**Technology, Management and the Evangelical Church** John Weaver, 2020-04-16 This book explores the technological innovations and management practices of evangelical Christian religions. Beginning from the late 19th century, the author examines the evangelical church's increasing appropriation of business practices from the secular world as solutions to organizational problems. He notes especially the importance of the church growth movement and the formation of church networks. Particular attention is paid to the history of evangelical uses of computer technology, including connections the Christian Right has made within Silicon Valley. Most significantly, this book offers one of the first academic explorations of the use of cybernetics, systems theory, and complexity theory by evangelical leaders and management theorists.

**Becoming a Missionary Church** Michael W. Goheen, Timothy M. Sheridan, 2022-07-19 This book offers a historical assessment and balanced critique of contemporary church movements, especially in light of missional ecclesiology. An expert on Lesslie Newbigin and an expert on contemporary church models show how Newbigin's ideas have been developed and contextualized in three popular contemporary church movements: missional, emergent, and center church. In addition, the authors explain that some of Newbigin's insights have been neglected and need to be retrieved for the present day. This book calls for the recovery of the missionary nature of the church and commends church practices applicable to any congregation.
