Ground-water Hydrology of the Chad Basin in Bornu and Dikwa Emirates, Northeastern Nigeria, with Special Emphasis on the Flow Life of the Artesian System ,1968 **Availability of Ground Water in the Chad Basin of Bornu and Dikwa Emirates, Northern Nigeria** Geological Survey (U.S.),1965 Technical Report ES. ,1969
Technical Report ,1963 *Geographical Regions of Nigeria* Reuben K. Udo, Geological Survey Water-supply Paper ,1968 *Geology and Mineral Resources of West Africa* Wright,2012-12-06 In this text attention is focused mainly on those literature is accessible however it is to be expected countries in western Africa lying south of the Sahara that teachers and lecturers will know of it and will be that is between about SON and 15 N and westward able to acquaint their students with it where neces of about 15 E Parts of the region as far north as sary about 200N are considered from time to time for A glossary of terms is provided at the end of the purposes of correlation and cQntinuity The map on volume and there is a summary at the beginning of p xiii indicates the approximate extent of the cover each chapter age This book is dedicated to the many colleagues and The principal aim is to provide a broad view of students with whom we have worked in West Africa West African geology as a whole for undergraduates and who have stimulated and encouraged our teach who are studying for honours degrees in geology and ing and research in various ways We hope also that it may help the work of international organizations who already have an understanding of basic geologi cal principles It is increasingly important that such as AGID CIFEG and UNESCO to encourage the growing trend towards geological co operation geologists working in this region should see it as made up of geological provinces which transcend and correlation between different countries in West national boundaries Africa Desert Research: 1965-1968. With an appendix of references prior to 1965 and permuted title index ,1969 **Applied Groundwater Studies in Africa** Segun Adelana,Alan MacDonald,2008-09-23 Groundwater is Africa s most precious natural resource providing reliable water supplies for many people Further development of groundwater resources is fundamental to increasing access to safe water across the continent to meet coverage targets and reduce poverty There is also an increasing interest in the use of groundwater for irrigated agriculture as the climate becomes more variable Sustainable development of the resource is not a trivial task and depends crucially on an understanding of the hydrogeology and people with the skills to make informed decisions on how groundwater can best be developed and managed in a sustainable fashion Despite these obvious needs however little attention has been paid to the systematic gathering of information about groundwater resources in the past few decades with the result that data are patchy knowledge is limited and investment is poorly targeted This book was written to start to bridge the knowledge gap The 29 chapters are written by a combination of practitioners and researchers mainly from within Africa using experience from recent and ongoing projects The chapters highlight the complexity and variety of issues surrounding the development and management of groundwater resources across Africa and provide a snapshot of groundwater research and application in the

early 21st century Chapters range from strategic discussions of the role of groundwater in development and poverty reduction to case studies on techniques used to develop groundwater and modelling methods for managing groundwater systems
