**Cultural Heritage and Human Rights** Helaine Silverman,D. Fairchild Ruggles,2008-10-14 Is there a universal right to the free expression and preservation of cultural heritage and if so where is that right articulated and how can it be protected No corner of today s world has escaped the effects of globalization for better or worse This volume addresses a deeply political aspect of heritage preservation and management as it relates to human rights

*Uses of Heritage* Laurajane Smith,2006-11-22 Examining international case studies including USA Asia Australia and New Zealand

this book identifies and explores the use of heritage throughout the world Challenging the idea that heritage value is self evident and that things must be preserved it demonstrates how it gives tangibility to the values that underpin different communities

**Faunal and Floral Migration and Evolution in SE Asia-Australasia** Ian Metcalfe,Jeremy M.B. Smith, Mike Morwood,Iain Davidson,2001-06-01 This multidisciplinary book focuses on the relationships and interactions between palaeobiogeography biogeography dispersal vicariance migrations and evolution of organisms in the SE Asia Australasian region The book investigates biogeographic links between SE Asia and Australasia which go back more than 500 million years It also focuses on the links between geological evolution and biological migrations and evolution in the region It was in the SE Asian region that Alfred Russell Wallace established his biogeographic line now known as Wallace s Line which was the beginning of biogeography Wallace also independently developed his theory of evolution based on his work in this area The book brings together for the first time geologists palaeontologists zoologists botanists entomologists evolutionary biologists and archaeologists in the one volume to relate the region s geological past to its present biological peculiarities The book is organized into six sections Section 1 Paleobiogeographic Background provides overviews of the geological and tectonic evolution of SE Asia Australasia and changing patterns of land and sea for the last 540 million years Section 2 Palaeozoic and Mesozoic Geology and Biogeography discusses Palaeozoic and Mesozoic biogeography of conodonts brachiopods plants dinosaurs and radiolarians and the recognition of ancient biogeographic boundaries or Wallace Lines in the region Section 3 Wallace s Line focuses on the biogeographic boundary established by Wallace including the history of its establishment its significance to biogeography in general and its applicability in the context of modern biogeography Section 4 Plant biogeography and evolution includes discussion on primitive angiosperms the diaspora of the southern rushes and environmental climatic and evolutionary implications of plants and palynomorphs in the region The biogeography and migration of insects butterflies birds rodents and other non primate mammals is discussed in section 5 Non Primates The final section 6 Primates focuses on the biogeographic radiation migration and evolution of primates and includes papers on the occurrence and migration of early hominids and the requirements for human colonization of Australia

**Prehistoric Mammals of Australia and New Guinea** John A. Long,2002 Diagrams showing skeletal features and tooth structure and a glossary of technical terms are included

**Invasion Biology and Ecological Theory** Herbert H. T. Prins,Iain J. Gordon,2014-01-23 Many conservationists argue that invasive species form one of the most important threats to ecosystems the world over often spreading quickly through their new environments and jeopardising the conservation of native species As such it is important that reliable predictions can be made regarding the effects of new species on particular habitats This book provides a critical appraisal of ecosystem theory using case studies of biological invasions in Australasia Each chapter is built around a set of eleven central hypotheses from community ecology which were mainly developed in North American or European contexts The authors examine the hypotheses in the light of evidence from their particular species testing their

power in explaining the success or failure of invasion and accepting or rejecting each hypothesis as appropriate The conclusions have far reaching consequences for the utility of community ecology suggesting a rejection of its predictive powers and a positive reappraisal of natural history

**Earth and Life** John A. Talent, 2012-06-28 This volume focuses on the broad pattern of increasing biodiversity through time and recurrent events of minor and major ecosphere reorganization Intense scrutiny is devoted to the pattern of physical including isotopic sedimentary and biotic circumstances through the time intervals during which life crises occurred These events affected terrestrial lacustrine and estuarine ecosystems locally and globally but have affected continental shelf ecosystems and even deep ocean ecosystems The pattern of these events is the backdrop against which modelling the pattern of future environmental change needs to be evaluated

**Encyclopedia of Geology**, 2020-12-16 Encyclopedia of Geology Second Edition presents in six volumes state of the art reviews on the various aspects of geologic research all of which have moved on considerably since the writing of the first edition New areas of discussion include extinctions origins of life plate tectonics and its influence on faunal provinces new types of mineral and hydrocarbon deposits new methods of dating rocks and geological processes Users will find this to be a fundamental resource for teachers and students of geology as well as researchers and non geology professionals seeking up to date reviews of geologic research Provides a comprehensive and accessible one stop shop for information on the subject of geology explaining methodologies and technical jargon used in the field Highlights connections between geology and other physical and biological sciences tackling research problems that span multiple fields Fills a critical gap of information in a field that has seen significant progress in past years Presents an ideal reference for a wide range of scientists in earth and environmental areas of study

The Wollemi Pine James Woodford, 2012-01-30 In mid 1994 a National Parks Wildlife ranger abseiling in the Wollemi Wilderness outside Sydney came upon an extraordinary sight a canyon filled with massive pines What he accidentally discovered has become one of the century s most important botanical finds The ancient pines were thought to have become extinct millions of years ago

The Biology and Conservation of Australasian Bats Bradley Law, Peggy Eby, Lindy Lumsden, Daniel Lunney, 2011 This book the Biology and Conservation of Australasian Bats follows from the successful 3 day forum of the same name held in April 2007 at the Australian Museum The forum was organised jointly by the Royal Zoological Society of NSW and the Australasian Bat Society

Tree-kangaroos of Australia and New Guinea Roger William Martin, 2005 To many people the suggestion that a kangaroo could live up a tree is fantasy Yet in the rainforests of Far North Queensland and New Guinea there are extraordinary kangaroos that do just that Many aspects of these marsupials anatomy and biology suggest a terrestrial kangaroo ancestor Yet no one has so far come forward with a convincing explanation of how why and when mammals that was so superbly adapted for life on the ground should end up back in the trees This book reviews the natural history and biology of tree kangaroos from the time of their first discovery by Europeans in the jungles of West Papua in 1826 right up to the present day covering the latest research being conducted in Australian

and New Guinea Combining information from a number of disparate disciplines the author sets forth the first explanation of this apparent evolutionary conundrum Features Provides a fascinating and readable account of an unusual evolutionary conundrum Written by a field biologist with more than a decade s experience working with tree kangaroos **Riversleigh Symposium 1998** S. J. Hand,J. R. Laurie,2001 Collection of articles on the highly important finds made over 25 years at Riversleigh and Murgon that have made it possible to understand the last 55 million years here Mammalogy ,
