Ritual Perspectives And Dimensions:

Ritual Catherine Bell, From handshakes and toasts to chant and genuflection ritual pervades our social interactions and religious practices Still few of us could identify all of our daily and festal ritual behaviors much less explain them to an outsider Similarly because of the variety of activities that qualify as ritual and their many contradictory yet in many ways equally legitimate interpretations ritual seems to elude any systematic historical and comparative scrutiny In this book Catherine Bell offers a practical introduction to ritual practice and its study she surveys the most influential theories of religion and ritual the major categories of ritual activity and the key debates that have shaped our understanding of ritualism Bell refuses to nail down ritual with any one definition or understanding Instead her purpose is to reveal how definitions emerge and evolve and to help us become more familiar with the interplay of tradition exigency and self expression that goes into constructing this complex social medium

Ritual Catherine M. Bell, 1997 Catherine Bell provides a practical introduction to ritual and its study with comprehensive overviews of the most influential theories of religion and ritual The book examines the major categories of ritual activity

Vedic Practice, Ritual Studies and Jaimini's Mīmāṃsāsūtras Samuel G. Ngaihte, 2019-06-27 Drawing on insights from Indian intellectual tradition this book examines the conception of dharma by Jaimini in his Mīmāṃsāsūtras assessing its contemporary relevance particularly within ritual scholarship Presenting a hermeneutical re-reading of the text it investigates the theme of the relationship between subjectivity and tradition in the discussion of dharma bringing it into conversation with contemporary discourses on ritual The primary argument offered is that Jaimini's conception of dharma can be read as a philosophy of Vedic practice centred on the enjoinder of the subject whose stages of transformation possess the structure of a hermeneutic tradition Offering both substantive and methodological insights into the contentions within the contemporary study of ritual this book will be of interest to

researchers in the fields of Hindu studies ritual studies Asian religion and South Asian studies

The Dysfunction of Ritual in Early Confucianism Michael David Kaulana Ing, 2012-11-01 In The Dysfunction of Ritual in Early Confucianism

Michael Ing describes how early Confucians coped with situations where their rituals failed to achieve their intended aims. In contrast to most contemporary interpreters of Confucianism, Ing demonstrates that early Confucian texts can be read as arguments for ambiguity in ritual failure. If, as discussed in one text, Confucius builds a tomb for his parents unlike the tombs of antiquity and rains fall causing the tomb to collapse, it is not immediately clear whether this failure was the result of random misfortune or the result of Confucius straying from the ritual script by building a tomb incongruent with those of antiquity. The Liji Record of Ritual, one of the most significant yet least studied texts of Confucianism, poses many of these situations and suggests that the line between preventable and unpreventable failures of ritual is not always clear. Ritual performance in this view is a performance of risk. It entails rendering oneself vulnerable to the agency of others and resigning oneself to the need to vary from the successful rituals of past, thereby moving into untested and uncertain territory. Ing's book is the first monograph in English about the Liji, a text that purports to be the writings of Confucius's immediate disciples and included in the earliest canon of Confucian texts called The Five Classics several centuries before the Analects. It challenges some common assumptions of contemporary interpreters of Confucian ethics, in particular the idea that a cultivated ritual agent is able to recognize which failures are within his sphere of control to prevent and thereby render his happiness invulnerable to ritual failure.

An Ecofeminist Perspective on Ash Wednesday and Lent Sylvia A. Sweeney, 2010. An Ecofeminist Perspective on Ash Wednesday and Lent develops a conversation between classical historical Lenten practices and contemporary Christian ecofeminism. Building on David Tracy's definition of a religious classic, it includes a historical examination of the development of Lent and the Ash Wednesday rites beginning from wellsprings in the early church traditions of penance, catechumenal preparation, and asceticism through medieval and reformation expressions of the rite to their twentieth-century Episcopal iteration in the 1979 Book of Common Prayer. In the discussion of ecofeminism, women's death experiences and current ecofeminist writings are used to develop an ecofeminist hermeneutic of mortality.

