History Museums Scott Magelssen, 2007-02-01 Living history museums are cultural institutions that merge historical exhibits with live costumed performance While unique and vitally important they often compromise historical accuracy and authenticity for the sake of tourism and entertainment value Many also pursue methods of performance and historiography that are becoming increasingly outdated Living History Museums Undoing History Through Performance examines the performance practices used by institutions such as Plimoth Plantation and Colonial Williamsburg and offers a new genealogy of living history museum performance in the U S and Europe Currently existing scholarship on living history museums addresses the subject from a museum studies or anthropology perspective Author Scott Magelssen however approaches the material from a background in theatre history and theory analyzing living history museums using postmodern methodology Considering performance as a method for the study of history and exploring emergent non traditional theatrical practices the book offers suggestions for performance in an increasingly postmodern landscape Concluding with an international listing of living history institutions and a complete list of sources Living History Museums is a valuable resource for students and teachers of theatre and performance studies cultural studies folklore popular culture American studies and museum studies

The Paradox of Preservation Laura Alice Watt, 2017 Point Reyes National Seashore has a long history as a working landscape with dairy and beef ranching fishing and oyster farming yet since 1962 it has also been managed as a National Seashore The Paradox of Preservation chronicles how national ideals about what a park ought to be have developed over time and what happens when these ideals are implemented by the National Park Service NPS in its efforts to preserve places that are also lived in landscapes Using the conflict surrounding the closure of the Drakes Bay Oyster Company Laura Alice Watt examines how NPS management policies and processes for land use and protection do not always reflect the needs and

values of local residents. Instead the resulting landscapes produced by the NPS represent a series of compromises between use and protection and between the area's historic pastoral character and a newer vision of wilderness. A fascinating and deeply researched book *The Paradox of Preservation* will appeal to those studying environmental history, conservation, public lands, and cultural landscape management and to those looking to learn more about the history of this dynamic California coastal region.

Historic Preservation in the USA Karolin Frank, Patricia Petersen, 2002-02-14

Since the 1960s public attention has been drawn increasingly towards the thematic link between historic preservation and urban planning. Nowadays the organized historic preservation movement in the USA is more than a mere yearning for history; it represents an active and integral part of urban planning in US cities. In order to approach these planning, economic, and social issues in the field of historic preservation, this book analyzes a variety of interdisciplinary methods focusing on four selected historic districts within the central business districts of Philadelphia and Boston in the north and Charleston and Savannah in the south.
