Prospects for Growth Kenneth D. Wilson,1977 *The White House Conference on Balanced National Growth & Economic Development* ,1978 **The White House Conference on Balanced National Growth and Economic Development** ,1978 Final Report, July 1978 ,1978 *Final Report: Public Forum written submissions* ,1978

Housing and Planning References ,1978 *Public forum written submissions* ,1978 Handbook of Ecosystem Theories and Management Felix Muller,2000-02-10 As part of the Environmental and Ecological Modeling Handbooks series the Handbook of Ecosystem Theories and Management provides a comprehensive overview of ecosystem theory and the tools ecological engineering ecological modeling ecotoxicology and ecological economics to manage these systems The book is laid out to provide a summary or survey of each topic using many tables and figures Concepts definitions important findings basic hypotheses important correlations between theories and observation with illustrative graphs are included The comprehensive treatment of ecosystem theory and application of theoretical tools and the integration of classical theory and real world examples sets this book apart It covers newly emerging topical areas as well as nontraditional topical areas i e chaos that will interest professionals trained in previous decades and enlighten those now entering into formal training The general approach taken by the authors makes this an essential reference and handbook for professionals and students Peace and World Order Studies Barbara J. Wien,1978-01-01 *Shrinking the Earth* Donald Worster,2016-01-08 The discovery of the Americas around 1500 AD was an extraordinary watershed in human experience It gave rise to the modern period of human ecology a phenomenon global in scope that set in motion profound changes in almost every society on earth This new period which saw the depletion of the lands of the New World proved tragic for some triumphant for others and powerfully affecting for all In this work acclaimed environmental historian Donald Worster takes a global view in his examination of the ways in which complex issues of worldwide abundance and scarcity have shaped American society and behavior over three centuries Looking at the limits nature imposes on human ambitions he questions whether America today is in the midst of a shift from a culture of abundance to a culture of limits and whether American consumption has become reliant on the global South Worster engages with key political economic and environmental thinkers while presenting his own interpretation of the role of capitalism and government in issues of wealth abundance and scarcity Acknowledging the earth s agency throughout human history Shrinking the Earth offers a compelling explanation of how we have arrived where we are and a hopeful way forward on a planet that is no longer as large as it once was **Green Accounting** Peter Bartelmus,E.K. Seifert,2018-01-12 This title was first published in 2003 Our cherished economic indicators of income product consumption and capital fail in taking a long term view of social progress They do not account for environmental deterioration which impairs the quality of life of present and future generations and hence the sustainability of development Greening the conventional national and corporate accounts introduces environmental impacts and costs into these accounts and balances The result is a new

compass for steering the economy towards sustainability which may change not only our main measures of economic performance but also the basic tenets of environmental and resource policies This book presents methodological advances and case studies of environmental accounting and discusses their use in environmental management and policies In their introduction the editors provide a critical perspective of historical developments and current debates **Bioeconomics and Sustainability** Nicholas Georgescu-Roegen,Kozo Mayumi,John M. Gowdy,1999-01-01 Economists from around the world discuss Georgescu Roegen s 1906 94 theories in a number of areas but especially on environmental and energy economics They address such topics as how long neoclassical economists can continue to ignore his contribu *Catalog of Copyright Entries. Committee on Science and Technology,1978 Politics And Economics Of External Debt Crisis Miguel S. Wionczek,Luciano Tomassini,2019-09-11 Since 1981 Latin America has been in the midst of a protracted external debt crisis due among other reasons to emergency borrowing at record high real interest rates and the decline in the region s export proceeds Until now most literature on the subject originated in industrial lender countries whose primary concern is the impact of the debt **For The Common Good** Herman E. Daly,1994-04-01 Winner of the Grawemeyer Award for Ideas Improving World Order 1992 Named New Options Best Political Book Economist Herman Daly and theologian John Cobb Jr demonstrate how conventional economics and a growth oriented industrial economy have led us to the brink of environmental disaster and show the possibility of a different future Named as one of the Top 50 Sustainability Books by University of Cambridges Programme for Sustainability Leadership and Greenleaf Publishing National Planning In The United States David E. Wilson,2019-03-13 This annotated bibliography of more than 2 000 entries current through 1977 sheds light on the national planning idea as a substantive issue in past present and future U S public policy presents a bibliographic structure that suggests new emphases relationships and interdisciplinary approaches and makes more easily accessible to students a **The Social and Cultural Construction of Risk** B.B. Johnson,V.T. Covello,2012-12-06 The Social and Cultural Construction of Risk Issues Methods and Case Studies Vincent T Covello and Branden B Johnson Risks to health safety and the environment abound in the world and people cope as best they can But before action can be taken to control reduce or eliminate these risks decisions must be made about which risks are important and which risks can safely be ignored The challenge for decision makers is that consensus on these matters is often lacking Risks believed by some individuals and groups to be tolerable or accept able such as the risks of nuclear power or industrial pollutants are intolerable and unacceptable to others This book addresses this issue by exploring how particular technological risks come to be selected for societal attention and action Each section of the volume examines from a different perspective how individuals groups communities and societies decide what is risky how risky it is and what should be done The writing of this book was inspired by another book Risk and Culture An Essay on the Selection of Technological and Environmental Dangers

Published in 1982 and written by two distinguished scholars Mary Douglas a British social anthropologist and Aaron Wildavsky an American political scientist the book received wide critical attention and offered several provocative ideas on the nature of risk selection perception and acceptance *Ambiguities in Decision-oriented Life Cycle Inventories* Frank Werner, 2006-03-30 In an environmental life cycle assessment of products LCA an unambiguous scientifically based objective attribution of material and energy flows to a product is pure fiction This is due to the fundamental epistemological conditions of LCA as a modelling process under the complexity of our socio economic system Instead various mental models and values guide this attribution This leads to a functional model in a specific decision situation This book shows for the first time how mental models and values influence this attribution in the life cycle inventory step of LCA One of the key findings is that the different management rules for a sustainable use of materials must be taken into account for the attribution of material and energy flows to a product Otherwise improvement options recommended by an LCA might turn out to even worsen the environmental situation if reassessed from a meta perspective As a consequence of this book the claim of unambiguity objectivity of the life cycle inventory must be abandoned A group model building process for LCA is developed that allows one to grasp the decision makers mental models and values in the inventory analysis on a case and situation specific basis Only by this LCA results will become relevant in a decision making process Two case studies on the modelling of recycling and other end of life options of aluminium windows and beech wood railway sleepers in LCA complement the methodological part This book is a must have for researchers consultants and practitioners in the fields of decision oriented life cycle assessment as well as product related environmental management modelling and decision making **Energy** Joseph Russell Rudolph, 1995 A road map for the novice researcher contemplating the broad field affected by and concerned with energy
