Present Value A Novel:

Wittgenstein's Novels Martin Klebes, 2006 In this book Martin Klebes investigates the impact of Ludwig Wittgenstein's philosophical work on four contemporary German and French novelists. Literary references both to Wittgenstein as a person as well as to his work are much more pervasive than to other equally well known 20th century philosophers and this study seeks to explain why and to what end. Individual chapters are devoted to an analysis of the role of writing in Wittgenstein's writings as well as to the literary work of Thomas Bernhard, W G Sebald, Jacques Roubaud and Ernst Wilhelm Handler. Klebes' readings are situated in an interdisciplinary space between philosophical analysis and literary criticism and as such also incorporate reflections on conceptual questions in aesthetics, architectural history, philosophy of science and photography.

Novel Craft Talia Schaffer, 2011-01-15 *Novel Craft* explores an intriguing and understudied aspect of cultural life in Victorian England: domestic handicrafts, the decorative pursuit that predated the Arts and Crafts movement. Talia Schaffer argues that the handicraft movement served as a way to critique the modern mass produced commodity and the rapidly emerging industrial capitalism of the nineteenth century. Her argument is illustrated with the four pivotal novels that form her study's core: Gaskell's *Cranford*, Yonge's *The Daisy Chain*, Dickens's *Our Mutual Friend* and Oliphant's *Phoebe Junior*. Each features various handicrafts that subtly aim to subvert the socioeconomic changes being wrought by industrialization. Schaffer goes beyond straightforward textual analysis by shaping each chapter around the individual craft at the center of each novel: paper for *Cranford*, flowers and related arts in *The Daisy Chain*, rubbish and salvage in *Our Mutual Friend* and the contrasting ethos of arts and crafts connoisseurship in *Phoebe Junior*. The domestic handicraft also allows for self-referential analysis of the text itself in scenes of craft production and destruction; the authors articulate the work they hope their own fictions perform. The handicraft also becomes a locus for critiquing contemporary aesthetic trends, with the novels putting forward an alternative vision of making value and understanding art. A work that

combines cultural history and literary studies Novel Craft highlights how attention to the handicraft movement s radically alternative views of materiality consumption production representation and subjectivity provides a fresh perspective on the major changes that shaped the Victorian novel as a whole Novel Six Sigma DMAIC Approaches to Project Risk Assessment and Management Bubevski, Vojo,2024-05-01 In today s fast paced business environment project managers face the daunting challenge of managing risk effectively amid uncertainty Traditional project management methodologies often lag leading to missed deadlines cost overruns and subpar outcomes A comprehensive risk management framework is necessary for organizations to be protected from fate s whims hindering their ability to achieve strategic objectives The DMAIC Stochastic Method is a groundbreaking approach that combines Six Sigma principles with stochastic modeling to revolutionize project risk management Novel Six Sigma DMAIC Approaches to Project Risk Assessment and Management is a guidebook for implementing the DMAIC Stochastic Method in project management This innovative methodology provides a systematic way of identifying assessing and mitigating risks ensuring that projects stay on track and deliver the desired results By integrating deterministic and stochastic models the DMAIC Stochastic Method offers a more holistic view of risk enabling managers to make informed decisions and proactively address potential issues The Life of a Knight (Historical Novel) G. Fiction, Famine, and the Rise of Economics in Victorian Britain and Ireland Gordon

Bigelow,2003-11-20 We think of economic theory as a scientific speciality accessible only to experts but Victorian writers commented on economic subjects with great interest Gordon Bigelow focuses on novelists Charles Dickens and Elizabeth Gaskell and compares their work with commentaries on the Irish famine 1845 1852 Bigelow argues that at this moment of crisis the rise of economics depended substantially on concepts developed in literature These works all criticized the systematized approach to economic life that the prevailing political economy proposed Gradually the romantic views of human subjectivity described in the novels provided the foundation for a new theory of capitalism based on the desires of the individual consumer Bigelow s argument stands out by showing how the discussion of capitalism in these works had significant influence not just on public opinion but on the rise of economic theory itself **The Century's Midnight** Clive
