

The background is a complex, layered image. At the top, a sunset or sunrise over a river is visible, with a city skyline in the distance. A large, semi-transparent DNA double helix is superimposed over the scene, running diagonally from the top right towards the bottom center. The title 'RIVERS OF THE BLACK MOON' is centered in a large, black, serif font. The word 'MOON' is unique, with the letter 'O' replaced by a solid black circle. The overall color palette is dominated by warm oranges, yellows, and reds from the sunset, contrasted with the dark blues and greys of the DNA helix and the city skyline.

The Enslaved and Their Enslavers Edward Pearson,2023-09-19 In *The Enslaved and Their Enslavers* Edward Pearson offers a sweeping history of slavery in South Carolina from British settlement in 1670 to the dawn of the Civil War For enslaved peoples the shape of their daily lives depended primarily on the particular environment in which they lived and worked and Pearson examines three distinctive settings in the province the extensive rice and indigo plantations of the coastal plain the streets workshops and wharves of Charleston and the farms and estates of the upcountry In doing so he provides a fine grained analysis of how enslaved laborers interacted with their enslavers in the workplace and other locations where they encountered one another as plantation agriculture came to dominate the colony *The Enslaved and Their Enslavers* sets this portrait of early South Carolina against broader political events economic developments and social trends that also shaped the development of slavery in the region For example the outbreak of the American Revolution and the subsequent war against the British in the 1770s and early 1780s as well as the French and Haitian revolutions all had a

profound impact on the institution's development both in terms of what enslaved people drew from these events and how their enslavers responded to them. Throughout South Carolina's long history, enslaved people never accepted their enslavement passively and regularly demonstrated their fundamental opposition to the institution by engaging in acts of resistance which ranged from vandalism to arson to escape and on rare occasions organizing collectively against their oppression. Their attempts to subvert the institution in which they were held captive not only resulted in slaveowners tightening formal and informal mechanisms of control but also generated new forms of thinking about race and slavery among whites that eventually mutated into pro slavery ideology and the myth of southern exceptionalism. **The**

David G. McCrady, 2009-09-11 In *The Pension Fund Revolution* originally published nearly two decades ago under the title *The Unseen Revolution* Drucker reports that institutional investors especially pension funds have become the controlling owners of America's large companies the country's only capitalists. He maintains that the shift began in 1952 with the establishment of the first modern pension fund by General Motors. By 1960 it had become so obvious that a group of young men decided to found a stock exchange firm catering exclusively to these new investors. Ten years later this firm Donaldson Lufkin that pensions and social security would be central to American economy and society that the retirement age would have to be extended and that altogether American politics would increasingly be dominated by middle class issues and the values of elderly people. While readers of the original edition found these conclusions hard to accept Drucker's work has proven to be prescient. In the new epilogue Drucker discusses how the increasing dominance of pension funds represents one of the most startling power shifts in economic history and he examines their present day impact. *The Pension Fund Revolution* is now considered a classic text regarding the effects of pension fund ownership on the governance of the American corporation and on the structure of the American economy altogether. The reissuing of this book is more timely now than ever.

It provides a wealth of information for sociologists, economists and political theorists. **Paddling Washington** Rich Landers, Dan Hansen, Verne Huser, Douglass North, 2008-04-07 112 routes in rivers, streams, lakes and bays in the Northwest.
