## **Preventing Aids The Design Of Effective Programs:**

*Preventing AIDS* Ronald O. Valdiserri, 1989 On the design implementation operation and evaluation of AIDS prevention programs in the varied communities at risk Cloth edition unseen 38 Annotation copyrighted by Book News Inc Portland OR

*Handbook of HIV Prevention* John L. Peterson, Ralph J. DiClemente, 2012-12-06 In the nearly two decades since the HIV pandemic began the rapid expansion of behavioral research on HIV prevention has prompted a crucial need for a sourcebook more advanced than an introductory textbook and broader and more readily accessible than a review periodical The Handbook of HIV Prevention is intended as the first attempt to meet this need The current state of affairs led us to edit a book that would represent the major areas of HIV behavioral research at a level appropriate for graduate students and experienced researchers in public health medicine nursing education and the social and behavioral sciences In addition we expect that the handbook will be useful in advanced undergraduate courses and as a reference book for health care professionals Our plans to assemble the Handbook began in the fall of 1996 when we prepared a tentative outline of chapters and invited a large number of distinguished researchers in the field to be the authors of various chapters We received an overwhelmingly favorable response from potential authors to our letters of invitation After considerable effort by both the contributors and the editors the volume was completed in 1999 when all chapters went to press

**Preventing AIDS** Ralph J. DiClemente, John L. Peterson, 2013-06-29 Public health has a legacy of neglect regarding social and behavioral research Too often prompted by technical and scientific progress we have ignored even marginalized the vital human element in health thinking and practice Thus for example while family planning programs focused on providing a choice among safe and effective contraceptive methods a supremely worthy goal the central issue of sexuality and sexual behavior was generally neglected Similarly the enormous and important efforts to develop rapid and reliable diagnostic and treatment methods for sexually transmitted diseases helped divert attention away from the crucial issues of sexual practice In short we seem to have difficulty addressing the fundamental behaviors including sex drug taking and other intoxications and violence that are central to the major causes of preventable morbidity disability and premature mortality in the world today Our collective reluctance to examine and understand ourselves is also expressed in the oft repeated pipedream that scientific progress will take care of the HIV AIDS pandemic by delivering a preventive vaccine an effective cure or both Yet even a cursory glance at the relationship between scientific technical progress and health shows that meeting the scientific challenges is only one step toward effective application of the vaccine or drug It is typical not atypical that hepatitis B vaccine is only now becoming relatively freely available to large populations in the developing world more than a decade after the vaccine's licensure

**The New Public Health and STD/HIV Prevention** Sevgi O. Aral, Kevin A. Fenton, Judith A. Lipshutz, 2012-12-09 Despite effective approaches to prevention STD and HIV infection rates remain fairly constant Targeting implementation and monitoring of interventions have posed widespread problems and the recent spate of cuts to prevention budgets has made

these roadblocks even more challenging It is clear that working in sexual health requires both a deeper understanding of STI HIV epidemiology and an ongoing quest for up to date realistic prevention strategies The New Public Health and STD HIV Prevention offers readers leading edge access to both Focusing on social determinants of sexual health at risk populations critical factors in approaches to prevention and reviews of new research this authoritative volume explores areas as varied as HPV prevention technology based interventions migration as a factor in disease transmission and competencies key to effective leadership in the field Dispatches from the frontlines of theory research and practice in the U S and abroad include Personal risk public impact balancing individual rights and STD HIV prevention Distribution of prevention resources and its impact on sexual health Prevention measures in diverse populations of women Toward a better approach to preventive interventions with men who have sex with men Adolescent sexual health and STIs Reducing disparities in sexual health lessons from the campaign to eliminate infectious syphilis Public health professionals of all backgrounds interested in or working in improving sexual health will find The New Public Health and STD HIV Prevention an indispensable guide to conceptualizing the problems and clarifying possible solutions

**Public Health Reports** ,1995      **Dawning Answers**  
 Ronald O. Valdiserri,2003 Dawning Answers looks at the global HIV AIDS epidemic through the lens of its evolving influence on public health theory and practice Losses from the epidemic have been devastating but the many lesson learned have positively influenced other domains of public health and will continue to generate new approaches to health assessment policy development and assurance Students and teachers of public health and preventive medicine will find in this singular volume useful analyses from the various disciplines comprising public health

**Health Services Reports** United States.  
 Health Services and Mental Health Administration,1995      *Handbook of Health and Rehabilitation Psychology* Anthony J. Goreczny,2013-11-11 Despite medical technological advances the major killers with which we must currently contend have remained essentially the same for the past few decades Stroke cancer and heart disease together account for the vast majority of deaths in the United States In addition due to improved medical care many Americans who would previously have died now survive these disorders necessitating that they receive appropriate rehabilitation efforts One result of our own medical advances is that we must now accept the high costs associated with providing quality care to individuals who develop one of these problems and we must avail ourselves to assist of afflicted individuals families Despite the relative stability of causes of death and disability the health care field is currently experiencing tremendous pressures both from professionals with in the field who desire more and better technology than is currently available and from the public and other payers of health care e g insurance companies who seek an end to increasing health care costs These pressures along with an increased emphasis on providing evidence of cost effectiveness and quality assurance are substantially changing the way that health care professionals perform their jobs

**Persuading People To Have Safer Sex** Richard M. Perloff,2000-11 This volume explores the application of persuasion theory and research to HIV AIDS prevention focusing on

changing attitudes and behaviors It is intended for students and scholars applying theory to health or AIDS prevention

