President Marcos And The Philippine Political Culture:

President Marcos and the Philippine Political Culture Lewis E. Gleeck, 1987 **President Marcos and the Philippine Political Culture** Lewis E. Gleeck, 1987 *Philippine Political Culture*, 2002 Assessing America's Options in the Philippines, 1986 A Changeless Land David G. Timberman, 2016-09-16 First Published in 1992 This book examines the elements of continuity and change in Philippine politics and government over the last quarter century The period covered from the early 1960s through 1988 encompasses three distinct phases the decline of traditional elite democracy the imposition of martial law and constitutional authoritarianism under Ferdinand Marcos and most recently the restoration of democracy under Corazon Aquino *State and Society in the Philippines* Patricio N. Abinales, Donna J. Amoroso, 2017-07-06 This clear and nuanced introduction explores the Philippines ongoing and deeply charged dilemma of state society relations through a historical treatment of state formation and the corresponding conflicts and collaboration between government leaders and social forces Patricio N Abinales and Donna J Amoroso examine the long history of institutional weakness in the Philippines and the varied strategies the state has employed to overcome its structural fragility and strengthen its bond with society The authors argue that this process reflects the country's recurring dilemma on the one hand is the state's persistent inability to provide essential services guarantee peace and order and foster economic development on the other is the Filipinos equally enduring suspicions of a strong state To many citizens this powerfully evokes the repression of the 1970s and the 1980s that polarized society and cost thousands of lives in repression and resistance and billions of dollars in corruption setting the nation back years in economic development and profoundly undermining trust in government The book's historical sweep starts with the politics of the pre colonial era and continues through the first year of Rodrigo Duterte's controversial presidency **Sultanistic Regimes** Houchang E. Chehabi, Juan J. Linz, 1998-06-05 Authoritarian governments are often based on raw power sustained by fear of punishment and hope of reward This text identifies common characteristics of such regimes comparing them to totalitarian and authoritarian forms of government and tracing common patterns for their genesis and demise *The Drama of Dictatorship* Joseph Scalice, 2023-07-15 The Drama of Dictatorship uncovers the role played by rival Communist parties in the conflict that culminated in Ferdinand Marcos's declaration of martial law in 1972 Using the voluminous radical literature of the period Joseph Scalice reveals how two parties the PKP and the CPP torn apart by the Sino Soviet dispute subordinated the explosive mass struggles of the time behind rival elite conspirators The PKP backed Marcos and the CPP his bourgeois opponents The absence of an independent mass movement in defense of democracy made dictatorship possible The Drama of Dictatorship argues that the martial law regime was not fundamentally the outcome of Marcos's personal quest to remain in power but rather a consensus of the country's ruling elite confronted with mounting social unrest that authoritarian forms of rule were necessary to preserve their property and privileges The bourgeois opponents of Marcos did not defend democracy but like Marcos plotted against it **Asian Power**

and Politics Lucian W. PYE, Mary W. Pye, Lucian W Pye, 2009-06-30 In a major new book Lucian W Pye reconceptualizes Asian political development as a product of cultural attitudes about power and authority He contrasts the great traditions of Confucian East Asia with the Southeast Asian cultures and the South Asian traditions of Hinduism and Islam and explores the national differences within these larger civilizations Breaking with modern political theory Pye believes that power differs profoundly from one culture to another In Asia the masses of the people are group oriented and respectful of authority while their leaders are more concerned with dignity and upholding collective pride than with problem solving As culture decides the course of political development Pye shows how Asian societies confronted with the task of setting up modern nation states respond by fashioning paternalistic forms of power that satisfy their deep psychological craving for security This new paternalism may appear essentially authoritarian to Western eyes but Pye maintains that it is a valid response to the people's needs and will ensure community solidarity and strong group loyalties He predicts that we are certain to see emerging from Asia's accelerating transformation some new version of modern society that may avoid many of the forms of tension common to Western civilization but may also produce a whole new set of problems This book revitalizes Asian political studies on a plane that comprehends the large differences between Asia and the West and at the same time is sensitive to the subtle variations among the many Asian cultures Its comparative perspective will provide indispensable insights to anyone who wishes to think more deeply about the modern Asian states

