As these new games have a strong power to change our lives, it is good time for people who work in this area to discuss various aspects of entertainment and to promote entertainment-related researches. Based on these considerations, we have organized a first workshop on entertainment computing. This workshop brings together researchers, developers, and practitioners working in the area of entertainment computing. It covers a wide range of entertainment computing, such as theoretical issues, hardware, software issues, systems, human interfaces, and applications. The particular areas covered by the workshop are:
