River Horse A Logbook Of A Boat Across America:

River-Horse William Least Heat-Moon, 2001-04-01 The author of *Blue Highways* and *PrairieEarth* takes us on a lifetime voyage full of imagery insight and appreciation Cleveland Plain Dealer In his most ambitious journey ever William Least Heat Moon sets off aboard a small boat named *Nikawa* river horse in Osage from the Atlantic at New York Harbor in hopes of entering the Pacific near Astoria Oregon He and his companion Pilotis struggle to cover some 5 000 watery miles often following in the wakes of our most famous explorers from Henry Hudson to Lewis and Clark En route the voyagers confront massive floods dangerous weather and their own doubts about whether they can complete the trip But the hard days yield incomparable pleasures generous strangers landscapes untouched since Sacajawea saw them riverscapes flowing with a lively past and the growing belief that efforts to protect our lands and waters are beginning to pay off Teeming with humanity humor and high adventure *River Horse* is an unsentimental and original arteriogram of our nation at the millennium

River-horse William Least Heat Moon, 1999 **River-Horse** William Least Heat-Moon, 2001-01 The author chronicles his journey across America's waterways in his dory *Nikawa* River Horse encountering strange people hostile cities and hair raising dangers **River-Horse** William Least Heat-Moon, 2013-02-05 New York Times bestseller A coast to coast journey by way of great rivers conducted by a contemporary master of travel writing Kirkus Reviews In this memoir brimming with history humor and wisdom the author of *Blue Highways* and *PrairieEarth* voyages across the country from Atlantic to Pacific almost entirely by its rivers lakes and canals in a small outboard powered boat San Francisco Chronicle Setting off from New York Harbor aboard the boat he named *Nikawa* river horse in Osage in hopes of entering the Pacific near Astoria Oregon William Least Heat Moon and his companion Pilotis struggle to cover some five thousand watery miles more than any other cross country river traveler has ever managed often following in the wakes of our most famous explorers from Henry Hudson to Lewis and Clark En route the voyagers confront massive floods submerged rocks dangerous weather and their own doubts about whether they can complete the trip But the hard days yield incomparable pleasures strangers generous with help and eccentric tales landscapes unchanged since Sacagawea saw them riverscapes flowing with a lively past and the growing belief that efforts to protect our lands and waters are beginning to pay off Fizzes with intelligence and high spirits Outside Propels the reader with historical vignettes ecological and geological detail and often hilarious encounters with local eccentrics Time **Ecospatiality** Lowell Wyse, 2021-07-01 *Ecospatiality* explores modern and contemporary American prose literature through the lens of place showing how authors like William Least Heat Moon Willa Cather Richard Wright and Leslie Marmon Silko represent and reimagine real places in the world and the human environment relationships therein Building on the work of scholars in geography sociology ecocriticism and geocriticism this book articulates the theory of ecospatiality an understanding of place as simultaneously spatial ecological and historical In our current historical moment which is characterized by ongoing ecological collapse and a not unrelated increase in social disorder few issues are more

urgent than the human relationship with our environments Whether we characterize this new epoch as the climate change era or the Anthropocene we can no longer ignore the fact that the places we live are rapidly changing in response to economic and environmental pressures Rather than thinking of place as a neutral site for social interaction we should recognize how it underpins and intertwines with human experience Fortunately literature can help us think through how place operates Lowell Wyse shows that texts can be understood as works of literary cartography Focusing on works of nonfiction and fiction whose primary settings are on the North American continent Ecospatiality demonstrates how these narratives rely on realistic literary geography to invoke and sometimes retell important aspects of environmental history within particular communities and bioregions

Writing BLUE HIGHWAYS William Least Heat-Moon, 2014-05-13 Winner Distinguished Literary Achievement Missouri Humanities Council 2015 The story behind the writing of the best-selling *Blue Highways* is as fascinating as the epic trip itself More than thirty years after his 14,000-mile 38-state journey William Least Heat-Moon reflects on the four years he spent capturing the lessons of the road trip on paper the stops and starts in his composition process the numerous drafts and painstaking revisions the depressing string of rejections by publishers the strains on his personal relationships and many other aspects of the toil that went into writing his first book Along the way he traces the hard lessons learned and offers guidance to aspiring and experienced writers alike Far from being a technical manual *Writing Blue Highways: The Story of How a Book Happened* is an adventure story of its own a journey of exploration into the myriad routes of heart and mind that led to the making of a book from the first sorry and now vanished paragraph to the last words that came not from a graphite pencil but from a letterpress in Tennessee Readers will not find a collection of abstract formulations and rules for writing rather this book gracefully incorporates examples from Heat-Moon's own experience As he explains This story might be termed an inadvertent autobiography written not by the traveler who took *Ghost Dancing* in

1978 over the byroads of America but by a man only listening to him That blue roadman hasn't been seen in more than a third of a century and over the last many weeks as I sketched in these pages I've regretted his inevitable departure Filtered as the struggles of the blue roadman are through the awareness of someone more than thirty years older with a half dozen subsequent books to his credit the story of how his first book happened is all the more resonant for readers who may not themselves be writers but who are interested in the tricky balance of intuitive creation and self discipline required for any artistic endeavor

An Osage Journey to Europe, 1827-1830, 2013-11-18 In 1827 six Osage people four men and two women traveled to Europe escorted by three Americans Their visit was big news in France where three short publications about the travelers appeared almost immediately Virtually lost since the 1830s all three accounts are gathered translated and annotated here for the first time in English Among the earliest writings devoted to Osage history and culture these works provide unique insights into Osage life and especially into European perceptions of American Indians William Least Heat Moon's introduction poignantly tells of people leaving one alien nation the United States to visit an even more alien culture an ocean away In France the Osages found themselves lionized as noble savages They went to the theater rode in a hot air balloon and even had an audience with the king of France Many Europeans ogled them as if they were exhibits in a freak show As the entourage moved through Belgium Holland Germany Switzerland and Italy interest in the Osages declined Soon they were reduced to begging in the suburbs of Paris without the means to return home Translated by Heat Moon and James K Wallace the three featured texts are surprisingly accurate as basic descriptions of Osage history geography and lifeways The French authors influenced by racist and sexist expectations misinterpreted some of the behaviors they describe But they also dismiss rumors of cannibalism among the Osages and observe that the behavior of some whites was not conducive to giving the Indians a favorable opinion of white morality *An Osage Journey to Europe 1827 1839* offers scholars and general readers both a compelling story and a singular glimpse into nineteenth century cultural exchange
