## Road Retaken:

*Decisions at Forts Henry and Donelson* Hank Koopman, 2025-05-02 The Battles of Forts Henry and Donelson took place in February of 1862 and were early indicators of the success the US would have in the Civil War's Western Theater. Due to Kentucky's neutrality at the time, Brig Gen Daniel S. Donelson was instructed to find suitable sites for fortification along the Tennessee River but just inside the state boundaries of Tennessee. Forts Henry and Donelson were constructed in the summer of 1861 and were quickly identified by Gen Ulysses S. Grant as strategic fortifications that if conquered would open the Federal Army's path to Alabama and Mississippi. Fort Henry fell to Federal control on February 6, 1862, and Fort Donelson fell six days later. With the Tennessee and Mississippi Rivers now open to Federal gunboats, Grant and his army would head southwest to Memphis and on to Vicksburg. *Decisions at Forts Henry and Donelson* explores the critical decisions made by Confederate and Federal commanders during the battle and how these decisions shaped its outcome. Rather than offering a history of the battle, Hank Koopman hones in on a sequence of critical decisions made by commanders on both sides of the conflict to provide a blueprint of the Battles of Forts Henry and Donelson at their tactical core. Identifying and exploring the critical decisions in this way allows students of the battles to progress from a knowledge of what happened to a mature grasp of why events happened. Complete with maps and a driving tour, *Decisions at Forts Henry and Donelson* is an indispensable primer and readers looking for a concise introduction to these battles can tour this sacred ground or read about it at their leisure with key insights into the campaigns and a deeper understanding of the Civil War itself. *Decisions at Forts Henry and Donelson* is the eighteenth in a series of books that will explore the critical decisions of major campaigns and battles of the Civil War.

*Strangers At Home* Kimberly D. Schmidt, Diane Zimmerman Umble, Steven D. Reschly, 2003-05-22 Uniformly sophisticated, interesting, and worthwhile essays focusing on the often misunderstood experiences of Anabaptist women across 400 years. Agricultural History Equal parts sociology, religious history, and gender studies, this book explores the changing roles and issues surrounding Anabaptist women in communities ranging from sixteenth-century Europe to contemporary North America. Gathered under the overarching theme of the insider-outsider distinction, the essays discuss among other topics how womanhood was defined in early Anabaptist societies of the sixteenth and seventeenth centuries and how women served as central figures by convening meetings across class boundaries or becoming religious leaders. How nineteenth-century Amish tightened the connections among the individual, the family, the household, and the community by linking them into a shared framework with the father figure at the helm. The changing work world and domestic life of Mennonite women in the three decades following World War II. The recent ascendancy of antimodernism and plain dress among the Amish. The special difficulties faced by scholars who try to apply a historical or sociological method to the very same cultural subgroups from which they derive. The essays in this collection follow a fascinating journey through time and place to give voice to women who are often characterized as the quiet in the land. Their voices and their experiences.

feminist studies and the object of some of the more rancorous criticism lodged against early feminist scholars Gubar stands in a unique position to comment on current dilemmas Moving beyond defensiveness produced by generational rivalry the impasse propagated by smug deployments of identity politics and the obscurity of poststructuralist theory she claims that the very controversies that undermine feminism's unity also prove its resilience Gubar begins by considering the volatile impact of gender on recent redefinitions of race sexuality religion and class proposed by four important groups in contemporary feminism African American performance and visual artists lesbian creative writers Jewish American women and newly institutionalized female academics She then addresses major divisions including the rifts between various area studies and women's studies as well as strains between generations that both threaten and invigorate feminist inquiry Gubar's forays into art and activism politics and the profession provide a sometimes distressing sometimes comical sometimes optimistic view of feminism emerging from a time of contention into a lively period of pluralized perspectives and disciplines Women & Aging Helen Rippier Wheeler, 1997 Guide with more than two thousand bibliographic entries and cross references It includes journal articles book chapters essays and doctoral dissertations as well as complete books
