Press America:

The Dutch Language Press in America Hendrik Edelman, 2024-04-15 *The Press and Slavery in America, 1791-1859* Brian Gabriel, 2016-03-18 This scholarly study examines the shifting perceptions of slavery in the antebellum South through news accounts of major slave rebellions Slavery remains one of the United States most troubling failings and its complexities have shaped American ideas about race economics politics and the press since the first days of settlement Brian Gabriel's *The Press and Slavery in America 1791-1859* explores those intersections at moments when enslaved people revolted or conspired to revolt Such events forced public discussions about slavery at times when supporters of the peculiar institution preferred them to be silent This volume covers news accounts of five major slave rebellions or conspiracies Gabriel Prosser's 1800 Virginia slave conspiracy the 1811 Louisiana slave revolt Denmark Vesey's 1822 slave conspiracy in Charleston South Carolina Nat Turner's 1831 Southampton County Virginia slave revolt and John Brown's 1859 Harper's Ferry raid Gabriel situates these stories within a historical framework that juxtaposes the transformation of the press into a powerful mass media with the growing political divide over slavery illustrating how two American cultures both asserting claims to founding America devolved into enemies over slavery What the nineteenth century press reveals in this book are discourses that have retained resonance in contemporary race relations and American politics They connect to ideas about the press and technology changing journalistic practice and the destruction wrought by the dysfunction of the nation's political parties

Race and America's Immigrant Press Robert M. Zecker, 2011-06-30 Race was all over the immigrant newspaper week after week As early as the 1890s the papers of the largest Slovak fraternal societies covered lynchings in the South While somewhat sympathetic these articles nevertheless enabled immigrants to distance themselves from the blackness of victims and became part of a strategy of asserting newcomers' tentative claims to whiteness Southern and eastern European immigrants began to think of themselves as white people They asserted their place in the U S and demanded the right to be regarded as Caucasians with all the privileges that accompanied this designation Circa 1900 eastern Europeans were slightly dismissed as Asiatic or African but there has been insufficient attention paid to the ways immigrants themselves began the process of race tutoring through their own institutions Immigrant newspapers offered a stunning array of lynching accounts poems and cartoons mocking blacks and paeans to America's imperial adventures in the Caribbean and Asia Immigrants themselves had a far greater role to play in their own racial identity formation than has so far been acknowledged *Press and Speech Freedoms in America, 1619-1995* Louis E. Ingelhart, 1997-01-30 Tracing the battles between the repressors and proponents of free speech this chronology overviews press and speech freedoms in the United States from 1619 through 1995 Beginning with the American Colonies the volume covers the religious refugees and political dissidents who settled the Colonies and the press that heated up the struggle to rid America of the Crown Although freedom of speech and the press became constitutional rights 15 years after the Declaration of Independence these rights fared poorly

until after World War II This book traces the struggles the press and the contending views from 1760 to 1960 and the 35 years of commitment to freedom from 1960 to 1995 Arranged by year the entries in the chronology include the views and comments of persons in favor of or opposed to freedom of speech events that affected press freedoms and technological changes that have had an impact

Sex and Citizenship in Antebellum America Nancy Isenberg, 1998 With this book Nancy Isenberg illuminates the origins of the women's rights movement Rather than herald the singular achievements of the 1848 Seneca Falls convention she examines the confluence of events and ideas before and after 1848 that in her view

