Observations Made in New South Wales ... with Maps and Diagrams, 1887 **Lewis and Clark** Vernon

Preston, 2013-01-22 By Terry Nathans he weather and climate of the trans Mississippi west was virtually unknown at the begin Tning of the nineteenth century This changed dramatically shortly after the Louisiana P chase was signed in 1803 which set the stage for acquiring the first systematic weather measurements of the trans Mississippi west The framework for obtaining these measurements was outlined in the now famous June 20 1803 letter from President Thomas Jefferson to his prot g and personal secretary Captain Meriwether Lewis In that letter Jefferson instructed Lewis to plan and carry out an overland expedition to the Pacific Ocean for the purposes of commerce and to observe and record a broad range of natural history subjects including the climate as characterised by the thermometer by the proportion of rainy cloudy clear days by lightning hail snow ice by the access recess of frost by the winds prevailing at different s sons the dates at which particular plants put forth or lose their flower or leaf Jackson 1978 p 63 Jefferson s instructions to Lewis which were part of his decades long ambition of laun ing an expedition to explore the interior of North America were made at the threshold of what Fleming 1990 has called the expanding horizons in meteorology During this period more reliable meteorological instruments began to emerge allowing for a more comprehensive and systematic acquisition of weather data *River Towns in the Great West* Timothy R. Mahoney, 2003-02-13 This book analyzes with unprecedented breadth and coverage the development maturation growth and sudden decline of a distinctive regional urban economic system that developed along the upper Mississippi River north of St Louis during the middle third of the nineteenth century Climatological Data, 1975 The River's End James Oliver Curwood, 2020-09-28 Between Conniston of His Majesty s Royal Northwest Mounted Police and Keith the outlaw there was a striking physical and facial resemblance Both had observed it of course It gave them a sort of confidence in each other Between them it hovered in a subtle and unanalyzed presence that was constantly suggesting to Conniston a line of action that would have made him a traitor to his oath of duty For nearly a month he had crushed down the whispered temptings of this thing between them He represented the law He was the law For twenty seven months he had followed Keith and always there had been in his mind that parting injunction of the splendid service of which he was a part Don t come back until you get your man dead or alive Otherwise A racking cough split in upon his thoughts He sat up on the edge of the cot and at the gasping cry of pain that came with the red stain of blood on his lips Keith went to him and with a strong arm supported his shoulders He said nothing and after a moment Conniston wiped the stain away and laughed softly even before the shadow of pain had faded from his eyes One of his hands rested on a wrist that still bore the ring mark of a handcuff The sight of it brought him back to grim reality After all fate was playing whimsically as well as tragically with their destinies Thanks old top he said Thanks His fingers closed over the manacle marked wrist Over their heads the arctic storm was crashing in a

mighty fury as if striving to beat down the little cabin that had dared to rear itself in the dun gray emptiness at the top of the world eight hundred miles from civilization There were curious waitings strange screeching sounds and heartbreaking meanings in its strife and when at last its passion died away and there followed a strange quiet the two men could feel the frozen earth under their feet shiver with the rumbling reverberations of the crashing and breaking fields of ice out in Hudson s Bay With it came a dull and steady roar like the incessant rumble of a far battle broken now and then when an ice mountain split asunder with a report like that of a sixteen inch gun Down through the Roes Welcome into Hudson s Bay countless billions of tons of ice were rending their way like Hunnish armies in the break up You d better lie down suggested Keith Conniston instead rose slowly to his feet and went to a table on which a seal oil lamp was burning He swayed a little as he walked He sat down and Keith seated himself opposite him Between them lay a worn deck of cards As Conniston fumbled them in his fingers he looked straight across at Keith and grinned It s queer devilish queer he said Don t you think so Keith He was an Englishman and his blue eyes shone with a grim cold humor And funny he added Queer but not funny partly agreed Keith Yes it is funny maintained Conniston Just twenty seven months ago lacking three days I was sent out to get you Keith I was told to bring you in dead or alive and at the end of the twenty sixth month I got you alive And as a sporting proposition you deserve a hundred years of life instead of the noose Keith for you led me a chase that took me through seven different kinds of hell before I landed you I froze and I starved and I drowned I haven t seen a white woman s face in eighteen months It was terrible But I beat you at last That s the jolly good part of it Keith I beat you and GOT you and there s the proof of it on your wrists this minute I won Do you concede that You must be fair old top because this is the last big game I ll ever play There was a break a yearning that was almost plaintive in his voice [Annual Report](#) Cincinnati Chamber of Commerce and Merchants' Exchange,1885