Ritual and Symbol in Peacebuilding Lisa Schirch, 2005. Serves as a guide to using ritual acts in peacebuilding efforts. Abundant with examples of symbolic acts that aided the peace process. Conflict is dramatic. In theater literature, story telling, and news reporting, it is a powerful mechanism that draws attention, heightens the senses, and evokes emotion. Schirch argues that peacebuilding has the potential to do just the same. Examples of peacebuilding often center on the serious, rational negotiations and formal problem solving efforts in conflict situations. Schirch argues, though, that what truly bonds adversaries and helps achieve peace are the symbolic, non-verbal ritual acts: shaking hands, sharing a meal, showing a photograph of a loved one. Yet these are often overlooked as deliberate components of peace negotiations. *Ritual and Symbol in Peacebuilding* underscores the importance of incorporating symbolic tools, including ritual, into traditional approaches to conflict. Ritual assists in solving complex, deep-rooted conflicts and helps to confirm and transform worldviews, identities, and relationships. With theories and language to explain the symbolic dimensions of conflict, this text will be useful to scholars and

practitioners active in the diverse field of peacebuilding

Critical Terms for Religious Studies Mark C.

Taylor, 2013-07-09 A century that began with modernism sweeping across Europe is ending with a remarkable resurgence of religious beliefs and practices throughout the world. Wherever one looks today from headlines about political turmoil in the Middle East to pop music and videos, one cannot escape the pivotal role of religious beliefs and practices in shaping selves, societies, and cultures. Following in the very successful tradition of *Critical Terms for Literary Studies* and *Critical Terms for Art History*, this book attempts to provide a revitalized self-aware vocabulary with which this bewildering religious diversity can be accurately described and responsibly discussed. Leading scholars working in a variety of traditions demonstrate through their incisive discussions that even our most basic terms for understanding religion are not neutral but carry specific historical and conceptual freight. These essays adopt the approach that has won this book's predecessors such widespread acclaim: each provides a concise history of a critical term, explores the issues raised by the term, and puts the term to use in an analysis of a religious work, practice, or event. Moving across Judaism, Christianity, Hinduism, Buddhism, Islam, and Native American and Mayan religions, contributors explore terms ranging from experience, territory, and image to God, sacrifice, and transgression. The result is an essential reference that will reshape the field of religious studies and transform the way in which religion is understood by scholars from all disciplines, including anthropology, sociology, psychology, cultural studies, gender studies, and literary studies.

Cultural Approaches to Studying Religion M. Cooper, Minister, Sarah J.

Bloesch, 2023-11-30 Examining the analytic tools of scholars in religious studies as well as in related disciplines that have shaped the field, this updated textbook includes cultural approaches from anthropology, history, literature, and critical studies in race, sexuality, and gender. Each chapter is written by a leading scholar and includes the biographical and historical context of each theorist, their approaches, and key writings. Analysis and evaluation of each theory, a list of key terms, suggested further reading. Part One: Comparative Approaches considers how major features such as taboo, texts, myths, and ritual work across religious traditions. This section explores the work of Mary Douglas, Phyllis Klistner, Wendy Doniger, Catherine Bell, and new to this edition, Tomoko Masuzawa, whose contributions reveal the colonialist assumptions of the comparative world religions model. Part Two: Examining Particularities analyzes the comparative approach through the work of Alice Walker, Charles Long, and Caroline Walker Bynum, who all suggest that the specifics of race, body, place, and time must be considered. Part Three: Expanding Boundaries examines Gloria Anzaldúa's language of religion as well as the work of Judith Butler on performative queer theories of religion. Saba Mahmood, whose work considers postcolonial religious encounters, secularism, and the relationship between East and West. New to this edition is Jasbir Puar's work on affect, gender, sexuality, and disability. Along with a list of key terms, each section now includes an introduction highlighting the contributions of each thinker and their relation to previous theories that dominated the field.

