Maine takes readers on a rollicking behind the scenes look at some of the characters and episodes from the Pine Tree State's storied past. Including both famous tales and famous names and little known heroes heroines and happenings. **Neptune's Car - An American Legend** Paul W Simpson, 2017-05-04 Smashing her way through enormous cross seas and howling winds the Neptune's Car began to run her easting down. She passed a battered barque bearing Hamburg markings vainly attempting to make westing against a thundering south westerly gale. Those with an interest in American maritime history would know of the story of Mary Patten and the clipper ship Neptune's Car. However few would be aware of the cursed nature of the ship. The Patten's fateful voyage was just one in the career of a clipper whose travels spanned the globe. Built at the yard of Page Allen in Gosport Virginia in the spring of 1853 the Neptune's Car quickly established her reputation for speed. However murder mutiny mayhem plague disaster war death and financial ruin haunted any who know her. The fickle hand of fate was always at the helm and like the oceans upon which the clipper sailed she spared none who showed weakness. Volume One of the Virginia Clippers. **Ole Virginia Bound** Paul W Simpson, 2019-03-18 Sister to the famous flyer Swordfish the Gosport was the last clipper built in antebellum Virginia. Coming from the yard of shipbuilders Page Allen she started life as a Western Ocean packet carrying timber to Europe before returning to New Orleans with French and German migrants. The clipper's hold would then be filled with bales of cotton for Liverpool's mills. Ole Virginia Bound records unwritten tales of the state's last clipper and sheds light upon previously hidden period in America's maritime history.

Tending Nature Nathalie Gravel, 2024-10-25 This book aims to enhance understanding of the foundational principles and ethical considerations of citizen engagement in environmental conservation through an examination of successful cases of shared environmental governance in the Americas. It seeks to inform policymaking on strategies for fostering behavioral change and advancing towards co-management of national public resources and the commons. These cases are analyzed through a geographical lens to provide a framework for reimagining eco-citizenship grounded in bioregionalism. This perspective diverges from the notion of eco-citizenship as a universal culture advocating instead for its integration within the collective habitats of citizen groups. Readers will gain insights into fostering reconciliation between nature and humanity by empowering diverse stakeholders to lead Blue Green Bee conservation initiatives. Emphasizing community learning environmental awareness and citizen participation the book enriches decision making processes and promotes environmental justice for all living organisms. The selected case studies from Brazil Canada Costa Rica Mexico and the United States highlight pioneering innovations in Blue Green Bee policy planning across urban periurban and rural settings. These initiatives propose empathetic and respectful approaches to nurturing our natural surroundings including methods for co-management networked urban gardening wild native bee conservation water source protection community based water management river revitalization and metropolitan green space stewardship. This book will be invaluable to students urban and rural planners researchers academics networking professionals policymakers international development practitioners.
