decades East Asia has gained prominence and has become synonymous with Asia while other Asian regions such as South and Southeast Asia have been subsumed under it The resultant overgeneralization has meant that significant aspects of the global ecological crisis as they affect these two regions have been overlooked Chitra Sankaran refocuses the global lens on these two rapidly developing regions of Asia Combining South Asian and Southeast Asian philosophical views and folk perspectives with mainstream ecocritical and ecofeminist theories she generates a localized critical idiom that qualifies and subverts some established theoretical assumptions This pioneering study introducing a corpus of more than thirty ecofictions by women writers from twelve countries in South and Southeast Asia examines how recent global threats to ecosystems in both nature and culture impact subdominant groups including women This new corpus reveals how women and subalterns engage with various aspects of critical ecologies Using ecofeminist theory augmented by postcolonial and risk theories as the main theoretical framework Sankaran argues that these women writers present unique perspectives that review Asian women s relationships to human and nonhuman worlds

[Steven Moffat's Doctor Who 2012-2013](#) Steven Cooper,Kevin Mahoney,2014-10-10 At over 90 000 words this is the most comprehensive fan guide yet published to the 2012 2013 season of *Doctor Who* After the first part of the season provided an emotional ending to the Doctor s travels with his friends Amy and Rory Steven Moffat presented an innovative and intriguing new mystery as the Doctor puzzled over the woman twice dead that is Clara Oswald who had the most spectacular introduction s of any companion This series was the most demanding yet for Moffat no other *Doctor Who* showrunner had previously faced an assignment like writing a series finale an anniversary story and a combined Christmas Special *Doctor* finale in quick succession We are with Moffat every

step of the way as he rises to this unique challenge The format of this book is the same as our previous Doctor Who guides Steven Cooper has written excellent detailed analyses of each episode which Slant Magazine published online in their House Next Door blog soon after each episode was broadcast In this way Steven s reviews provide an invaluable record of how a long standing fan reacted to each twist of the plot as it occurred House Next Door published Steven s 2013 episode reviews in abridged form he then expanded upon his analyses so this book contains far more of his insights than those published online Kevin Mahoney then follows Steven s analyses with his reviews which he wrote from the perspective of having watched the entire series This enabled him to gauge exactly how Steven Moffat had put this season together and to assess the success of his various hoodwinks and sleights of hand In this series Steven Moffat was just as ambitious as ever perhaps too ambitious at times when the scripting became uneven or the production team was not able to realize an episode as well as they might have done Despite this there were several episodes that rank among the best of the show s achievements which we applaud in this celebration of Doctor Who s 50th Anniversary *Three Exemplary Novels* Miguel de Unamuno,1994-01-18 No Spanish voice was heard during the fifty years of his active intellectual life which could compare with his in the strength of his passion nor in the profound seriousness with which he challenged every complacency The central idea in all his fiction is the struggle to create faith from doubt and ethics from inner strife **The Judge** ,1928