The Oxford Handbook of Religion and Emotion John Corrigan, 2008 This volume collects essays under four categories religious traditions religious life emotional states and historical and theoretical perspectives They describe the ways in which emotions affect various world religions and analyse the manner in which certain components of religious represent and shape emotional performance

Late Medieval Liturgies Enacted Sally Harper, P Barnwell, Magnus Williamson, 2017-07-12 This book critically explores ways in which our understanding of late medieval liturgy can be enhanced through present day enactment It is a direct outcome of a practice led research project led by Professor John Harper and undertaken at Bangor University between 2010 and 2013 in partnership with Salisbury Cathedral and St Fagans National History Museum near Cardiff The book seeks to address the complex of ritual devotional musical physical and architectural elements that constitute medieval Latin liturgy whose interaction can be so difficult to recover other than through practice In contrast with previous studies of reconstructed liturgies enactment was not the exclusive end goal of the project rather it has created a new set of data for interpretation and further enquiry Though based on a foundation of historical musicological textual architectural and archaeological research new methods of investigation and interpretation are explored tested and validated throughout There is emphasis on practice led investigation and making the need for imagination and creativity and the fact that enactment participants can only be of the present day Discussion of the processes of preparation analysis and interpretation of the enactments is complemented by contextual studies with particular emphasis on the provision of music A distinctive feature of the work is that it seeks to understand the experiences of different groups within the medieval church the clergy their assistants the singers and the laity as they participated in different kinds of rituals in both a large cathedral

and a small parish church Some of the conclusions challenge interpretations of these experiences which have been current since the Reformation In addition some consideration is given to the implications of understanding past liturgy for present day worship

With Ever Joyful Hearts J. Neil Alexander, Marion J. Hatchett, 1999 The occasion of Dr Hatchett's thirtieth anniversary as professor of liturgics and church music at the School of Theology of the University of the South is being celebrated with this stimulating collection of essays by an international cadre of authors

Teaching Ritual Catherine Bell, 2007-05-11 Many teachers share an interest in bringing a better appreciation of ritual into their religious studies classes but are uncertain how to do it Religious studies faculty know how to teach texts but they often have difficulty teaching something for which the meaning lies in the doing How do you teach such doing How much need be done How does the teacher talk about the religiosity that exists in personalized relationships not textual descriptions or prescriptions These practical issues also give rise to theoretical questions Giving more attention to ritual effectively suggests a reinterpretation of religion itself an understanding less focused on what people have thought and written and more focused on how they engage their universe Many useful analyses of ritual derive from anthropological and sociological premises which may be foreign to religious studies faculty and even seen by some as theologically problematic This is the first resource to address the issues specific to teaching this subject A stellar cast of contributors all scholars of ritual and teachers experienced in using ritual in a wide variety of courses and settings explain what has worked for them in the classroom what has not and what they have learned from the experience of being more real about religion Their voices range from personal to formal their topics from ways to use field trips to the role of architecture The result is a rich guide for teachers who are new to the subject as well as the experienced willing to think about new angles and fresh approaches

Ritual Innovation Brian K. Pennington, Amy L. Allocco, 2018-02-01 Challenges prevailing conceptions of what religious ritual does and how it achieves its ends Religious rituals are often seen as unchanging and ahistorical bearers of long standing traditions But as this book demonstrates ritual is a lively platform for social change and innovation in the religions of South Asia Drawing from Hindu and Jain examples in India Nepal and North America the essays in this volume written by renowned scholars of religion explore how the intentional conscious and public invention or alteration of ritual can effect dramatic social transformation whether in dethroning a Nepali king or sanctioning same sex marriage Ritual Innovation shows how the very idea of ritual as a conservative force misreads the history of religion by overlooking ritual's inherent creative potential and its adaptability to new contexts and circumstances The breadth of coverage in Ritual Innovation is extraordinary and refreshing in terms of the types of contemporary ritual practices and practitioners receiving attention not to mention the geographic spread across South Asia This book makes a significant contribution to the scholarly literature on South Asian religions and contemporary Hinduism Karline McLain author of The Afterlife of Sai Baba Competing Visions of a Global Saint

