## **Preventing A Biological Arms Race:**

**Preventing a Biochemical Arms Race** Alexander Kelle, Kathryn Nixdorff, Malcolm Dando, 2012-10-31 Preventing a Biochemical Arms Race responds to a growing concern that changes in the life sciences and the nature of warfare could lead to a resurgent interest in chemical and biological weapons CBW capabilities By bringing together a wide range of historical material and current literature in the field of CBW arms control the book reveals how these two disparate fields might be integrated to precipitate a biochemical arms race among major powers rogue states or even non state actors It seeks to raise awareness among policy practitioners the academic community and the media that such an arms race may be looming if developments are left unattended and to provide policy options on how it and its devastating consequences could be avoided After identifying weaknesses in the international regime structures revolving around the Biological Weapons and Chemical Weapons Conventions it provides policy proposals to deal with gaps and shortcomings in each prohibition regime individually and then addresses the widening gap between them

Permanent Subcommittee on Investigations,1996 [Bioterrorism: The History of a Crisis in American Society](#) David McBride,2022-07-30 Although at the start of the 21st century bioterrorism was newly feared by the public at large it is one threat that institutions have attempted to anticipate for years Originally published in 2003 and now with a new

introduction this unique 2 volume collection provides a multi disciplinary resource on the challenges bioterrorism poses for American society and institutions from both legal and political institutions on one hand to public health and medical institutions on the other Volume one documents and analyses the challenge bioterrorism poses to these political economic and legal institutions putting bioterrorism into its historical context as a problem discussed and anticipated by government for decades Volume two documents the challenges bioterrorism poses to public health and public policy as a weapon of disease and fear The materials in these volumes provide case histories and discourse by specialists relating to the ways that the bioterrorism threat has been perceived and approached by US health and law institutions

**Governance of Biotechnology in Post-Soviet Russia** Tatyana Novossiolova, 2017-07-19 This book provides an up to date analysis of the governance of biotechnology in post Soviet Russia The rapid advancement of the life sciences over the past few decades promises to bring tremendous benefits but also raises significant social ethical legal and security risks Nations adaptability to the twin challenges of attempting to secure the benefits while reducing the risks and threats is a large and still burgeoning governance challenge Here Novossiolova cuts across several sets of literature bringing together elements of the anthropological study of culture history of science and technology management and international governance and Soviet history and politics Due to its multidisciplinary approach in depth analysis accessible style and extensive reference list this text offers invaluable insights into the normative dimensions of the governance of biotechnology unpacking both the formal and intangible attributes and artefacts of biotechnology policy and practice in Russia

**Rethinking the Unthinkable** Ivo H. Daalder, Terry Terriff, 2014-02-04 Rethinking the Unthinkable examines the future direction of nuclear arms control in the post Cold War security environment Believing that the new environment requires a radical rethinking of the purpose and role of nuclear weapons in international politics the contributors address many fundamental issues influencing further US Russian and European nuclear arms reductions This volume is a product of the Project on Rethinking Arms Control sponsored by the Center for International and Security Studies in Maryland

**Science, History and Social Activism** Garland E. Allen, Roy M. MacLeod, 2013-03-14 To earn a degree every doctoral candidate should go out to Harvard Square find an audience and explain his or her dissertation Everett Mendelsohn s worldly advice to successive generations of students whether apocryphal or real has for over forty years spoken both to the essence of his scholarship and to the role of the scholar Possibly no one has done more to establish the history of the life sciences as a recognized university discipline in the United States and to inspire a critical concern for the ways in which science and technology operate as central features of Western society This book is both an act of homage and of commemoration to Professor Mendelsohn on his 70th birthday As befits its subject the work it presents is original comparative wide ranging and new Since 1960 Everett Mendelsohn has been identified with Harvard University and with its Department of the History of Science Those that know him as a teacher will also know him as a scholar In 1968 he began and after 30 years has just bequeathed to others the editorship of the

Journal of the History of Biology among the earliest and one of the most important publications in its field At the same time he has been a pioneer in the social history and sociology of science He has formed particularly close working relationships with colleagues in Sweden and Germany as witnessed by his editorial presence in the Sociology of Science Yearbook

**Prevention of a Biological and Toxin Arms Race and the Responsibility of Scientists** Erhard Geissler, Robert H. Haynes, 1991 **Bulletin of the Atomic Scientists**, 1991-09 *Physicians at War* Fritz Allhoff, 2008-03-22 This paper offers a brief examination of ethical health issues arising from military operations and outlines which if any of these ethical health issues apply to current Australian Defence Force ADF military operations The transparency of military operations provided through real time global media reporting and the Internet has raised public awareness of incidents that can be viewed broadly as ethical issues or dilemmas While many of these issues are not new it is the changing context of post cold war military operations and scale and demand of humanitarian operations that places new requirements on how the ADF best addresses these potential issues before they become critical incidents In identifying potential ethical issues arising from military health operations it is recognized that military health personnel operate within a command and control organizational structure and associated culture It is also recognized that the complexity of the issues and the environment within which military health personnel are expected to operate will raise ethical health issues not likely to be encountered to the same degree by those health practitioners operating in the average suburban practice or hospital except when health personnel are confronted with large scale emergencies such as those encountered with recent terrorist attacks and massacres *Terrorism and Public Health* Barry S. Levy M.D., Victor W. Sidel M.D., 2002-11-14 In a wide ranging timely discussion of urgent issues this volume examines the health consequences of the recent terrorist attacks in the United States and systematically reviews information on explosives incendiaries and small arms as well as biologic chemical nuclear radiologic and other radioactive weapons that may be used by terrorists In a constructive approach the authors discuss what needs to be done to improve the public health and medical care systems in preparation for possible future terrorist attacks and threats and for addressing widespread public health problems more effectively They also explore the origins of terrorism and discuss the civil rights and human rights issues related to government responses to terrorism Well written well organized and up to date the book should be essential reading for many health professionals students and others concerned with terrorism and its health consequences *APAIS 1991: Australian public affairs information service*, **Bulletin of the Atomic Scientists**, 1991-06 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world
