## **Preserving Privilege California Politics Propositions And People Of Color:**

Preserving Privilege Jewelle Taylor Gibbs, Teiahsha Bankhead, 2001-03-30 Gibbs and Bankhead examine the history and current situation in California as it struggles to deal with the ethnic and racial change that will make it the first American state to have a non white majority in the first decade of the 21st century From shock and denial to bargaining to change the outcome they analyze the impact in California and what this may mean for the rest of the country They begin by tracing the major historical social economic and political events of the past 50 years that laid the foundation for the impetus of such ethnically and racially divisive initiatives as the efforts to strengthen anti crime measures remove illegal immigrants limit affirmative action measures and eliminate bilingual education Each of these ballot propositions is examined detailing the pro and con arguments of their advocates and opponents their major financial contributors campaign strategies ethnic voting patterns implications of implementation and their impact on people of color Gibbs and Bankhead then look at parallels from a national and international perspective They conclude with a discussion of the values that should guide public policy debates in a multiethnic multicultural society and they propose specific policy alternatives to address the issues of crime prevention and control illegal immigration affirmative action and bilingual education A thoughtful analysis that will be of value to

concerned citizens as well as policy makers scholars and students of contemporary American issues **Racial Propositions** Daniel Martinez HoSang, 2010-10-28 This book looks beyond the headlines to uncover the controversial history of California's ballot measures over the past fifty years As the rest of the U S watched California voters banned public services for undocumented immigrants repealed public affirmative action programs and outlawed bilingual education among other measures Why did a state with a liberal political culture an increasingly diverse populace and a well organized civil rights leadership roll back civil rights and anti discrimination gains Daniel Martinez HoSang finds that contrary to popular perception this phenomenon does not represent a new wave of color blind policies nor is a triumph of racial conservatism Instead in a book that goes beyond the conservative liberal divide HoSang uncovers surprising connections between the right and left that reveal how racial inequality has endured Arguing that each of these measures was a proposition about the meaning of race and racism his deft convincing analysis ultimately recasts our understanding of the production of racial identity inequality and power in the postwar era

The Handbook of Community Practice Marie Weil, Michael Reisch, 2005 Encompassing community development organizing planning and social change as well as globalisation this book is grounded in participatory and empowerment practice The 36 chapters assess practice theory and research methods The Victims' Rights Movement Michael Vitiello, 2023-07-18 Outlines the successes and failures of the movement to support survivors of violence The Victims Rights Movement VRM has been one of the most meaningful criminal justice reforms in the United States Every state and the federal government has adopted major VRM laws to enact protections for victims and increase criminal sanctions and the movement has received support from politicians of all backgrounds Despite recognition of its

excesses the movement remains an important force in the criminal justice arena The Victims Rights Movement offers a measured overview of the successes and the failures of the VRM Among its widely acknowledged accomplishments are expanded resources to help victims deal with trauma greater sensitivity to sexual assault victims in many jurisdictions and increased chances of victims receiving restitution from perpetrators of harm Conversely the movement has led to excessive punishment for many defendants and destruction of defendants families It has exacerbated racial inequality in the imposition of the death penalty and criminal sentencing generally and falsely promises closure to crime victims and their families Michael Vitiello considers whether the VRM serves those injured by crime well by focusing on victimhood He urges a reframing of the movement to fight for universal health care and limits on access to weapons two policies that would reduce the number of victims and help those who do become victims of crime

**Rich Thanks to Racism** Jim Freeman, 2021-04-15

More than fifty years after the civil rights movement there are still glaring racial inequities all across the United States In Rich Thanks to Racism Jim Freeman one of the country s leading civil rights lawyers explains why as he reveals the hidden strategy behind systemic racism He details how the driving force behind the public policies that continue to devastate communities of color across the United States is a small group of ultra wealthy individuals who profit mightily from racial inequality In this groundbreaking examination of strategic racism Freeman carefully dissects the cruel and deeply harmful policies within the education criminal justice and immigration systems to discover their origins and why they persist He uncovers billions of dollars in aligned investments by Bill Gates Charles Koch Mark Zuckerberg and a handful of other billionaires that are dismantling public school systems across the United States He exposes how the greed of prominent US corporations and Wall Street banks was instrumental in creating the world s largest prison population and our most extreme anti immigrant policies Freeman also demonstrates how these racism profiteers prevent flagrant injustices from being addressed by pitting white communities against communities of color obscuring the fact that the struggles faced by white people are deeply connected with those faced by people of color Rich Thanks to Racism is an invaluable road map for all those who recognize that the key to unlocking the United States full potential is for more people of all races and ethnicities to prioritize racial justice

**Neighborhood Poverty and Segregation in the (Re-)Production of Disadvantage** Dolores Trevizo, Mary Lopez, 2018-05-31

Focusing on shopkeepers in Latino a neighborhoods in Los Angeles Dolores Trevizo and Mary Lopez reveal how neighborhood poverty affects the business performance of Mexican immigrant entrepreneurs Their survey of shopkeepers in twenty immigrant neighborhoods demonstrates that even slightly less impoverished multiethnic communities offer better business opportunities than do the highly impoverished racially segregated Mexican neighborhoods of Los Angeles Their findings reveal previously overlooked aspects of microclass as well as legal capital advantages The authors argue that even poor Mexican immigrants whose class backgrounds in Mexico imparted an entrepreneurial disposition can achieve a modicum of business success in the right U S neighborhood context and the more quickly they build

legal capital the better their outcomes While the authors show that the local place characteristics of neighborhoods both reflect and reproduce class and racial inequalities they also demonstrate that the diversity of experience among Mexican immigrants living within the spatial boundaries of these communities can contribute to economic mobility

**State of Resistance** Manuel Pastor, 2018-04-03 Concise clear and convincing a vision for the country as a whole James Fallows The New York Times Book Review A leading sociologist's brilliant and revelatory argument that the future of politics work immigration and more may be found in California Once upon a time any mention of California triggered unpleasant reminders of Ronald Reagan and right wing tax revolts ballot propositions targeting undocumented immigrants and racist policing that sparked two of the nation's most devastating riots In fact California confronted many of the challenges the rest of the country faces now decades before the rest of us Today California is leading the way on addressing climate change low wage work immigrant integration overincarceration and more As white residents became a minority and job loss drove economic uncertainty California had its own Trump moment twenty five years ago but has become increasingly blue over each of the last seven presidential elections How did the Golden State manage to emerge from its unsavory past to become a bellwether for the rest of the country Thirty years after Mike Davis's hellish depiction of California in City of Quartz the award winning sociologist Manuel Pastor guides us through a new and improved California complete with lessons that the nation should heed Inspiring and expertly researched State of Resistance makes the case for honestly engaging racial anxiety in order to address our true economic and generational challenges a renewed commitment to public investments the cultivation of social movements and community organizing and more

**Arab America** Nadine Naber, 2012-08-20 Arab Americans are one of the most misunderstood segments of the U S population especially after the events of 9 11 In Arab America Nadine Naber tells the stories of second generation Arab American young adults living in the San Francisco Bay Area most of whom are political activists engaged in two culturalist movements that draw on the conditions of diaspora a Muslim global justice and a Leftist Arab movement Writing from a transnational feminist perspective Naber reveals the complex and at times contradictory cultural and political processes through which Arabness is forged in the contemporary United States and explores the apparently intra communal cultural concepts of religion family gender and sexuality as the battleground on which Arab American young adults and the looming world of America all wrangle As this struggle continues these young adults reject Orientalist thought producing counter narratives that open up new possibilities for transcending the limitations of Orientalist imperialist and conventional nationalist articulations of self possibilities that ground concepts of religion family gender and sexuality in some of the most urgent issues of our times immigration politics racial justice struggles and U S militarism and war For more check out the author run Facebook page for Arab America

Social Policy is the first book of its kind to combine the voices of African American social work professionals on social policy in one volume. ### **Die Legitimität direkter Demokratie**

Wolfgang Merkel, Claudia Ritz, 2017-01-09. Das sinkende Vertrauen der Bürger in ihre politischen Repräsentanten und die Entfremdung von den etablierten Parteien haben in den letzten Jahren zu einer Intensivierung der wissenschaftlichen Debatte um mehr direkte Demokratie geführt. Dieser Band fasst zentrale Argumente dieses Diskurses zusammen und untersucht anhand von theoretischen Reflexionen und empirischen Fallstudien die Legitimität direkter Demokratie. Es wird kritisch hinterfragt, ob Volksabstimmungen dazu in der Lage sind, zentrale Herausforderungen zeitgenössischer Demokratie erfolgreich zu bewältigen.

**The New Nativism** Robin Dale Jacobson, 2008 A very well crafted important book I recommend it highly Howard Winant author of The New Politics of Race In 1994 California voters flocked to the polls in record numbers because of a ballot measure Proposition 187 that was designed to deny social services to undocumented immigrants A majority of voters favored the proposition and accusations of racism flew in all directions A U S District Court ultimately overturned it but to this day Proposition 187 represents a watershed moment in the immigration debate Examining the dynamics of that political battle The New Nativism questions racism as the motivating factor for political action both at the time and in the high stakes hotly contested immigration debates of today Robin Jacobson's work based on in depth interviews with supporters of Proposition 187 unpacks the role race played in their support of the measure Jacobson finds that rather than being motivated primarily by racism proponents connected racial identity ideas of fairness and traditional American values in surprising often contradictory ways As individual activists on both sides of the debate struggled to make sense of their political and ideological commitments in light of immigration issues the meaning and import of race and citizenship were conflated in their minds Investigating a key moment in grassroots political activism The New Nativism sifts through the claims of racism that dominate current immigration debates and humanizes the discussion in important and potentially controversial ways Moving beyond inflammatory headlines and polarizing rhetoric Jacobson reveals that it is not so much prejudice but the very act of defining race that lies at the center of modern American politics Robin Dale Jacobson is assistant professor of political science at Bucknell University
