Preventing Cardiovascular Disease In Europe:

Preventing Cardiovascular Disease in Europe Jeanette Longfield, Mike Rayner, 1993 How are our European neighbours addressing the growing incidence of cardiovascular disease What can we learn from them This survey of cardiovascular prevention in Europe gives an overview of activities being undertaken across the whole of the region It uncovers many examples of good practice and provides information to enable a sharing of knowledge and influence decision making at local national and international levels Preventing Cardiovascular Disease in Europe, 1993

Preventing Cardiovascular Disease in Primary Care Clive Handler, Gerry Coghlan, 2018-04-19 Cardiovascular disease is the leading cause of death and disability in the world It is largely preventable and can certainly be delayed by attention to established risk factors Primary care is the natural and most appropriate location for cardiovascular prevention This accessible and practical reference and everyday manual covers the organisation of prevention services estimating risk and using guidelines and examines each key area with extensive use of clinical case studies It provides the information necessary to answer the concerns of patients on areas such as cholesterol diet exercise alcohol smoking and medication General practitioners practice nurses physiotherapists dieticians and pharmacists will find this book to be an essential aid to their daily work

Prevention of Cardiovascular Diseases Jadelson Andrade, Fausto Pinto, Donna Arnett, 2015-08-28 The present book reveals the importance of preventive medicine in cardiology and public health addressing the lack of a broad discussion of this topic in the current literature It examines the most important risk factors for different cardiovascular diseases discussing them in detail from a clinical standpoint and presenting important information from a preventive medicine perspective Further specific chapters discuss the burden of cardiologic risk factors in special contexts such as in women child and adolescents and in low income populations Lastly a number of conditions that are often overlooked in terms of their cardiological impact are discussed such as Chagas disease rheumatic cardiomyopathy and post traumatic stress disorder Cardiovascular diseases are still the major cause of death in the world even though they are considered preventable clinical conditions The increased prevalence of some risk factors for cardiovascular diseases is an important concern for cardiologists around the world On the other hand primary prevention programs have proven their efficacy concerning some known and treatable risk factors such as with hypercholesterolemia hypertension diabetes and smoking but still need to be made more of a priority in public health Prevention of Cardiovascular Diseases is a book intended for multi disciplinary audience and aimed for all professionals who are willing to face the challenge of cardiovascular prevention *Epidemiology and Prevention of Cardiovascular Diseases* Darwin Labarthe, 2011 *Epidemiology and Prevention of Cardiovascular Disease A Global Challenge* Second Edition provides an in depth examination of epidemiologic research and prevention measures for the full range of cardiovascular diseases CVD This authoritative text on the world s leading causes of death describes in detail the nature of atherosclerotic and hypertensive diseases including their determinants prevention and control as well as policies for intervention in community

