Twardowski,2012-12-06 Twardowski s little book of which I here offer a translation is one of the most remarkable works in the history of modern philosophy It is concise clear and in Findlay s words amazingly rich in ideas l It is therefore a paradigm of what some contemporary philosophers approvingly call analytic philosophy But Twardowski s book is also of considerable historical significance His views reflect Brentano s earlier position and thus shed some light on this stage of Brentano s philosophy Furthermore they form a link between this stage on the one hand and those two grandiose attempts to propagate rationalism in an age of science on the other hand which are known as Meinong s theory of entities and Husserl s phenomenology Twardowski s views thus point to the future and introduce many of the problems which through the influence of Meinong Husserl Russell and Moore have become standard fare in contemporary philosophy In this introduction I shall call attention to the close connection between some of Twardowski s main ideas and the corresponding thoughts of these four philosophers 1 IDEAS AND THEIR INTENTIONS Twardowski s main contention is clear He claims that we must distinguish between the act the content and the object of a presentation The crucial German term is *Vorstellung* This term has a corresponding verb and allows for such expressions as *das Vorgestellte* **.NET 4 Wrox eBook Bundle** Bill
