Preventing Substance Abuse Interventions That Work:

Preventing Substance Abuse Michael J. Stoil, Gary Hill, Gary Allan Hill, 1996-10-31 Preventing Substance Abuse is an informal guide to successful programs for treating specific substance abuse problems identifying their origins implementation outcomes and where possible contacts for obtaining additional information The emphasis is on information documented from outcomes of successful interventions rather than on theories of what should work or what works under experimental conditions Key features include easy to follow charts and graphs and an appendix summarizing the National Structured Evaluation mandated by Congress of substance abuse prevention *Encyclopedia of Substance Abuse Prevention, Treatment, and Recovery* Gary L. Fisher, Nancy A. Roget, 2009 This collection provides authoritative coverage of neurobiology of addiction models of addiction sociocultural perspectives on drug use family and community factors prevention theories and techniques professional issues the criminal justice system and substance abuse assessment and diagnosis and more *Substance Abuse Intervention, Prevention, Rehabilitation, and Systems Change* Edith Freeman, 2001-09-26 This book is the first to utilize the empowerment approach of social work practice with substance abusing clients bridging clinical community and social policy approaches in order to place individual addiction in its sociopolitical context As Lorraine Gutierrez points out in her foreword the book challenges us to transform our thinking about substance abuse and move beyond our existing focus on individual deficits Arguing that pathology focused definitions of substance abuse tend to transform people into their problems Freeman instead advocates for strengths centered policies and regulations as the means to empower clients communities and society as a whole Freeman outlines basic empowerment principles and practices then details the service delivery processes offers a context for power policy and funding decisions and examines the needs of special populations Case examples supplement each chapter and the final part examines four exemplary programs that demonstrate the empowerment process in action **Drug Abuse Prevention Intervention Research** National Institute on Drug Abuse, 1991 This monograph is based on the papers and discussion from a technical review on Drug Abuse Prevention Intervention Research Methodological Issues held on May 22 23 1989 Rockville MD The review meeting was sponsored by the National Institute on Drug Abuse Preventing Substance Abuse Among Children and Adolescents Prakash L. Grover, Center for Substance Abuse Prevention (U.S.). Division of State and Community Systems Development, 1998 Effective Prevention and Treatment of Substance Use Disorders for Racial and Ethnic Minorities Erick Guerrero, Tenie Khachikian, 2020-03-11 Despite the significant burden of substance use disorders SUD across the world SUD treatment systems face significant challenges to ensure immediate access to effective care Prevention and treatment of SUDs is generally underfunded and its effectiveness to reduce substance use is frequently questioned This book presents system level factors that may contribute to improving SUD prevention and treatment particularly for underserved and racial and ethnic minority populations The authors provide theory based approaches to prevention as well as evidence based spiritual

managerial and leadership approaches to improve the effectiveness of SUD treatments These approaches include modifiable system and organizational level factors that policy makers healthcare administrators treatment providers and consumers can use to reduce the significant socio economic burden of SUD on our society Drug Abuse Prevention Through Family Interventions Rebecca S. Sloboda, William J. Bukoski, 2007-08-06 There are a number of reasons why this book is important First there is no one source that summarizes what we know about the prevention of substance abuse from the research field so the book serves as a repository of accumulated knowledge on prevention theory intervention design and development and prevention research methodology Second as an evolving field prevention science has only begun to assert itself in both the arenas of practice and policy The formation of the Society for Prevention Research in 1991 was the first recognition that a science of prevention existed and required a separate forum to present the rapidly growing content of the field for discussion and review Finally there is a need to establish a baseline a reference point against which progress in the field of prevention science can be assessed This book serves all of these purposes The idea for this book grew from the observation in the early 1990s that after decades of attempts to develop effective interventions to prevent drug use among children and adolescents in the United States that we were finally having success particularly in addressing the initiation of use These successes are the result of research that has provided a better understanding of the factors and processes associated with the onset of substance use

Measuring the Effectiveness of Drug Addiction Treatment United States. Congress. House. Committee on Government Reform. Subcommittee on Criminal Justice, Drug Policy, and Human Resources, 2004

Drug Abuse: Prevention and Treatment Mangai Natarajan, 2017-05-15 Ever since the Shanghai convention in 1909 the threat posed to human well being by drug abuse has led countries around the world to take action to deal with their drug problems There are wide variations in the policies pursued but most countries try to reduce both the supply of and the demand for drugs Unfortunately there is little research consensus on the respective merits of these two approaches or about the best ways to pursue them Consequently control and prevention policies are mostly driven by political considerations economic realities and cultural expectations though research has played an important part in formulating and evaluating treatments for drug addiction This volume reviews studies on drug abuse prevention and treatment strategies under five main areas 1 Reducing supply strategies to control the flow of drugs from production to retail distribution 2 Reducing demand prevention of drug use at all stages of involvement and consumption levels 3 Reducing harm promoting situational risk reduction practices for regular users addicts and recreational users 4 Reducing addiction drug treatment options for various groups in various settings and 5 Drug policies and prescriptions focused on debates about prohibition and legalization
