Riviera Masquerade Margaret Brayshaw,1988 **The Future is Feminine** Ciara Cremin,2021-05-20 Carnage in the classroom misogynists in high office sociopaths in uniform masculinity is a killer From styles of dress to the stunted capacity for expressing a diversity of emotions becoming a man involves killing off and repudiating anything that in our society is held as feminine When a person is unable to show compassion and tenderness or when exposed for their frailties feels angry and humiliated they have problems Problems that none of us are immune to Masculinity Cremin provocatively declares is a generic disorder of a sick society that afflicts even the best of us Neither a condition of being human nor even of male it is a disorder as she illustrates of a capitalist society that depends and even thrives upon its very symptoms From the perspective of a trans woman raised to be a man the book maps the disorder and speculates on the possible means to overcome it Instead of signifying weakness catastrophes can be prevented when the qualities men often fear and women often feel subordinated to are prioritised affirmed and nourished Drawing amongst others on Marx and Freud Cremin eloquently demonstrates why there can be no future other than one in which we are all reconciled as a society with the feminine In such a future the terms masculine and feminine will neither define us nor determine our relationship to one another **The Palgrave Handbook of**

Image Studies Krešimir Purgar,2021-10-01 This handbook brings together the most current and hotly debated topics in studies about images today In the first part the book gives readers an historical overview and basic diachronical explanation of the term image including the ways it has been used in different periods throughout history In the second part the fundamental concepts that have to be mastered should one wish to enter into the emerging field of Image Studies are explained In the third part readers will find analysis of the most common subjects and topics pertaining to images In the fourth part the book explains how existing disciplines relate to Image Studies and how this new scholarly field may be constructed using both old and new approaches and insights The fifth chapter is dedicated to contemporary thinkers and is the first time that theses of the most prominent scholars of Image Studies are critically analyzed and presented in one place
