Rivers in the City Roy Mann, 1973 Tras unos capitulos dedicados a analizar de forma general los aspectos y problemas tanto economicos como sociologicos historicos etc Que plantean los rios en su travesia por las ciudades se examina en concreto la forma en que diversas ciudades europeas y estadounidenses han utilizado el paisaje de sus rios en el proceso de su desarrollo urbano y regional

**River Cities, City Rivers** Thaïsa Way, 2018 Cities have been built alongside rivers throughout history These rivers can shape a city's success or cause its destruction At the same time city building reshapes rivers and their landscapes Cities have harnessed modified and engineered rivers altering ecologies and creating new landscapes in the process of urbanization Rivers are also shaped by the development of cities as urban landscapes just as the cities are shaped by their relationship to the river In the river city the city river is a dynamic contributor to the urban landscape with its flow of urban economies geographies and cultures Yet we have rarely given these urban landscapes their due Building on emerging interest in the resilience of cities this book and the original symposium consider river cities and city rivers to explore how histories have shaped the present and how they might inform our visions of the future

**Rivers in the City** Roy Mann, 1973 Urban and Metropolitan Rivers Joaquim Farguell Pérez, Albert Santasusagna Riu, 2024-08-27 This book provides a detailed description of fluvial processes and their influence on urban sites During the urban expansion of modern cities throughout the twentieth century rivers have become a source of problems during high flood events However due to growing social pressure especially in dense cities rivers are viewed as new leisure areas given that they also provide highly valuable ecosystem services People seek open and environmentally friendly spaces amidst the dense street networks of cities Yet we should not forget that rivers are not merely domesticated elements of nature for leisure purposes only Flooding risks and damages are possible within urban environments How should we address the social and ecological interactions How should we plan for these complexities to meet the growing social requirements and needs while respecting river dynamics Hydrologists geomorphologists engineers geographers and urban planners could leverage the knowledge and examples provided to enhance the interaction between nature and society in the growing cities of the twenty first century
