates. However over this period translations of classical texts paradoxically became more frequent and popular with the decline of a classical education even though fewer readers had access to the original texts. Despite this change the translation strategies tended to remain school bound. The knowledge of classical literature still leaves traces on Hungarian literature which Hajdu explores using examples from nineteenth century novels and contemporary poetry. This book sheds light on a topic of classical reception that has remained largely unexplored in this part of Europe but one which has an incredibly rich history, culture and literary tradition.

**19th-Century Hungarian Political Thought and Culture** Ferenc Hörcher, Kálmán Tóth, 2023-06-15. This volume presents the ideas of the main actors of the political scene in the Hungarian Kingdom during the long 19th century (1790-1920). Organised around key political thinkers, the book considers the most significant paradigms of thought associated with these figures and the critical political events of the day. Beginning with an introductory overview of 19th century Hungary in a European context which includes the main features of Hungarian political thought, *19th Century Hungarian Political Thought and Culture* explores the fundamental characteristics of the country's political system and the geopolitical background to political discourse in the region at the time. The contributors reflect on the stories of some of the most influential voices as well as their networks, impacts and legacies. Through this the book is able to offer novel insights into how Western political culture was perceived and adapted in a country long considered by many to belong to the European periphery.