**Behavioral Interventions for Prevention and Control of Sexually Transmitted Diseases** Sevgi O. Aral, John M. Douglas, 2008-12-03 Before AIDS the role of behavioral interventions in preventing transmission of sexually transmitted diseases was acknowledged in text books and journals but rarely promoted effectively in public health practice This book addresses the complexities and social contexts of human behaviors which spread STDs the cultural barriers to STD education and the sociopolitical nuances surrounding treatment

**Preventing and Mitigating AIDS in Sub-Saharan Africa** National Research Council, Division of Behavioral and Social Sciences and Education, Commission on Behavioral and Social Sciences and Education, Panel on Data and Research Priorities for Arresting AIDS in Sub-Saharan Africa, 1996-03-28 The AIDS epidemic in Sub Saharan Africa continues to affect all facets of life throughout the subcontinent Deaths related to AIDS have driven down the life expectancy rate of residents in Zambia Kenya and Uganda with far reaching implications This book details the current state of the AIDS epidemic in Africa and what is known about the behaviors that contribute to the transmission of the HIV infection It lays out what research is needed and what is necessary to design more effective prevention programs

**Tools for Building Culturally Competent HIV Prevention Programs** Julie Solomon, Jacquelin Berman, 2007-11-01 A comprehensive guide to creating implementing and evaluating culturally competent HIV prevention programs Recent literature on effective HIV AIDS prevention programs underscores the importance of cultural sensitivity and cultural competence in the delivery of services and care Successful prevention interventions must be tailored for their target populations Yet many HIV AIDS prevention professionals struggle to meet the specific needs of their communities Tools for Building Culturally Competent HIV Prevention Programs contains a variety of well informed evidence based approaches to HIV prevention programs It offers all the tools practitioners need to launch an effective prevention program from identifying program goals and objectives to developing program models to recruiting and retaining staff and finally to conducting evaluations and reporting results All material is filtered through a cultural perspective and methods are tailored to specific racial ethnic and socioeconomic groups Additional resources are included to assist in the preparation and development of your prevention program such as Federal standards and guidelines for culturally competent health care and social service provision True life case studies that show how other HIV prevention programs succeeded Checklists worksheets and templates to create monitor and manage your program The CD includes Customizable checklists and worksheets that you can use in your program A demonstration of the Virtual Program Evaluation Consultant VPEC software program a program evaluation service offered by Sociometrics Corporation Purchasers of this book will get a three month license to VPEC free Use the companion volume The Complete HIV AIDS Teaching Kit with CD ROM in your prevention program to assist you in providing an overview of the incidence prevalence prevention and treatment of HIV AIDS to all your students patients or clients

**Sexual Interactions and HIV Risk** Luc van Campenhoudt, 1997 This work examines the

theories and perspectives involved in the study of sexual risk behaviour and HIV It provides a framework for analysis based on sexual interactions and their social context *Evaluating HIV Prevention Interventions* Joanne E. Mantell,Anthony T. DiVittis,Marilyn I. Auerbach,2013-06-29 This user friendly comprehensive guide places evaluation in the context of HIV to give all health care professionals the necessary tools for developing and implementing successful HIV interventions Every aspect of evaluation is discussed including the social and political context of evaluation coding and inter rater reliability procedures barriers to evaluation and solution the dissemination of results the application of theory to HIV interventions Case studies and examples from both the US and abroad to illustrate practical issues and numerous tables and figures complement the text **Preventing HIV in Developing Countries** Laura Gibney,Ralph J. DiClemente,Sten H.

Vermund,2006-04-11 Globally action to prevent HIV spread is inadequate Over 16 000 new infections occur every day Yet we are not helpless in the face of disaster as shown by the rich prevention experience analyzed in this valuable new compendium Best practice exists a set of tried and tested ways of slowing the spread of HIV of persuading and enabling people to protect themselves and others from the virus Individually features of best practice can be found almost everywhere The tragedy on a world scale is that prevention is spotty not comprehensive the measures are not being applied on anywhere near the scale needed or with the right focus or synergy The national response may concentrate solely on sex workers for example Elsewhere efforts may go into school education for the young but ignore the risks and vulnerability of men who have sex with men Action may be patchy geographically AIDS prevention may not benefit from adequate commitment from all parts and sectors of society compromising the sustainability of the response In some countries matters are still worse there is still hardly any action at all against AIDS and scarcely any effort to make HIV visible It is no wonder that the epidemic is still emerging and in some places is altogether out of control Group-Centered Prevention Programs for At-Risk Students Elaine Clanton Harpine,2010-11-09 School psychologists counselors and educators in the K 12 setting face the daunting responsibility of finding balance between mandated testing students mental health concerns and additional academic help for at risk students One solution to this dilemma is to implement a school based mental health approach that combines learning and counseling needs into a single program Several types of successful programs are available though week long intensive programs have recently increased in popularity Group Centered Prevention Programs for At Risk Students focuses on the development of such a week long prevention program and provides professionals with step by step directions to create their own program It also focuses on the use of group centered interventions as an opportunity to prevent at risk behaviors as a means of correcting or changing dysfunctional behavior This highly readable volume addresses such challenging issues as Using self reflection to teach writing skills Increasing interpersonal interaction while honing etiquette Enhancing group acceptance and reading comprehension Rebuilding self efficacy by increasing word recognition and decoding skills With its solid research foundation combined with clear practical program descriptions this volume is an essential addition to the

libraries of researchers and practitioners alike in the disciplines of school psychology education social work psychotherapy and counseling and clinical child psychology
