Preserving Charlestons Past Shaping Its Future:

New Deal, New Landscape Tara Mitchell Mielnik, 2012-11-19 Tara Mitchell Mielnik fills a significant gap in the history of the New Deal South by examining the lives of the men of South Carolina's Civilian Conservation Corps CCC who from 1933 to 1942 built sixteen state parks all of which still exist today Enhanced with revealing interviews with former state CCC members Mielnik's illustrated account provides a unique exploration into the Great Depression in the Palmetto State and the role that South Carolina's state parks continue to play as architectural legacies of a monumental New Deal program In 1933 thousands of unemployed young men and World War I veterans were given the opportunity to work when Emergency Conservation Work ECW one of Franklin Delano Roosevelt's New Deal programs came to South Carolina Renamed the Civilian Conservation Corps in 1937 the program was responsible for planting millions of trees in reforestation projects augmenting firefighting activities stringing much needed telephone lines for fire prevention throughout the state and terracing farmland and other soil conservation projects The most visible legacies of the CCC in South Carolina are many of the state's national forests recreational areas and parks Prior to the

work of the CCC South Carolina had no state parks but from 1933 to 1942 the CCC built sixteen Mielnik s briskly paced and informative study gives voice to the young men who labored in the South Carolina CCC and honors the legacy of the parks they built and the conservation and public recreation values these sites fostered for modern South Carolina South Carolina and the New Deal J. I. Hayes,2001 JACK IRBY HAYES JR revisits the South Carolina of the 1930s to determine the impact of federal programs on the state s economy politics culture and citizenry He traces the waxing and waning of support for programs such as Works Progress Administration WPA Civilian Conservation Corps CCC and the Federal Emergency Relief Administration FERA and concludes that the modernization of South Carolina would have been delayed without their intervention Suggesting that the New Deal hastened the end of one party political domination Hayes proposes that it also initiated a new era of modernized agriculture and banking practices rural electrical service labor restrictions relief programs and cultural resurgence Hayes finds that Franklin Delano Roosevelt s initiatives enjoyed widespread support among South Carolinians He documents the welcoming of agricultural and erosion controls welfare relief child labor laws minimum wage requirements public construction state parks and massive hydroelectric projects He also credits the New Deal with sparking an intellectual reawakening and a restoration of faith in capitalism democracy and progress But Hayes demonstrates that

For the Public Record Barbara Stuhler,2000-06-30 Through a judicious selection of documents from the papers of the League of Women Voters of the United States in the Library of Congress Stuhler reveals the rich history of an organization designed to serve the public interest In the aftermath of the 72 year long effort by American women to win the vote the League was formed to prepare these new voters for their responsibilities as full participating citizens The organization s first president Maud Wood Park and her associates established Citizenship Schools throughout the nation to educate women and they were so successful that one newspaper complained Why not for men too Succeeding presidents built the League s reputation as an organization inventive in its dual roles as a voter educator and civic activist While League members were expected to be nonpartisan they were also encouraged to be active in their parties a sometimes confusing posture Nevertheless the League as an advocate in support of specified public policies succeeded in maintaining an informed nonpartisanship that came to be respected by opinion and political leaders and the public learned that it could depend upon the League for unbiased information in election contests In making it possible for women to show their strength and do what they have done for some 80 years the League has made incalculable contributions to the public good Students scholars and the informed public interested in American political and women s history will find this documentary collection invaluable

Spruill, 2010-01-25 The biographical essays in this volume provide new insights into the various ways that South Carolina women asserted themselves in their state and illuminate the tension between tradition and change that defined the South from the Civil War through the Progressive Era As old rules including gender conventions that severely constrained southern women were dramatically bent if not broken these women carved out new roles for themselves and others The volume begins with a profile of Laura Towne and Ellen Murray who founded the Penn School on St Helena Island for former slaves Subsequent essays look at such women as the five Rollin sisters members of a prominent black family who became passionate advocates for women's rights during Reconstruction writer Josephine Pinckney who helped preserve African American spirituals and explored conflicts between the New and Old South in her essays and novels and Dr Matilda Evans the first African American woman licensed to practice medicine in the state Intractable racial attitudes often caused women to follow separate but parallel paths as with Louisa B Poppenheim and Marion B Wilkinson Poppenheim who was white and Wilkinson who was black were both driving forces in the women's club movement Both saw clubs as a way not only to help women and children but also to showcase these positive changes to the wider nation Yet the two women worked separately as did the white and black state federations of women's clubs Often mixing deference with daring these women helped shape their society through such avenues as education religion politics community organizing history the arts science and medicine Women in the mid and late twentieth century would build on their accomplishments **Charleston** Martha A.

