Rituals Of Respect:

Rituals of Respect Inge Bolin,1998-11-01 In the remoteness of their mountain retreat the herders of Chillihuani Peru recognize that respect for others is the central and most significant element of all thought and action observes Inge Bolin Without respect no society no civilization can flourish for long Without respect humanity is doomed and so is the earth sustainer of all life In this beautifully written ethnography Bolin describes the rituals of respect that maintain harmonious relations among people the natural world and the realm of the gods in an isolated Andean community of llama and alpaca herders that reaches up to 16 500 feet Bolin was the first foreigner to visit Chillihuani and she was permitted to participate in private family rituals as well as public ceremonies In turn she allows the villagers to explain the meaning of their rituals in their own words From these first hand experiences Bolin offers an intimate portrait of an annual ritual cycle that dates back to Inca and pre Inca times including the ancient Pukllay weddings the Fiesta de Santiago with its horse races on the top of the world and Peru s Independence Day when the Rituals of Respect for elders and young people alike are carried out within male and female hierarchies reminiscent of Inca times

Ritual and the Moral Life David Solomon,Ruiping Fan,Ping-cheung Lo,2012-03-26 In the twentieth century in both China and the West ritual became marginalized in the face of the growth of secularism and individualism In China Confucianism and its essentially ritualistic comportment to the world were vigorously suppressed during the Cultural Revolution 1966 1976 under Mao Zedong But de ritualization already took place as a result of the Chinese Revolution of 1911 under Sun Yat Sen In the West while the process of de ritualization has been generally more gradual it has been nonetheless drastic In contrast to this situation this volume investigates the crucial role ritual plays in constituting the human understanding of their place in the cosmos the purpose of their lives and imbues human existence with a more complete sense of meaningfulness This volume presents the work of philosophers from both China and the West as they reflect upon the constitutive role that ritual plays in human life They reflect not only on ritual in general but also on specific Confucian and Christian appreciations of ritual This provocative volume is a beacon of warning to Western philosophers who think they have graduated from the trappings of ritual and a beacon of hope for Eastern thinkers who wish to avoid cultural fragmentation The Editors both Eastern and Western have together created a seamless work that not only introduces ritual but advances an argument for the contribution that ritual makes to cultural renewal This volume is a work of philosophical thinking about ritual doing but challenges those who think to realize that the salvation of philosophical thinking rests in the particularity and contingency of ritual doing Let us hope this volume is widely read for it points to that which might renew the West Jeffrey P Bishop Saint Louis University

The Oxford Handbook of Émile Durkheim Hans Joas, Andreas Pettenkofer, 2024. Émile Durkheim remains one of the most controversial and one of the most deeply misunderstood classics of social theory. The Oxford Handbook of Émile Durkheim takes stock of the different recent debates on Durkheimian sociology and makes them accessible to a wide audience spanning various disciplines. This includes crucial debates that, due to language barriers, are not easily accessible for an English reading public. In doing so, this volume is an important resource for all scholars and students looking to understand Durkheimian sociology.

Whose Tradition? Which Dao? James F. Peterman, 2014-12-03. In an incisive work of comparative philosophy, James F. Peterman considers the similarities between early Chinese ethicist Confucius and mid-twentieth-century philosopher Ludwig Wittgenstein. Their enduring legacies rest in no small part on projects to restore humanity to healthy ways of living and thinking. Confucius offers a method of answering ethical questions designed to get his interlocutors further along on the Dao, the path of right living. Struggling with his own forms of unhealthy philosophical confusion, Wittgenstein provides a method of philosophical therapy designed to help one come into agreement with norms embedded in our forms of life and speech. Highlighting similarities between the two philosophers, Peterman shows how Wittgensteinian critique can benefit from Confucian inquiry and how Confucian practice can benefit from Wittgensteinian investigations. Furthermore, in presenting a way to understand Confucius's Dao as concrete language games and forms of life, and Wittgenstein's therapeutic interventions as the most fitting philosophical orientation toward early Confucian ethics, Peterman offers Western thinkers a new sophisticated understanding of Confucius as a philosopher.

Respecting Persons in Theory and Practice Jan Narveson,2002 Respecting Persons in Theory and Practice is a collection of essays of the moral and political philosophy of Jan Narveson The essays in this collection share a consistent theme running through much of Narveson s moral and political philosophy namely that politics and morals stem from the interests of individual people and have no antecedent authority over us Rather the source of such authority lies in the way people are related to one another and most especially in the exigencies of cooperation Humans have plenty of problems Narveson argues but we are perhaps unique among animals in that our worst enemies often enough are other humans The rules of

morals and the devices of politics in the view Narveson holds deal with these problems by identifying the potential for gain from cooperation and loss from the reverse The essays express a collective antipathy for the ways in which modern political and moral philosophy has ridden roughshod over sane and efficient social restrictions leaving us with a social scene devoted mainly to satisfying the cravings for power of the politically ambitious Politics Narveson argues with distress has subverted morals The essays in this collection in various ways and as applied to various aspects of the scene detail these charges arguing that the ultimate and true point of politics and morals is to enable us to make our lives better according to our varied senses of what that might mean

Interaction Theodore D. Kemper, 2016-04-01 Sociologists mile Durkheim Erving Goffman and Randall Collins broadly suppose that ritual is foundational for social life By contrast this book argues that ritual is merely surface beneath which lie status and power the behavioral dimensions that drive all social interaction Status Power and Ritual Interaction identifies status and power as the twin forces that structure social relations determine emotions and link individuals to the reference groups that deliver culture and administer preferences actions beliefs and ideas An especially important contention is that allegiance to ideas even those as fundamental as the belief that 1 1 2 is primarily faithfulness to the reference groups that foster the ideas and not to the ideas themselves This triggers the counter intuitive deduction that the self a concept many sociologists social psychologists and therapists prize so highly is feckless and irrelevant Status power theory leads also to derivations about motivation play humor sacred symbols social bonding creative thought love and sex and other social involvements now either obscure or misunderstood Engaging with Durkheim on collective effervescence Goffman on ritual cum public order and Collins on interaction ritual this book is richly illustrated with instances of how to examine many

central questions about society and social interaction from the status power perspective It speaks not only to sociologists but also to anthropologists behavioral economists and social and clinical psychologists to all disciplines that examine or treat of social life
