Presidents And Promises:

Presidents & Promises Jeff Fishel, 1985 The President's Agenda Paul Light, 1999 Although there are important differences between the two Presidents not the least of which is Bush's high proportion of small scale old ideas the two share a pronounced tendency to look backward for inspiration rather than forward from the Preface **The Presidential Dilemma** Michael A. Genovese, 2017-07-28 This brief thought provoking text evaluates the performance of recent presidents from Johnson to Bush finding that overall each has failed to live up to public expectations Written by one of the top presidency scholars today The Presidential Dilemma reflects on the idea that as our country's problems grow our politicians seem to shrink Arguing that American presidents of the last 40 years have largely failed to meet the needs expectations and responsibilities placed upon them the book discusses how presidents might better maximize their opportunities for leadership and suggests a distinctive theory of presidential politics presidents facing a system of multiple veto points seek to maximize power and influence The third edition of Genovese's stimulating book is thoroughly updated to reflect presidential development in recent years and a new introduction brings his arguments current As he demonstrates the emergence of democracy as a new social and political paradigm undermined traditional authority and legitimacy Subjects no longer automatically follow now citizens must be persuaded They may give to a leader their authority and power or not As Genovese notes in a world of mass consumerism those wishing to lead have precious little to offer by way of inducement Genovese's goal is to examine the reasons why the performance of recent presidents has been underwhelming discuss how they might maximize their opportunities for leadership and ask a key question Can presidents be both powerful and accountable The book follows a clear format and tries to show why America's officeholders have so rarely been leaders and how presidents can become leaders instead of mere officeholders **Presidents and Protestors** Theodore Windt, 1990-08-30 Windt's fresh interpretations are based on solid rhetorical analysis A fine work that makes a valuable contribution to the field both in methodology and findings Robert V Friedenberg The Living Presidency Saikrishna Bangalore Prakash, 2020-04-21 Beloved by liberals the living Constitution evolves with the times But one downside has been the erosion of constitutional constraints on executive action Saikrishna Prakash argues that if we want to rein in this imperial living presidency we must embrace constitutional originalism and revive the framers vision of the separation of powers **The Character Factor** James P. Pfiffner, 2004 Annotation The American president's character matters To most Americans it matters deeply But how do we define what character means and why can't we agree In this sober probing consideration of the character factor and the presidency veteran political analyst James P Pfiffner leads us through a survey of three aspects of presidential character that have proved problematic for recent chief executives lies promise keeping and sexual probity His goal is not to tell us which presidents have been good and which bad Rather he helps us think critically and impartially about complex character issues and invites us to reach our own conclusions The Character Factor avoids both moral judgments and cynicism It helps

us look at our presidents and our presidential candidates without illusions knowing that flawed men can still be great leaders but that some flaws deserve defeat at the polls or even the ultimate presidential sanction impeachment *The Presidency and Political Science: Paradigms of Presidential Power from the Founding to the Present: 2014* Raymond Tatalovich, Steven E Schier, 2014-12-18 This history of presidential studies surveys the views of leading thinkers and scholars about the constitutional powers of the highest office in the land from the founding to the present **Keeping the Republic: Power and Citizenship in American Politics, 5th Brief Edition** Christine Barbour, Gerald C. Wright, 2012-12-20 A consistent and compelling narrative is crucial to student engagement with any book But sadly so many brief editions are mere cut and paste versions of their comprehensive selves Not the case with Keeping the Republic's brief edition Carefully condensed by Barbour and Wright this text gives your students all the continuity and crucial content of the full version just in a more concise value oriented package And now your students benefit from a new full color interior design Photos jump off the page and colorful charts tables and maps enhance students data literacy Repeatedly praised for engaging students to think critically about who gets what and how in American politics Barbour and Wright show them how institutions and rules determine who wins and who loses in the political arena The authors carefully craft each graphic boxed feature and vignette to develop students analytic capabilities By introducing them to the seminal work in the field and showing them how to employ the themes of power and citizenship this proven text builds confidence in students who want to take an active part in their communities and government so they play their part in keeping the republic **Grading the 44th President** Luigi Esposito, Laura L. Finley, 2012-04-13 How has Barack Obama done in his first term as a progressive president especially in relation to his campaign assertions This book analyzes the performance of Obama and his administration in promoting progressive causes in a wide range of policy areas including the economy education immigration healthcare reform criminal justice and foreign affairs Grading the 44th President A Report Card on Barack Obama's First Term as a Progressive Leader is written in clear language that is free of jargon and from a leftist perspective offering a comprehensive analysis and critique of Obama's performance as a progressive president during his first term The authors provide in depth analyses with respect to Obama's handling of specific issues including the economy education healthcare criminal justice policy the environment immigration Iraq and Afghanistan race relations gender issues and gay lesbian issues covering topics in detail that general biographies of Obama and examinations of his political career miss This book presents clear accessible information for general readers and contains in depth discussion of topics useful to high school college and university students of sociology government political science philosophy and history **GATT, Implications on Environmental Laws** United States. Congress. House. Committee on Energy and Commerce. Subcommittee on Health and the Environment, 1991 *The Real Psychology of the Trump Presidency* Stanley Renshon, 2020-09-14 The United States has never had a president quite like Donald J Trump He violated every rule of conventional presidential campaigns to win a race that almost no one including at