including those of Thomas Heyward shipping merchant Nathaniel Russell and William Aiken *101 Women Who Shaped South Carolina* Valinda W. Littlefield, 2020-12-30 Prior to the twenty first century most historical writing about women in South Carolina focused on elite White women even though working class women of diverse backgrounds were actively engaged in the social economic and political battles of the state Although often unrecognized publicly they influenced cultural and political landscapes both within and outside of the state s borders through their careers writing art music and activism Despite significant cultural social and political barriers these brave and determined women affected sweeping change that advanced the position of women as well as their communities The entries in *101 Women Who Shaped South Carolina* which include many from the landmark text *The South Carolina Encyclopedia* offer a concise and approachable history of the state while recognizing the sacrifice persistence and sheer grit of its heroines and history makers A foreword is provided by Walter Edgar Neuffer Professor of Southern Studies Emeritus and Distinguished Professor Emeritus of History at the University of South Carolina *Jumpin' Jim Crow* Jane Dailey, Glenda Elizabeth Gilmore, Bryant Simon, 2020-07-21 White supremacy shaped all aspects of post Civil War southern life yet its power was never complete or total The form of segregation and subjection nicknamed Jim Crow constantly had to remake itself over time even as white southern politicians struggled to extend its grip Here some of the most innovative scholars of southern history question Jim Crow s sway evolution and methods over the course of a century These essays bring to life the southern men and women some heroic and decent others mean and sinister most a mixture of both who supported and challenged Jim Crow showing that white supremacy always had to prove its power Jim Crow was always in motion always adjusting to meet resistance and defiance by both African Americans and whites Sometimes white supremacists responded with increased ferocity sometimes with more subtle political and legal ploys *Jumpin' Jim Crow* presents a clear picture of this complex negotiation For example even as some black and white women launched the strongest attacks on the system other white women nurtured myths glorifying white supremacy Even as elite whites blamed racial violence on poor whites they used Jim Crow to dominate poor whites as well as blacks Most important the book portrays change over time suggesting that Strom Thurmond is not a simple reincarnation of Ben Tillman and that Rosa Parks was not the first black woman to say no to Jim Crow From a study of the segregation of household consumption to a fresh look at critical elections from an examination of an unlikely antilynching campaign to an analysis of how miscegenation laws tried to sexualize black political power these essays about specific southern times and places exemplify the latest trends in historical research Its rich accessible content makes *Jumpin' Jim Crow* an ideal undergraduate reader on American history while its methodological innovations will be emulated by scholars of political history generally In addition to the editors the contributors are Edward L Ayers Elsa Barkley Brown W Fitzhugh Brundage Laura F Edwards Kari Frederickson David F Godshalk Grace Elizabeth Hale Jacquelyn Dowd Hall Stephen Kantrowitz Nancy MacLean Nell Irwin Painter and Timothy B Tyson **Challenging History** Leah Worthington, Rachel

Clare Donaldson, John W. White, 2021-07-22 A collection of essays that examine how the history of slavery and race in the United States has been interpreted and inserted at public historic sites For decades racism and social inequity have stayed at the center of the national conversation in the United States sustaining the debate around public historic places and monuments and what they represent These conversations are a reminder of the crucial role that public history professionals play in engaging public audiences on subjects of race and slavery This difficult history has often remained un or underexplored in our public discourse hidden from view by the tourism industry or even by public history professionals themselves as they created historic sites museums and public squares based on white centric interpretations of history and heritage Challenging History through a collection of essays by a diverse group of scholars and practitioners examines how difficult histories specifically those of slavery and race in the United States are being interpreted and inserted at public history sites and in public history work Several essays explore the successes and challenges of recent projects while others discuss gaps that public historians can fill at sites where Black history took place but is absent in the interpretation Through case studies the contributors reveal the entrenched false narratives that public history workers are countering in established public history spaces and the work they are conducting to reorient our collective understanding of the past History practitioners help the public better understand the world Their choices help to shape ideas about heritage and historical remembrances and can reform even transform worldviews through more inclusive and ethically narrated histories Challenging History invites public historians to consider the ethical implications of the narratives they choose to share and makes the case that an inclusive honest and complete portrayal of the past has the potential to reshape collective memory and ideas about the meaning of American history and citizenship

The Southern Past William Fitzhugh Brundage, 2009-07 Since the Civil War whites and blacks have struggled over the meanings and uses of the Southern past Indeed today s controversies over flying the Confederate flag renaming schools and streets and commemorating the Civil War and the civil rights movement are only the latest examples of this ongoing divisive contest over issues of regional identity and heritage The Southern Past argues that these battles are ultimately about who has the power to determine what we remember of the past and whether that remembrance will honor all Southerners or only select groups For more than a century after the Civil War elite white Southerners systematically refined a version of the past that sanctioned their racial privilege and power In the process they filled public spaces with museums and monuments that made their version of the past sacrosanct Yet even as segregation and racial discrimination worsened blacks contested the white version of Southern history and demanded inclusion Streets became sites for elaborate commemorations of emancipation and schools became centers for the study of black history This counter memory surged forth and became a potent inspiration for the civil rights movement and the black struggle to share a common Southern past rather than a divided one W Fitzhugh Brundage s searing exploration of how those who have the political power to represent the past simultaneously shape the present and determine the future is a

valuable lesson as we confront our national past to meet the challenge of current realities *Where These Memories Grow* W. Fitzhugh Brundage, 2015-12-01 Southerners are known for their strong sense of history But the kinds of memories southerners have valued and the ways in which they have preserved transmitted and revitalized those memories have been as varied as the region's inhabitants themselves This collection presents fresh and innovative perspectives on how southerners across two centuries and from Texas to North Carolina have interpreted their past Thirteen contributors explore the workings of historical memory among groups as diverse as white artisans in early nineteenth century Georgia African American authors in the late nineteenth century and Louisiana Cajuns in the twentieth century In the process they offer critical insights for understanding the many communities that make up the American South As ongoing controversies over the Confederate flag the Alamo and depictions of slavery at historic sites demonstrate southern history retains the power to stir debate By placing these and other conflicts over the recalled past into historical context this collection will deepen our understanding of the continuing significance of history and memory for southern regional identity Contributors Bruce E Baker Catherine W Bishir David W Blight Holly Beachley Brear W Fitzhugh Brundage Kathleen Clark Michele Gillespie John Howard Gregg D Kimball Laurie F Maffly Kipp C Brenden Martin Anne Sarah Rubin Stephanie E Yuhl *A Bluestocking in Charleston* Louise Anderson Allen, 2001 In early 20th century Charleston Laura Bragg was called a woman ahead of her time a fresh drink of water in a cultural desert but never a proper Southern lady This biography tells the story of the woman who changed the cultural face of Charleston and the nation's approach to museum education **A Golden Haze of Memory** Stephanie E. Yuhl, 2006-03-08 Charleston South Carolina today enjoys a reputation as a destination city for cultural and heritage tourism In *A Golden Haze of Memory* Stephanie E Yuhl looks back to the crucial period between 1920 and 1940 when local leaders developed Charleston's trademark image as America's Most Historic City Eager to assert the national value of their regional cultural traditions and to situate Charleston as a bulwark against the chaos of modern America these descendants of old line families downplayed Confederate associations and emphasized the city's colonial and early national prominence They created a vibrant network of individual artists literary figures and organizations such as the all white Society for the Preservation of Negro Spirituals that nurtured architectural preservation art literature and tourism while appropriating African American folk culture In the process they translated their selective and idiosyncratic personal familial and class memories into a collective identity for the city The Charleston this group built Yuhl argues presented a sanitized yet highly marketable version of the American past Their efforts invited attention and praise from outsiders while protecting social hierarchies and preserving the political and economic power of whites Through the example of this colorful southern city Yuhl posits a larger critique about the use of heritage and demonstrates how something as intangible as the recalled past can be transformed into real political economic and social power **Hidden History of Old Charleston** Margaret Middleton Rivers Eastman, 2010-02-15 From the Lowcountry's first recorded duel to old fashioned summers at the hottest
