**River Warfare in Vietnam** Robin L. Rielly, 2024-02-19 America's entrance into the wars in Vietnam came as a result of several factors Among them was the necessity of bolstering French influence in the area in the face of mounting communist expansion This expansion was intensified by the outbreak of the Korean War making it necessary for the United States to revamp its Southeast Asian policy During the French era control of Vietnam's rivers streams and canals became necessary This led various factions to develop specialized military units heavily dependent on new types of river craft that could traverse the myriad waterways in Vietnam The focal point of this study is a new assessment of the conduct of river warfare Drawing on little known French Vietnamese and American sources and materials it sheds light on an important aspect of the Vietnam War Chapters also detail numerous aspects of river warfare not generally covered in other books on the subject

Frankum, Jr., 2014-04-10 Vietnam's Year of the Rat explores the lunar New Year 1960 and the dynamic relationship between two competing groups vying for control in the Republic of Vietnam. One group led by United States Ambassador Elbridge Durbrow worked toward directing Vietnam towards an American style democracy that focused on forcing reforms within the Saigon government. The other group headed by Republic of Vietnam President Ngo Dinh Diem attempted to navigate the demands of Durbrow and the State Department and to confront internal opposition and an emerging external threat while trying to further the goals of the Republic. The result was a series of failed opportunities by both sides to resolve the differences of the two complementary if conflicting strategies. Vietnam's Year of the Rat offers an alternative to the now standard historiography for this period of the study in the Vietnam War by providing a Vietnamese viewpoint into the story of that long and tragic war.

**Text, Lies and Cataloging** Jana Brubaker, 2018-07-10 What do James Frey's *A Million Little Pieces*, Margaret B Jones' *Love and Consequence* and Wanda Koolmatrie's *My Own Sweet Time* have in common? None of these popular books are what they appear to be. Frey's fraudulent drug addiction memoir was really a semi-fictional novel. Jones' chronicle of her life in a street gang was a complete fabrication and Koolmatrie was not an Aboriginal woman removed from her family as a child as in her seemingly autobiographical account but rather a white taxi driver named Leon. Carmen Deceptive literary works mislead readers and present librarians with a dilemma. Whether making recommendations to patrons or creating catalog records, objectivity and accuracy are crucial and can be difficult when a book's authorship or veracity is in doubt. This informative and entertaining study addresses ethical considerations for deceptive works and proposes cataloging solutions that are provocative and designed to spark debate. An extensive annotated bibliography describes books that are not what they seem.

**Fighting Malaria on the River Kwai** Jonathan R.C. Green, 2019-06-25 During World War II 12,000 Allied prisoners of war died while constructing a bridge over the river Kwai in western Thailand and then a railway through the thick jungles of the Kwai Valley all the way to Burma. Decades later during the Vietnam War Jonathan R.C. Green enlisted as a medic in the U.S. Army expecting to take care of wounded Americans and Asians but was kept in a Stateside assignment instead much to his frustration. So shortly before his enlistment expired he applied for the Peace Corps and asked to serve in Southeast Asia. Six weeks after leaving the Army he arrived in Thailand as a Peace Corps Volunteer. His job assignment was to fight malaria by controlling the mosquito populations in remote jungle villages in the valley of the infamous River Kwai. Besides the hazards posed by snakes, scorpions and centipedes in the jungle he ran the risk of contracting malaria, dengue fever and other mosquito-borne diseases while suffering severe bouts of dysentery. He often had to live on a monotonous diet of rice, bamboo shoots and hot sauce three times a day with the only reasonably safe drinking water coming from rain barrels teeming with mosquito larvae. While becoming accustomed to a rugged lifestyle in the jungle he had to quickly learn a complex language and exotic culture. An inadvertent misstep in manners could have damaged his credibility and hence the outcome of his undertaking as badly as catching the disease he was supposed to be