The Sacraments Joseph Martos, 2009-08-01 What are the sacraments really For centuries the religious lives of Catholics and other Christians have revolved around church rituals with generally accepted individual and social effects What precisely are those effects and how are they produced Traditional theology used Greek philosophy to understand the sacraments and how they work But is there no other way to understand them In fact there are a number of ways and this book invites you to look at the sacraments through a variety of lenses psychology sociology anthropology history theology morality and spirituality As the introduction to this volume challenges If you read this book and especially if you engage in the interactive study to which it invites you your understanding of sacraments will be changed forever To help personalize your investigation the author has created a web site with thought provoking questions that encourage you to interact with the ideas being proposed in this volume To engage these topics more deeply see [www TheSacraments org](http://www.TheSacraments.org) **Do This in Remembrance of Me** Martha L. Moore-Keish, 2008-03-10 The Reformed tradition has often made doctrine the starting point for eucharistic theology In this book Martha Moore Keish seeks to counter that tendency placing the Reformed tradition in conversation with liturgical theology and ritual theory to move toward a fuller appreciation of the ritual dimension of the Lord s Supper While liturgical theologians assert more strongly than most Reformed theologians that knowledge of God comes primarily through liturgy both groups says Moore Keish have not always attended closely to local practice In keeping with ritual scholars who urge closer attention to particular practices Moore Keish argues that we need to be cautious about claiming what the eucharist universally is and does We must not allow predetermined meaning to blind us to the doing of eucharist in local churches An in depth study of a particular congregation helps flesh out Moore Keish s thesis *Applied Theatre: Performing Health and Wellbeing* Veronica Baxter, Katharine E. Low, 2017-01-26 *Applied Theatre Performing Health and Wellbeing* is the first volume in the field to address the role that theatre drama and performance have in relation to promoting developing and sustaining health and wellbeing in diverse communities Challenging concepts and understanding of health wellbeing and illness it offers insight into different approaches to major health issues through applied performance With a strong emphasis on the artistry involved in performance based health responses situated within a history of the field of practice the volume is divided into two sections Part One examines some of the key questions around research and practice in applied performance in health and wellbeing specifically addressing the different regional challenges that dominate the provision of health care and influence wellbeing how the ageing population of the global north creates pressure on lifetime healthcare provision while the global south is dominated by a higher birth rate and a larger population under 15 years old Part Two comprises case studies and interviews from international practitioners that reflect the diversity of practices across the world and in particular differences between work in the northern and southern hemispheres These case studies include a sanitation project in a Hmong refugee camp in Thailand in the 1980s and the sanitation and rural development projects initiated by the travelling theatre troupes of a number of University theatre departments in Africa

The Oxford Handbook of Ritual and Worship in the Hebrew Bible Samuel E. Balentine, 2020 The conceit in the title of this volume is that ritual however expansively it may be defined is ineluctably tethered to religion and worship It has a primal connection to the idea that a transcendent order numinous and mysterious supranatural and elusive divine and wholly other gives meaning and purpose to life The construction of rites and rituals enables humans to conceive and apprehend this transcendent order to symbolize it and interact with it to postulate its truths in the face of contradicting realities and to repair them when they have been breached or diminished The focus of this Handbook is on ritual and worship from the perspective of biblical studies particularly on the Hebrew Bible and its ancient Near Eastern antecedents Within this context attention will be given to the development of ideas in Jewish Christian and Muslim thinking but only insofar as they connect with or extend the trajectory of biblical precedents The volume reflects a wide range of analytical approaches to ancient texts inscriptions iconography and ritual artifacts It examines the social history and cultural knowledge encoded in rituals and explores the way rituals shape and are shaped by politics economics ethical imperatives and religion itself Toward this end the volume is organized into six major sections Historical Contexts Interpretive Approaches Ritual Elements participants places times objects practices Underlying Cultural and Theological Perspectives History of Interpretation Social Cultural Functions and Theology and Theological Heritage