times he himself thought he would win In so doing Trump set off cataclysmic shock waves across the country and world that have not subsided and are unlikely to as long as he remains in office Critics of Trump abound as do anonymously sourced speculations about his motives yet the real man behind this unprecedented presidency remains largely unknown In this innovative analysis American presidency scholar and trained psychoanalyst Stanley Renshon reaches beyond partisan narrative to offer a serious and substantive examination of Trump s real psychology and controversial presidency He analyzes Trump as a preemptive president trying to become transformative by initiating a Politics of American Restoration Rigorously grounded in both political science and psychology scholarship *The Real Psychology of the Trump Presidency* offers a unique and thoughtful perspective on our controversial 45th president *Do They Walk Like They Talk?* Louis M.

Imbeau,2009-07-16 George Bush s 1988 campaign pledge Read my lips no new taxes has become a mantra for those who distrust politicians and bureaucrats The gulf between what political leaders say and do seems to be widening and in democratic societies around the world contributing to an atmosphere of cynicism and apathy among the citizenry Understanding the characteristics and functions of speech in policy processes is a requirement for trying to overcome this problem indeed politicians and bureaucrats spend a good proportion of their time and resources discoursing i e writing speaking and publishing However there has been scant analysis of political discourse the aim of this book is to fill this analytical gap by exploring political speech from a variety of perspectives including normative epistemological and empirical Incorporating insights from economics political science philosophy and law and evidence from the United States Canada France Italy Turkey and the EU the book addresses a wide variety of timely issues including Fiscal discipline in speeches vs budget balance Is an improvement deterioration of the budget balance preceded by a more less fiscally disciplined discourse Revenues and spending forecasted in budget speeches vs realised budget outcomes Is there a systematic bias If so how can we explain it Electoral pledges vs actual realisations Do governments follow up on their electoral pledges Ideological stance in party publications vs spending and revenues of party governments Do parties of the right and the left speak different languages How can we validly classify a government as of the left or of the right Is there a systematic difference between governments of the right and of the left in terms of their policy Speeches by central bank officers vs monetary policy Can changes in monetary policy be predicted by official speeches The political business cycle How can taking into consideration the speech action relationship strengthen or threaten our knowledge about electoral and partisan cycles in public spending Other questions explored include Should policy makers always tell the truth and all the truth What are the benefits and the costs of transparency How can we resolve the apparent contradiction between the democratic demand for transparency and the efficiency requirement of secrecy in many policy areas budget preparation monetary policy foreign policy security etc Under which conditions is secrecy acceptable in a democratic society To what extent may deception and lies lead to a breach of trust or to power abuse What are the most efficient institutional mechanisms to prevent such abuse Collectively the

authors present new insights for understanding political process and government activity and suggest avenues for further research

Macroeconomic Policy and Public Choice David Kiefer, 2012-12-06 Subject of this book is the intersection between political science and macroeconomics The central idea is the existence of a political economic equilibrium in which the government acts to dampen the business cycle The election cycle implies that this equilibrium may be a cycle rather than a point An extension of new Keynesian theory provides a model of endogenous stabilization in which the government practices short run stabilization policy which dampens the impact of exogenous shocks This is a situation in which rational voters favor discretionary policy over a fixed policy rule even with rational economic agents Special attention is given to the relevant data and to the possibilities of hypothesis testing

White House Studies Compendium Robert W. Watson, 2007 brings together piercing analyses of the American presidency dealing with both current issues and historical events The compendia consists of the combined and rearranged issues of the journal White House Studies with the addition of a comprehensive subject index Preface

Continuity and Change in France Vincent Wright, 2024-09-02 First published in 1984 Continuity and Change in France sets out to explore questions by examining the many features of the Giscard presidency which have endured under Socialist rule Few people predicted the election victory of Francois Mitterrand over Giscard d Estaing in May 1981 It was greeted by his supporters at least as the first remarkable event in a chain of far reaching changes which would transform France However it has gradually become clear that political change does not come easily to modern France and that continuity is at least as important This book is at once a valuable review of the 1974 81 period as well as a revealing account of what has changed since then and what despite the rhetoric has not The contributors cover a number of areas important to French presidency and demonstrate the existence of a surprising degree of continuity in terms of both policy and personnel They will be welcomed by all students of French politics as providing the basis for a fuller assessment of the successes and shortcomings of the Mitterrand years

American Presidents, Deportations, and Human Rights Violations Bill Ong Hing, 2019 Discusses how mass detention and deportation of immigrants has escalated even higher since the Obama and Trump administrations