History of Terrestrial Mammals in South America Thomas Defler, 2018-12-19 This book takes a non technical approach in covering the evolution of South American mammalian fauna throughout geological history and discusses how South America has changed due to mammalian invasions Unlike other works on the subject this book attempts to answer several crucial questions that often go unmentioned together in one cohesive monograph What was the fauna like before the American interchange What were the origins of the now extinct groups when northern species arrived and out competed them How did the modern mammalian fauna come into being with such disparate animal groups This information is given from a historical perspective throughout the book's 15 chapters and is presented in an easily graspable fashion by mostly avoiding technical language The book is written for academics scientists and scholars engaged in paleontology zoology and evolutionary biology but may also appeal to a larger audience of general readers interested in mammalian evolution The book begins with an introduction describing the tools necessary to interpret the evolutionary history of South American mammals in geological terms and some of the early people who helped found South American mammalian paleontology Chapter 2 describes the Mesozoic first mammals of Gondwana and what we are learning about them dominant before the K T extinction event Then chapters 3 through 8 cover the Cenozoic or Age of Mammals highlighting the major mammalian groups of South America that replaced the earlier mammals of Gondwana These groups include the marsupials native ungulates the xenarthrans armadillos anteaters sloths the caviomorphs rodents and the platyrrhine monkeys Chapters 9 and 10 address the Antarctic La Meseta fossils and the Colombian La Venta fossil faunal assemblages Chapter 11 discusses the neotropical mammals that invaded the Caribbean Islands and illustrates the influence South America has had on adjacent faunas Chapter 12 describes the origin of the Amazon River and the role it has played in the evolution of the mammals and other flora and fauna Chapter 13 tells the story of the Great American Biotic Interchange GABI and chapter 14 follows this up with a discussion of the Pleistocene mammal communities and their eventual extinction Chapter 15 concludes the text by discussing the modern mammals of South America and how despite the extensive Pleistocene extinctions there is still a lot of mammalian diversity in

South America *The Routledge History of Crime in America* James Campbell, Vivien Miller, 2024-12-27 Covering a broad chronology from the colonial era to the present this volume's 28 chapters reflect the diverse approaches, interests, and findings of an international group of new and established scholars working on American crime histories today. The book is organized around major themes in crime history including violence, science, and technology, culture, gender, and organized crime, and it addresses pressing contemporary concerns such as mass incarceration and the racial politics of crime in modern America. It also engages with the history of crime literature, film, and popular culture from colonial execution sermons to true crime television in the twenty-first century. The volume is alert to continuities and diversity over time and place in the history of American crime, notably in chapters on the South, the West, and the impact of urbanization on practices and ideas about crime and law enforcement in different periods of the American past. *The Routledge History of Crime in America* is an indispensable interdisciplinary resource for students and researchers working in areas of crime, crime policy, punishment, policing, and incarceration.

America Ascendant Stanley B. Greenberg, 2015-11-03 Renowned pollster who was key advisor to President Clinton, Stanley Greenberg reveals how America will be ascendant and how new Democratic presidents can lead a new era of bold reform.

Red Spies in America Katherine Amelia Siobhan Sibley, 2004 The most detailed study of Soviet military industrial espionage during the 1930s, 1940s, and 1950s, spying aimed specifically at acquiring restricted information and materials relating to American industry, technology, and science.

Immigration and the Future Frances Kellor, 1920

The Changing American Countryside Emery N. Castle, 1995 The literature on rural America to the extent that it exists has largely been written by urban-based scholars perpetuating out-of-date notions and stereotypes or by those who see little difference between rural and agricultural concerns. As a result, the real rural America remains much misunderstood, neglected, or ignored by scholars and policymakers alike. In response, Emery Castle offers *The Changing American Countryside*, a volume that will forever change how we look at this important subject. Castle brings together the writings of eminent scholars from several disciplines and varying backgrounds to take a fresh and comprehensive look at the forgotten hinterlands. These authors examine the role of non-metropolitan people and places in the economic life of our nation and cover such diverse issues as poverty, industry, the environment, education, family, social problems, ethnicity, race, religion, gender, government, public policy, and regional diversity. The authors are especially effective in demonstrating why rural America is so much more than just agriculture. It is, in fact, highly diverse, complex, and interdependent with urban America and the international marketplace. Most major rural problems they contend simply cannot be effectively addressed in isolation from their urban and international connections. To do so is misguided and even hazardous when one-fourth of our population and ninety-seven per cent of our land area is rural. Together, these writings not only provide a new and more realistic view of rural life and public policy but also suggest how the field of rural studies can greatly enrich our understanding of national life.
