Flanagan, 2012-01-24 This book analyzes the economic challenges facing symphony orchestras and contrasts the experience of orchestras in the United States where there is little direct government support and abroad where governments typically provide large direct subsidies Robert J Flanagan explains the tension between artistic excellence and financial jeopardy that confronts most symphony orchestras He analyzes three complementary strategies for addressing orchestras economic challenges raising performance revenues slowing the growth of performance expenses and increasing nonperformance income and demonstrates that none of the three strategies alone is likely to provide economic security for orchestras **Street Performance and Alternative Organisation** Marta Połec, 2025-08-15 The book presents a description of the phenomenon of organising street performances both informal and within formalised structures as well as its interpretation from the point of view of humanistic management The book is a result of ethnographic fieldwork conducted in Polish and European cities from 2014 to 2024 The central focus is the aspects of organisational aesthetics of the activities of street performers and street festival organisers The dynamics of street performances are structured and emerge as a type of alternative organisation The book aims at throwing light on these processes from the point of view of humanistic management which is a relatively new topic in organisational studies and overlooked in other academic fields The book also identifies and outlines some research implications for the combined area of

humanistic management and arts management It offers a model of the management of street performance embedded in a theoretical context of 1 humanistic management 2 arts management and 3 organisation informed by values such as community and social entrepreneurship Ultimately the organisation of art in the urban sphere can gain from lessons from the alternative organisational practices depicted in this book which in turn can inform broader humanistically oriented managerial visions

Transcultural Jazz Noam Lemish,2023-12-22 Transcultural Jazz Israeli Musicians and Multi Local Music Making studies jazz performance and

composition through the examination of the transcultural practices of Israeli jazz musicians and their impact globally. An impressive number of Israeli jazz performers have received widespread exposure and worldwide acclaim, creating music that melds aspects of American jazz with an array of Israeli Jewish and Middle Eastern influences and other non-Western musical traditions. While each musician is developing their own approach to musical transculturation, common threads connect them all. Unraveling and analyzing these entangled sounds and related discourses lies at the center of this study. This book provides broad insight into the nature, role, and politics of transcultural music making in contemporary jazz practice. Focusing on a particular group of Israeli musicians to enhance knowledge of modern Israeli society, culture, discourses, and practices, the research and analyses presented in this book are based on extensive fieldwork in multiple sites in the United States and Israel and interviews with musicians, educators, journalists, producers, and scholars. *Transcultural Jazz* is an engaging read for students and scholars from diverse fields such as jazz studies, ethnomusicology, Jewish studies, Israel studies, and transnational studies.