and clinical settings This Second Edition is fully updated more extensively referenced and expanded to include new information about the public health dimensions of CVD prevention exploring the basis of public health decisions and the process by which decision making bodies develop guidelines and recommendations Epidemiology and Prevention of Cardiovascular Diseases A Global Challenge Second Edition is the essential text for any student or practitioner concerned with global cardiovascular health *Precision Medicine in Cardiovascular Disease Prevention* Seth S. Martin,2021-07-07 This book contains the current knowledge and potential future developments of precision medicine techniques including artificial intelligence big data mobile health digital health and genetic medicine in the prevention of cardiovascular disease It reviews the presently used advanced precision medicine techniques and fundamental principles that continue to act as guiding forces for many medical professionals in applying precision and preventative medical techniques in their day to day practices Precision Medicine in Cardiovascular Disease Prevention describes current knowledge and potential future developments in this rapidly expanding field It therefore provides a valuable resource for all practicing and trainee cardiologists looking to develop their knowledge and integrate precision medicine techniques into their practices **The Prevention of Cardiovascular Disease through the Mediterranean Diet** Almudena Sánchez Villegas,Ana Sanchez-Taínta,2017-09-08 The Prevention of Cardiovascular Disease through the Mediterranean Diet presents dietary habits that will have maximum impact on cardiovascular health and other major chronic diseases Data collected through the results of large clinical trials such as PREDIMED one of the longest trials ever conducted has allowed researchers to conclude that the Mediterranean Diet provides the best evidence for health benefits Studies have shown that the Mediterranean Diet is able to reduce the risk of cardiovascular hard clinical events by 30% This book explores the components of this diet including the consumption of extra virgin olive oil nuts fresh fruits and vegetables fatty fish poultry and red wine for optimal health benefits Analyzes the results of clinical trials that show that a healthy dietary pattern can prevent cardiovascular and other major chronic diseases Explores the components of The Mediterranean Diet in detail allowing practitioners to pass this understanding on to patients for optimal health benefits Contains recipes including modified versions for special populations or different cultures *Cardiovascular Prevention and Rehabilitation* Joep Perk,Peter Mathes,Helmut Gohlke,Irene Hellemans,Catherine Monpère,Hannah McGee,Philippe Sellier,Hugo Saner,2007-09-18 In the network of cardiologists within the European Society of Cardiology Working Group on Cardiac Rehabilitation and Exercise Physiology there is a strong view that the time indeed is right to publish definitively on the methods involved in cardiovascular prevention and rehabilitation We are facing a transition from conventional cardiac rehabilitation to a phase of combined preventive and rehabilitative efforts as witnessed in the recent Joint Task Force Guidelines on Preventive Cardiology For this revision of our clinical routines we lack a practical textbook based upon the conditions and resources of European health care This textbook is designed to fill that gap **Advances in The Prevention**

and Rehabilitation of Cardiovascular Diseases via Aerobic Exercise Richard Yang Cao, Jian Yang, Sebastian

Kelle, 2022-04-05

Cardiovascular Risk Assessment in Primary Prevention Michael D. Shapiro, 2022-05-26 This book is the first comprehensive text dedicated to risk assessment in the primary prevention of atherosclerotic cardiovascular disease. It provides an overview of current evidence regarding approaches to risk assessment, traditional and emerging risk factors, and atherosclerosis imaging for refinement of risk estimation. The volume seeks to provide an essential resource for professionals in the field to assess their patients for risk of cardiovascular disease. The book is divided into five sections, starting off with an overview of current best practices to risk assessment in primary prevention around the world. The second section discusses traditional risk factors such as hypercholesterolemia, hypertension, diabetes, smoking, and obesity. The third section reviews the newly introduced concept of Risk Enhancers. The fourth section offers insight on novel risk factors with in-depth discussion regarding lipoprotein, a high sensitivity CRP, apolipoprotein B, social determinants of health, stress, and cardiovascular disease, and polygenic risk scores. The final section covers the use of non-invasive atherosclerosis imaging, computed tomography, and ultrasound-based techniques as a tool to refine risk estimates. Throughout the book, readers will find multiple tables, figures, and illustrations that complement the text. Up-to-date, evidence-based, and clinically oriented, *Cardiovascular Risk Assessment in Primary Prevention* is a must-have resource for physicians, residents, fellows, and medical students in cardiology, endocrinology, primary care, and health promotion and disease prevention. *Cardiovascular Diseases*

Y. Robert Li, 2015-02-25 Written in an accessible style and consistent format, the book covers both the fundamentals and advances in the pharmacology of cardiovascular drugs, as well as their integrated applications in the management of individual cardiovascular diseases. Integrates fundamentals and recent advances regarding cardiovascular drugs, blending basic and clinical sciences needed to effectively understand and treat cardiovascular diseases. Facilitates understanding of drug action and mechanism by covering physiology, pathophysiology, and pharmacology. Includes guidelines and algorithms for pharmacotherapeutic management of cardiovascular diseases. Uses case presentations and study questions to enhance understanding of the material. Serves as a resource for pharmaceutical and medical students and researchers interested in cardiovascular issues. *Manual of Hypertension of the European Society of Hypertension* Giuseppe Mancia, Guido Grassi, 2014-06-22 Despite recent advances in healthcare, hypertension is a leading cause of death and remains a disease burden worldwide. Now in its second edition, the *Manual of Hypertension of the European Society of Hypertension* reflects emerging concepts that have the potential to impact diagnostic and therapeutic approaches to this condition. Updating all material.