Martial Law Melodrama José B. Capino, 2020-01-07 Lino Brocka 1939 1991 was one of Asia and the Global South's most celebrated filmmakers A versatile talent he was at once a bankable director of genre movies an internationally acclaimed auteur of social films a pioneer of queer cinema and an outspoken critic of Ferdinand Marcos's autocratic regime Jos B Capino examines the figuration of politics in the Filipino director's movies illuminating their historical contexts allegorical tropes and social critiques Combining eye opening archival research with fresh interpretations of over fifteen of Brocka's major and minor works Martial Law Melodrama does more than reveal the breadth of his political vision It also offers a timely lesson about popular cinema's vital role in the struggle for democracy

Conjunctures and Continuities in Southeast Asian Politics Narayanan Ganesan, 2013 In their evolution of political structures and life countries often undergo significant conjunctures major events that reorder political structures and norms The examination of such conjunctures offers an important methodological framework to uncover and document changes that have significantly altered the political template of a country This collection of case studies examines the critical conjunctures that have affected the countries of Southeast Asia in recent decades Each chapter traces the antecedent conditions prior to the event describes the changes brought about by the conjuncture and details the lasting legacy

The Political Economy of Foreign Policy in Southeast Asia David Wurfel, Bruce Burton, 2016-07-27 This is the first book in several years to review the foreign policies of major Southeast Asian states and the first ever to include those frequently neglected smaller states It is also unique in the editors adherence to a new comparative framework which attempts to weave

together the earlier literature on comparative foreign policy analysis and current concepts of political economy Comparative foreign policy studies are introduced by three distinguished scholars in that field A general survey of international relations in Southeast Asia then precedes the country chapters all authored by experienced specialists A concluding chapter attempts to identify the emerging patterns of Southeast Asian foreign policy and suggest explanations for them *Landscapes of Globalization* Philip F. Kelly, 2012-10-02 In this critical and sophisticated analysis Philip F Kelly challenges the conventional definition of globalization as an irresistible and inevitable force to which societies must succumb By tracing the consequences of global economic integration in the Philippines he argues that global processes are constituted accommodated mediated and resisted in social processes at multiple scales from the national economy to the village and the household Philippine Development, 1976 **International Studies in the Philippines** Frances Antoinette Cruz, Nassef Manabilang Adiong, 2020-03-26 How can local experiences and the social transformation generated by modernity help to enrich our understanding of the international What might a version of the much discussed non Western International Relations IR look like What continuities and discontinuities from the Philippine experience in particular can be useful for understanding other post colonial polities The Philippines makes a fascinating case study of a medium sized developing post colonial multi ethnic and multi cultural state in Southeast Asia Cruz Adiong and their contributors map horizons of non Western approaches in Philippine experiences of IR rooted in the Global South and in local customs and practice Examining both theory and praxis they explore issues as diverse as pre colonial history diplomacy religion agrarian reform and the Philippines relationship with key regions in the Global South The book will appeal to researchers interested in Southeast Asian Studies and alternative perspectives on IR China Studies in the Philippines Tina Clemente, Chih-yu Shih, 2018-09-21 As China Studies has grown as a discipline it has also tended to be dominated by the major international powers particularly China itself and the USA It is important to remember however that there is a rich and diverse history of China Studies elsewhere especially in Southeast Asia The Philippines is one such country China studies experts from the Philippines encompass a broad spectrum of individuals including activists and social workers as well as university experts think tank analysts diplomats and journalists and thus contribute a valuable new perspective This book seeks to therefore provide a deeper understanding of the Philippine approach to China revealing the unique and complex connections between China Studies ethnic studies and policy studies It highlights that the Philippines as an epistemological site complicates China as a category and Sinology as an academic agenda Thus the community can embrace nuances in research as well as in life to enable reconsideration and reconciliation of binaries Furthermore demonstrating how scholarship is a practice of life and not merely a neutral process of observation and presentation it challenges Sinologists elsewhere to see that understanding Sinologists is key to comprehending both their scholarship and China itself As such this book will be useful to students and scholars of Southeast Asian Studies and Chinese Studies as well as anthropology and sociology more generally **American**