The Development of the American Presidency Richard J. Ellis, 2015-06-26 A full understanding of the institution of the American presidency requires us to examine how it developed from the founding to the present This developmental lens analyzing how historical turns have shaped the modern institution allows for a richer more nuanced understanding beyond the current newspaper headlines The Development of the American Presidency pays great attention to that historical weight but is organized by the topics and concepts relevant to political science with the constitutional origins and political development of the presidency its central focus Through comprehensive and in depth coverage this text looks at how the presidency has evolved in relation to the public to Congress to the Executive branch and to the law showing at every step how different aspects of the presidency have followed distinct trajectories of change All the while Ellis illustrates the institutional relationships and tensions through stories about particular individuals

and specific political conflicts Ellis's own classroom pedagogy of promoting active learning and critical thinking is well reflected in these pages Each chapter begins with a narrative account of some illustrative puzzle that brings to life a central concept A wealth of photos figures and tables allow for the visual presentations of concepts A companion website not only acts as a further resources base directing students to primary documents newspapers and data sources but also presents interactive timelines and practice quizzes to help students master the book's lessons The second edition a new chapter on unilateral powers that brings greater attention to domestic policymaking The Development of the American Presidency Richard Ellis, 2022-05-02 A full understanding of the institution of the American presidency requires us to examine how it developed from the founding to the present This developmental lens analyzing how historical turns have shaped the modern institution allows for a richer more nuanced understanding The Development of the American Presidency pays great attention to that historical weight but is organized by the topics and concepts relevant to political science with the constitutional origins and political development of the presidency its central focus Through comprehensive and in depth coverage Richard J Ellis looks at how the presidency has evolved in relation to the public to Congress to the executive branch and to the law showing at every step how different aspects of the presidency have followed distinct trajectories of change Each chapter promotes active learning beginning with a narrative account of some illustrative puzzle that brings to life a central concept A wealth of photos figures and tables allow for the visual presentations of concepts New to the Fourth Edition Explicit and expanded attention to the role of norms in shaping and constraining presidential power with special focus on Trump's norm breaking and Biden's efforts to shore up norms Enhanced focus on the prospects for institutional reform including in the electoral college presidential relations with Congress war powers and the selection of Supreme Court justices A full reckoning with the Trump presidency and its significance for the future of American democracy presidential rhetoric the unilateral executive and the administrative state Coverage of the first year of Biden's presidency including presidential rhetoric relations with Congress and the bureaucracy use of the war powers and unilateral directives Comprehensive updating of debates about the removal power including the Supreme Court cases of *Seila Law v CFPB* and *Collins v Yellen* In depth exploration of the impact of partisan polarization on the legislative presidency and effective governance Analysis of the 2020 election and its aftermath Expanded discussion of impeachment to incorporate Trump's two impeachments Examination of presidential emergency powers with special attention to Trump's border wall declaration Review of Biden's and Trump's impact on the judiciary Assessment of Biden's and Trump's place in political time

Keeping the Republic Christine Barbour, Gerald C. Wright, 2018-11-23 Keeping the Republic gives students the power to examine the narrative of what's going on in American politics distinguish fact from fiction and balance from bias and influence the message through informed citizenship Keeping the Republic draws students into the study of American politics showing them how to think critically about who gets what and how while exploring the twin themes of power and citizenship

Students are pushed to consider how and why institutions and rules determine who wins and who loses in American politics and to be savvy consumers of political information The thoroughly updated Ninth Edition considers how a major component of power is who controls the information how it is assembled into narratives and whether we come to recognize fact from fiction Citizens now have unprecedented access to power the ability to create and share their own narratives while simultaneously being even more vulnerable to those trying to shape their views The political landscape of today gives us new ways to keep the republic and some high tech ways to lose it Throughout the text and its features authors Christine Barbour and Gerald Wright show students how to effectively apply the critical thinking skills they develop to the political information they encounter every day Students are challenged to deconstruct prevailing narratives and effectively harness the political power of the information age for themselves Up to date with 2018 election results and analysis as well as the impact of recent Supreme Court rulings shifting demographics and emerging and continuing social movements Keeping the Republic Ninth Edition is a much needed resource to help students make sense of politics in America today Keeping the Republic The Essentials is identical to the full version of the text minus the three policy chapters Also available as a digital option courseware Contact your rep to learn more about Keeping the Republic Ninth Essentials Edition Vantage Digital Option

Executive Decree Authority John M. Carey, Matthew Soberg Shugart, 1998-05-13 When presidents or prime ministers make law by decree are we witnessing the usurpation of legislative authority The increased frequency of policy making by decree in older democracies as well as in the newer regimes of Latin America and the post communist world has generated concern that legislatures are being marginalized and thus that democratic institutions are not functioning Professors Carey and Shugart suggest which elements of constitutional design should and should not foster reliance on decree authority Individual chapters then bring the experiences of Argentina Brazil France Italy Peru Russia the United States and Venezuela to bear on the theory The book combines broadly comparative analysis with intensive case studies to provide a more thorough understanding of the scope of executive authority across countries

Immerse yourself in heartwarming tales of love and emotion with is touching creation, Experience Loveis Journey in **Presidents And Promises** .
