Sracic, 1999-07-30 In this comprehensive guide to the language of contemporary American politics Binning offers clear descriptions of terms such as soft money gerrymandering and blanket primary. Examples are frequently offered to help clarify definitions. Particular attention is given to the ever changing organizational structure of parties and contemporary electoral systems. In addition to defining political terms and systems however this encyclopedia explains campaign finance reform laws and the Voting Rights Act. The more significant Supreme Court decisions in these areas are summarized with an eye to giving readers a greater understanding of how these laws have been interpreted and applied. Strategic Decision-Making in Presidential Nominations Kenny J. Whitby, 2014-01-01 Seeks to understand and explain the behavior of party elites during the 2008 Democratic Party presidential race. What is the dominant force in presidential nomination campaigns? Are nomination outcomes decided largely by the political party or by the candidates and their activities? In Strategic Decision Making in Presidential Nominations Kenny J. Whitby aims to provide some answers to these important questions focusing on the closely contested 2008 race between Senators Hillary Clinton and Barack Obama. It was this race that spotlighted the role played by superdelegates, the unpledged party elites who were added to the nomination process in the 1980s. Whitby's central argument is that superdelegates are strategic actors and their endorsements are a response to a variety of demographic, institutional and campaign factors. While some weigh in early with an endorsement, many adopt a wait and see approach. Using a novel framework generally known as survival analysis, Whitby provides us with a method for understanding when and why party elites decide to chime in on their presidential nomination campaign.
